Liberty Hill News

March 14.—The cold weather which set in on March 8 continued throughout last week with the first fall of snow on Wednesday morning, with clear skies and hard freezing cold Thursday and Friday, rain Saturday with a light fall of snow Sunday morning and a cold Northwest wind today (Monday), making the first week of "real winter" we have had this season.

Mr. C. W. Nuite, county forester, met on Wednesday evening at the store of Mr. R. C. Jones with the Liberty Hill branch of the Kershaw County forestry association, and succeeded in arranging some small matters that were necessary before the State Forester could proceed further. And then on Thursday at the annual meeting of the County Association in Camden with State Forester Smith, which was attended by Messrs. R. C. Jones, L. P. Thompson, E. L. Jones and F. B. Floyd, we understand that arrangements were perfected for the early erection of the fire observation tower at this place, the material for which was to be ordered by wire at once. We are glad the matter has been favorably adjusted, and feel sure the presence of an organized effort to prevent forest fires in this section will prove of great value to farmers and owners of timberland in the years to come.

At the church Sunday morning: Sunday school in charge of Superintendent L. P. Thompson, who also conducted the 11:15 church service, a large congregation being in attendance.

The baby of Mr. and Mrs. H. S. Higgins was reported to be quite ill on Saturday last, but Dr. Harris of Lancaster was called in and the baby was said to be better on Sunday.

Very respectfully,

Poultry Specialist Gives Timely Advice

Miss Juanita Neely, Extension Poultry Specialist, has written the following letter to all poultry raisers:

Dear Poultry Raiser:

No doubt you are interested in the general outlook pertaining to poultry production at this time. Outlooks are forecast for six months at a time due to many influencing factors.

Eggs:—Prices of eggs during the first six months of 1932 may be expected to average about the same as in 1931. With production and receipt likely to be slightly less than during the preceding year, prices might be expected to exceed those of 1931, but the reduced demand for consumption and storage purposes during the spring coupled with the lower prices of feedstuffs and the lower general price level will tend to offset the influence of moderate receipts.

Poultry:—There will be a substantial increase in broilers during the winter and spring, as the result of profits during 1931 and cheap feed. Broiler prices during most of 1932 are expected to average lower than in 1931, as the result of increased production, larger storage stocks and curtailed consumer purchasing power. Although prices of eggs and poultry have declined to about pre-war levels, the prices of feed have dropped even more. Poultry raisers must get accustomed to the lower prices that are likely to continue for the next decade and plan to produce to sell at the lower price level. As South Carolina is a deficit poultry producing state, with thousands of cases of eggs shipped in throughout the year, there is an opportunity for increased production to meet the demand for fresh eggs in the local and nearby markets and to supply a larger portion of food for the home needs. Keep production costs down by the following means:

- 1—Hatch all chicks early.
- 2—Start with strong B. W. D. tested chicks.
- 3—Use economically constructed brooder house and brick brooder.
- 4—Use good home-mixed feeds.
- 5—Carry out a sanitation program of management.
- 6—Push chicks for rapid development, and sell cockerels as soon as they reach 2 pounds in weight.
- 7—Develop pullets on good range (alfalfa, cow peas with corn, soy beans or bermuda sod).

Respectfully,
SADIE B. CRAIG, Co. Home Dem. Agt.

Associated Charities Drive A Big Success

The third annual drive for funds for the Associated Charities of Camden and Kershaw County is being closed today with an amount donated of approximately \$4,600.00 thus going over the top for our aim, which was to be \$4,500. This sum is made up partly in cash and partly in pledges of merchandise from our local merchants.

We wish to thank everybody for their extreme generosity in a year when almost every dollar given to charity means a personal sacrifice on the part of the donor. Our pocket-books have been slimmer this year, but our hearts have been bigger.

This sum donated in money and in merchandise, together with additional generosity of a number of our citizens and different clubs and churches in the city who donate monthly to this association enables us to carry on this work at about the same ratio that it has been carried on heretofore.

We also wish to extend our thanks to the various committees and individuals that have so kindly donated their time and work in this drive, and also to our hotel owners who themselves and whose guests we owe thanks for their very generous and liberal sums of money donated to this cause.

Again thanking you all for your liberal generosity and your courtesy to all during this drive, we remain,
Yours respectfully
