Presumably there will auguration day program in a nutshell be sixteen new faces in the senate as prepared by them:

The morning escort of the president from the White House to the capitol at 10 a. m. by the veteran grand division; the exercises at the capitol on a stand accommodating 7,000 persons, concluding with the administration of the oath of office to the president and his address; the assembly of the military and grand division in the streets south and southeast of the civic grand division in the streets west and northwest of the capitol; the afternoon escort of the president by the military and civic grand divisions from the capitol to the White House at the conclusion of his tnaugural address at about 1:20 p. m.; review of the mill tary and civic grand divisions by the president from his stand in the court of honor in front of the from about 3 to 6 in the al the dismissal of the parad play of fireworks from 7:20 to 9 p. in.

In the military division there will be about 3,000 sailors and marines from the battleship fleet, fresh from its cruise around the world; the famous Philippine constabulary band, the midsnipmen and cadets from the academies at Annapolis and West Point.

The joint committee of the two houses of congress purposes to make auguration of President Taft and Vice President Sherman as solemn and dirnified as belits so important an event. Joy and music and the spirit of festivity will mark the mangural parade, and the scenes along the streets will

There will be a slight change this year in the order of the progress of the president, the president elect and the vice president and the vice president elect to the capitol. In view of the close relations of Senator Lodge to the president he will ride in the carriage with the president and the president elect, have as escort Senator Bacon and Representatives Burke and Gaines, while the vice president elect will be accompanied by Senator Frye, the presiden pro tempore of the senate, and Representative Young. Heretofore only one senator has accompanied the two chief figures in the ceremonies.

Ball a National Function. Always a pleasing and picturesque feature, it is proposed to make the inaugural ball of 1909 something moregreat national function of supreme interest and significance. It will take the form of a reception by President Taft and Vice President Sherman to the country at large. Each state in the Union will be officially represented on the floor by one of its distinguished sons, whose mission it will be to cooperate officially in the presentation of the visitors from here there and ev-

chairman of the committee in charge of the inaugural ball and has so planned the event as to bring the entire Union through the forty-six states into direct and active participation in the

"Washington is a national city, a city belonging to the country," Chairman Blair said in discussing the ball arrangements. "It is our desire that all who come to the inauguration-and there promises to be the biggest attendance in the history of these affairs-should feel that in coming to the national capital they are coming to their own city.

"The ball will be essentially and distinctively national. A representative from each state has been designated as a member of the inaugural ball committee. These gentlemen will know many of the people who come from their respective states and will see that they are properly introduced to the statesmen and their wives and other distinguished visitors. Thus it is hoped to bring the forty-six states into close touch with the national capital on this memorable occasion."

An Awful Liar.

Sir Archibald Geikie, the distinguished geologist, tells a good story in his capital book of "Scottish Reminis cences." "I was quite sure you had been in our neighborhood," a friend said to Sir Archibald. "I met the old to tell me. 'Dod, Mr. Caltheart,' he began, 'I ran across the queerest body head of the cleugh I thocht I heard a wheen tinkers quarrelin', but whan Caitheart, last an awfu', awfu' lecar."

#### THE BEY'S GUEST.

He Was Ready For the Emergency and Conquered the African.

A show of force is often the best kind of diplomacy. A writer in the Paris Temps tells a story of the French admiral Dupetit-Thouars, who had been intrusted with the mission of exacting reparation from an African bey who had insulted a French consul. As Dupetit-Thouars' demands were supported by the forcible argument of

loaded cannon, the bey acknowledged that he had been too hasty and proffered profuse apologies. He even invited the admiral to his table and had a sumptuous repast prepared for his The consul warned the admiral to be

called his dragoman. "My pistols," was all he said. The servant saluted, retired and brought back a pair of pistols on a silver tray. The admiral took them and placed them on the table before him. But the bey, still smiling, continued to stroke his patriarchal beard.

"Tell the commander." he said to the dragoman, "that if those pistols are for the purpose of blowing out my lion's brains they are quite insufficient and perfectly useless."

Then, like a skilled fencer countering his opponent's thrust, after the bey's ironical advice had been translated Dupetit-Thouars replied:

"Tell his highness that my pistols are not there to kill his lion, but to blow his own brains out at the first movement of this objectionable carpet." Gravely, but a little pale, the man

Seythians were away on a long campaign their slaves took the opportunity to rebel and seize all their masters' property. The latter on their return promptly attacked them, but were continually defeated until at last one of them hit on the brilliant idea of attacking the slaves with whips only. That, he said, would remind them of their origin and so cow them that they would never dare to stand. The Scythians followed his counsel, and it fell out as he had predicted. that these fertilizers cannot be profitably used on it, or that they were made only for land too poor to produce without them. If poor land will show a normal increase when fertilizer is used, good land will show at least double the increase. Use Virginia-Carolina Fertilizers to increase the quality, as well as the quantity of the crop—and you will increase the profits from your land.

"I have been using your fertilizers for a number of years" says Mr. William Fraiser, of Glasburg, La., "and find that it not only pays to fertilize, but to do plenty of it, and use the best fertilizers to be had, such as your brands. I have used a number of them and found them to be as recommended and to give better results than any other fertilizers that I have ever used."
