Church life, and have benefited

by its commercial progress. I

am thankful for the home and

it has developed so effectively

It is a happy experience to have the inauguration of this new administration in this building which compares favorably with the facilities I know in any town the size of Clinton. The idea for this municipal center was first advocated in the administration of Mayor Peck Cornwell and the accumulation of funds begun. During the administration of Mayor Noland Suddeth, a skillful brick mason and experienced contractor, additions were made to the building fund and he presented a check of \$260,000 and completed plans when he relinquished the office to the late Mayor Harry Layton, I feel sure that all of you join me in appreciation for what these men and their predecessors in office did to make Clinton a town in which we have pride.

I sought the office of Mayor because I love Clinton and want to show my esteem by serving it to the best of my ability. I earnestly desire that every citizen be dealt with fairly and I seek the cooperation of all citizens. I pledge to you that I will devote my full energies in trying to maintain the traditions of progress which have long been a Clinton heritage.

Thank you very mach for your attention tonight.

Suddeth distributed the report Monday afternoon at a luncheon sponsored by Planning Commission.

The text of his report is as follows.

First of all let me remind you that I am serving you as mayor, which ends today, for the unexpired term of the late Honorable Mayor Harry C. Layton. It has been a honor to have had the privilege to complete his programs and end this term of office in a way which I hope would have been favorable to him. I have tried to serve you

I have tried to promote and continue all in my short term of office in a way which he would have been proud. I hope this will give you an idea of Clinton's major planning and improvements for the past several years.
