d guaranteed to be fit

JS Rhame.

Every house heeper knows how to Mr. J. W. Blakeney can supply every honsekeeper in Camden with as choice a variety as has ever been brought to Camden—all perfectly fresh. Look at the list: Vanilla Griep, Fancy Mixed, Elephant Milk. Sponge Jumbles, Jelly Grystis, Medium Mixed, Vanilla Hand (Fancy) French Jumbles, Mine Cakes, Corn Hills, Soda Grasters, Butter Crackers, Cyster Grackers, Lemon Grackers, Gream Grackers, Ocean Foam Grackers, Range okers, Ocean Foam, Cinger snaps.

A Girl's Composition on Boys.

Boys are men that have not got as oig as their papas, and girls are young ladies by and by. Man was made before woman. When God looked at
Adam, he stid to be sent, "Well I
guess I can be setter if I try again,"
and then he made Eve. God liked Eye so much better than Adam that there have been more women than men ever since. Boys are a trouble. They are wearing on everything but soap. If I had my way, half the boys in the world would be little girls, and the rest would be dolls. My papa is so nice that I guess he must have been a girl when he was a little boy.

Convenient Calenday and Stand.

The most convenient, valuable, and lovel business, table, or desk calendar for 1889, is the Columbia Bicycle Calendar and Stand issued by the Pope M'fg .Co., of Boston, Mass. The calendar proper is in the form of a pad containing 365 leaves, one for each day in the year, to be torn off daily. The leaves are 58x23 inches, t., Mr. John Kelly to a portion of each left blank for memoranda, and as the leaves are not pasted, but sewed at the ends, any entire leaf, as well as the memorandum blank, can be exposed whenever desired. The pad rests upon a portade stand, which takes up very little room, and when placed upon the tax, 51, and constitutional school desk or writing table, the entire surface of the date leaf is brought directly, and left constantly, before the eye, furnishing date and memoranda, impossible to be overlooked. The upper portion of the stand is made of pressed pulp, with the word "Columbia" in raised letters at the top, the whole being handsomely gilded, and practically indestructible. Good Advice.

Have the courage to make a will and a just one.

Have the courage to tell a man why you do not lend him your money.

Have the courage to prefer comfort
and prosperity to fashion in all things. Have the courage to wear your old slothes until you can pay for new

moral character, said: "Yer Have the courage to discharge I don't see the necessity of a debt while you have the money in your pocket.

Have the courage to do without that which you do not need, however

entertainment of your friends within your means, not beyond them. Have the conrage to acknowledge

your ignorance rather than to seek

credit for knowledge under false

pretences. have the courage to speak to a friend in a seedy coat, though you are in company with a rich one, and richly attired.

respect honesty in whatever guise it appears, and your contempt for dishonest duplicity, by whomsoever exhibited.

Have the courage to cut the most agreeable acquaintance you have when convinced he lacks principle. "A friend should bear with a friend's infirmities," but not with his vices.

An Off-Hand Way to Measure An Acre. Few farmers know the size of their

fields or how many acres they contain. A field of the writer's, before it came into his possession, had been plowed by contract for fifteen acres. On measuring it was found to have but welve acres. It is desirable, in fact, indispensable for good work, that a farmer should know how many acres each field contains, for otherwise he can not apportion seed or manure for it, nor can he tell how much time it should require to be plowed. A measuring cord should be part of the furniture on every farm. To make one, procure sixty-seven feet of strong rope, one inch round; make a loop or fasten a ring or bar at each end, and make these precisely sixty-six feet apart. This is four rods. Then tie a piece of red rag in the centre. One acre of ground will be a piece four of the cords (chains) long and two and one-half wide, equal to sixteen by ten rods, making 160 square rods to 1 acre. The advantage of the ring or loop is that one person can meaure alone by driving a stake in the ground to hald driving a stake in the ground to hold the rope while he stretched it out. The rope shoud be soaked in tar and dried, which will prevent it from shrinking when wet.—Ex.

ent Notice. We published last week, as a matter of information for our patrons, the Auditor's tax assessment notice. As will be seen by it the books for making tax returns will be open from Jan.

1st to Feb. 20th, 1889. It has been his custom heretofore to publish the notice in all the papers of the town, but patronage for us from the Auditor's office, while the present incumbent fills it, will be like love— there will be little or none of either. However, any public matter emana-ting from the Auditor's office, which is of any importance to our readers, will be published by us whether we are authorized to do so or not, as we are determined to keep our patrons posted on all matters of importance.

unless you also love them.--Christianly love them. It is not the smallest use to try to make people good unless you try at the same time, and they feel that you are trying, to make them happy. And you rarely can make another happy unless you are happy

Watering Horses.

There is a certain want of common sense and humanity in the habit many persons have of watering horses three times daily. The only reasonable or sensible or prudent plan to pursue is to give animals water according to their real wants. This is a different matter from giving it to them capriciously, or according to their fancy. If we give to the latter, we will find the animal becomes as a monkey, and will play the old goldier at every opportunity, pretending to drink and making believe, so as to gain time and shirk work. But it is simply cruelty to comp

team to plow or work from m until noon, or from noon un without allowing it the priviles of a refreshing draught. It is inconvenient, many times, to water teams during the foreneen or after ing the forencon or aftergoon, and we are apt to think the lime thus lost, but when the farmers millenium comes there will probably be drinking in every field, supplied from some elevated spring or some running limite meanwhile, time "lost" in doi good, even though it may be in behalf of dumb animals, is well "lost" to may be regained. Could
