How about a Chesterfield man running for governor this summer? We heard some such talk as that last week. The man spoken of would make an ideal official but The Chronicle doubts very seriously that he has the least idea of entering the race.

An exchange starts off an editorial with this statement: 'It's funny what money will do.' We read the article carefully and failed to find where money did any funny things, but we were impressed with the idea that people with money sometimes did mighty funny things.

After May 1 all grain shipped into the State will be inspected by a State official. But what's the need of shipping grain in this State? There ought to be enough raised in the State to more than supply the local demand, and there will be as soon as the farmers abandon the suicidal "all cotton" policy.

President Taft has let go of his policy of economy to the extent of sanctioning the passage of an omnibus public building bill providing the expenditure of twelve millions to fifteen millions of dollars in the erection of government buildings distributed carefully over the country. It is hoped that Cheraw will be favorably considered in the selection of towns needing government buildings.

Two, at least, of Pennsylvania's State Capitol grounds are to go to prison. Former Auditor General William P. Snyder and former Superintendent of Buildings and Grounds J. M. Shumaker, convicted defendants in the state capitol graft cases, have been refused an appeal from the decision of the superior court and the quarter sessions court, and have been ordered to report immediately to the Sheriff of Dauphin county to begin their sentences of two years each. The decision from the highest court in the state admits of no appeal and absolutely nothing can now intervene to save the former officials from prison.

Only a few years ago the country was suffering with the bicycle craze; now it is the automobile craze, next year it may be the "flying machine craze." Seriously speaking, the automobile industry has been of phenomenal growth. It is scarcely fifteen years ago that they began to be made, and they were then regarded as expensive toys for the very rich. But each year the business increased until now it is the leading industry. Every factory in the country is working over time, and is overstocked with orders. For some of the favorite makes purchasers have to wait several months before the machines are delivered. Last year the output of the shops was 115,000 cars, and this year it will run up to 200,000, with an average price of \$2,000. That means that the country will pay \$400,000,000 for automobiles during the twelve months.

We presume that every citizen of our town is, or ought to be, desirous to see it grow, to see it improve, to see it advance in all the interests that pertain to a town of thrift and enterprise. Again we presume that if you, who live in your town, make no effort in this direction, who, if there are any benefits accruing therefrom, would be the recipients thereof. We do not believe our neighbors, who have no particular interest in our welfare, would be so very mindful of us as to give us a boost by investing a few thousand dollars for our

especial good, or starting any enterprise that would be for the upbuilding of our town. If a town is ever built up and placed in a growing condition it will be directly or indirectly due to those who live in it and if you wish to know the steps to be taken we will cite a few. Talk it up, its interests, its facilities and various adaptabilities to different branches of its industry. Write about it, beautify its streets, invest your money in it, patronize its merchants and every enterprise as far as it is at all consistent, elect good men to office, advertise in its newspapers, be courteous to those who come among you and never let an opportunity to speak a good word about it pass. Remember that every dollar you invest in a permanent improvement is that much money at interest and is that much toward building up your town.

### Suggestion to the County Supervisor.

The Chronicle wishes to suggest to the county supervisor that he call a meeting of the road overseers and township commissioners, to be held at some easily accessible place in the county some time soon, to discuss methods and plans for working roads. It might be a good thing for the board of trade to invite the supervisor to hold the meeting here in Cheraw, and then co-operate with him so as to have an enthusiastic gathering.

Of course we all know it takes more than meetings and discussions and enthusiasm to build roads. But if you can once get the enthusiasm and the determination to have the roads the other things will come.

We do not believe we are getting the results that we ought from the resources.

The trouble is the work is not intelligently done and it is done without system and without regard to any permanent road making.

The need is to have some system in making roads and by conferring together good can but result. Lets have the meeting and let there be a rousing big meeting.

The Southern railway may use gasoline motor cars on the Spartanburg and Asheville division for the benefit of the tourist travel during the summer. The officials have placed an order for ten gasoline motor cars. Motor cars are being used successfully by the Union Pacific.

Congress has refused to vote Peary a reward for finding the North Pole until he submits his proofs. That's right.

Coffee Drinking Denounced. As early as 1633 coffee was satirized in England, and on every hand the bitterest invectives were applied to it by the press and pulpit. In one instance a preacher hurled anathemas at the heads of those who used as a beverage "a sirup of soot and essence of old shoes!" Probably he had good grounds for this statement, having sampled some boiled coffee. Another divine denounced it "a poison which God made black that it might bear the devil's color!" The women also took up the cudgels against it.—London Mail.

## A MEAT FAMINE SEEMS IMMINENT.

### Some Statistics That Ought to Start Hog Raising on a Boom in this Section.

One of the largest meat packers thus writes their representative: A meat famine seems imminent. We do not know what will happen if the price of hogs continue to rise, as is now freely predicted by the drovers. They seem to think that 12 cent hogs will arrive shortly. Live hogs sold for \$10.90 on the 5th and the price today (10th) is \$11.25. Drovers predict 12 cents tomorrow. The total stock of pure lard in five western points is about 54,000 tierces less than last year. The stock of meats averages from one-quarter to one-half of what was reported last year at this time. The shortage of live hogs amounts to nearly 7,000,000, while the shortage in hogs killed since November 1st is about 3,000,000. You can readily realize this puts before us the most serious problem in the history of the packing business.

No use evading the issue. There is not enough meat to go around. It behoves every salesman to put the truth before the public. Meet any hysterical statements of the "yellow papers" with cold, hard facts, viz: the high cost of hogs.

Let them see the grave danger of a meat famine and act accordingly.

Should any one be foolish enough to think the packers like high prices for goodness sake dispel the illusion. It is simply impossible for us to pack these hogs at a profit.

## GENERAL NEWS

MARCH 14.

Senator Bacon presided over the senate yesterday in the absence of the vice-president. The selection of a minority senator for such a place is unusual.

President O. O. Kruger of the Rapid Transit Company and W. Mahon president of the street and electric railway employees held a conference in Philadelphia yesterday but nothing definite was accomplished toward settling the strike.

A white man killed a negro near Elloree yesterday and the white man himself was seriously wounded. There were no eye-witnesses to the affair.

Mr. Joseph Wallace, a well-known citizen of Yorkville, died yesterday.

The Young Men's Christian Association meets in Anderson March 17th to 20th. A very attractive program has been prepared.

A street car motorman named McCall was hit by a brick or something in the suburbs of Columbia last night and severely injured.

A Timely Protection  
Everyone knows the after effects of LaGrippe are often more dangerous than the disease. So often it leads to pneumonia, which a weakened heart action makes fatal. LaGrippe coughs that strain and weaken the system yield quickly to the healing and strengthening qualities of Foley's Honey and Tar. Sold by all druggists.

It costs more money for a dull merchant to brush the dust off his goods than it would to advertise and sell them.

# CORTRIGHT METAL SHINGLES

## ARE FIRE PROOF

THEY will not burn. Will not split or curl like wood shingles. Will not crack and rot like slate. Will not rip at the seams like plain tin. Neither will they rattle during high wind storms. They never need repairs and last as long as the building. And last of all, they make the handsomest roof and are not expensive.

#### Curious Remedies.

In Lincolnshire if a girl is suffering with the ague she cuts off a lock of her hair and ties it to an aspen tree. Implying the latter to shake in her stead. In good old Ross-shire, where every once in a while a rooster is buried alive as a remedy for epilepsy—not in the rooster, but in the person who does the burying—some of the hair of the patient is generally added to the offering.—London Standard.

#### Saved a Soldier's Life

Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 150 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 178 pounds."
