

A White Elephant on Party's Hands.

Republican leaders are said to be still hard at work trying to devise a plan for getting rid of Theodore Roosevelt. He bothers them. Like Artemus Ward' monkey, they never know "what the cuss is going to do next," and it worri- them. Some of them are now understood to be trying to persuade him that it would be a grand thing for him to take personal charge of the Panama canal at the expiration of his term and push it to completion in much less time than the engineers say the work can be completed. They are telling him that the banks would be firmer and the water and the canal a more brilliant achievement if he dug it, and that history throughout the ages would sing the glories of the Rooseveltian canal. It may be that these flatterers will win out. The President likes to be told of his greatness and how he may become greater.

Birmingham, Ala., Dec. 29.—Roosevelt does not know anything about the negro and every time he touches him he makes a mess of it. He had no business discharging the negro

troops at Brownsville before making a careful investigation. I doubt very much whether or not he is vested with the authority to take such matters in his own hands anyway."

Thus spoke United States Senators Benjamin Tillman here today.

Senator Tillman addressed a large audience tonight which applauded the vigorous sentiments he expressed. The Senator talked on the negro question largely and said that the white men owe all their good qualities to the women of their race.

"The negroes have not the women possessing qualities which will make them high-minded, and this has been their greatest drawback."

Speaking of lynching which he said would continue as long as the crime of rape continued, the Senator exclaimed:

"With the oath on my lips to uphold the law, I would lead a mob any time to lynch a man, black or white, who had ravished a woman."

A dispatch from Lincoln, Nebraska, a few days ago announced that Col. William J. Bryan practically has admitted that he would be a candidate for the Democratic nomination for the Presidency in 1908. The undisputed evidence in the case dropped out before the admission.

The Senate Committee on Forest Reservations has favorably reported a bill directing the Secretary of Agriculture to purchase or otherwise acquire lands for a National forest reserve in the Appalachian Mountains, within the States of North Carolina, South Carolina, Georgia, Alabama, Tennessee, Virginia, West Virginia, and Maryland. The sum appropriated is \$3,000,000 exclusive of timber or mineral rights. This is one bill that Congress should lose no time in passing.

One of the best signs of the future industrial progress of the South is the development of our splendid water powers. Electrical transmission plants of large magnitude are under way in the Carolinas. At Columbia on Thursday a company was chartered to develop the Calhoun Falls power. The corporation has a capital stock of \$280,000, the incorporators being Gen. M. C. Butler, of Edgefield, Adger T. Smyth, of Baltimore.

"I had tried everything for my baby, until Dr. Lyle recommended Caseasweet. I can truthfully say it is the best medicine I ever used for babies. My little baby was a mere skeleton from stomach trouble—so bad that she did not notice anything, but is now entirely well, and we can almost see her

grow.—Nanna L. Taylor, Bedford, Va." Caseasweet is sold by T. E. Wannamaker druggist.

Some Japanese at San Francisco, in a paper called "The Revolution," plainly advocate the assassination of President Roosevelt, the Mikado of Japan and other rulers. This comes with ill grace after Mr. Roosevelt advocated the naturalization of Japanese in this country and threatened the Californians with dire consequences for not letting Japanese mix with their children at school.

A New York grand jury has indicted former insurance magnate Geo. W. Perkins and former Secretary of the Treasury Chas. S. Fairchild on the charge of forgery. The grand jury however, coupled with the indictments exculpatory statements which will give a trial jury cause for that "reasonable doubt" of guilt. The affair is probably one of District Attorney Jerome's grand stand plays.

This man bought a supply of tobacco without acquainting himself with the distinctive taste of SCHNAPPS Tobacco, which has the cheering qualities that gratify his desire to chew, and at less expense than cheap tobacco.

SCHNAPPS has been advertised in this paper so that every chewer has had an opportunity to get acquainted with the fact that drugs are not used to produce the cheering quality found in the famous Piedmont country fire-cured tobacco, and that SCHNAPPS is what he ought to chew. Still there are chewers who accept other and cheaper tobaccos that do not give the same pleasure.

Some day they'll get a taste of the real Schnapps—they'll realize what enjoyment they've missed by not getting SCHNAPPS long ago—then they'll feel like kicking themselves.

SCHNAPPS is sold everywhere in 5 cent cuts, and 10 and 15 cent plugs. Be sure you get the genuine.
