The Armistice ended the actual fighting, but many of the problems arising from the World War are yet far from settlement. Even-during recent weeks it has at times appeared that another European was was imminent, and in view of the invasion of Ethiopia by Italy, the situation a the moment is extremely tense.

It is encouraging to note, how ever, that the United States seems determined to keep out of another conflict, and this determination is in keeping with the desires of an overwhelmning majority of the American

BIRTH OF THE RED CROSS

This month the annual roll call of the Red Cross will take place, and the rublic will be again reminded of the untiring zeal and effectiveness of this indispensable organization in the ser vice of stricken humanity.

In contemplating the devotion of mercy, it isnot amiss to give a thought to that kindly soul who was its founder, Henri Dunant, a Franco-Swiss business man, born in Geneva in 1828.

Witnessing the sufferings of the wounded after the battle of Solferino, Italy, in 1859, he organized a volunteer nursing service for their relief. For three years thereafter he lectured and wrote of the horrors he had witnessed, traveling about Europe making his plea for an organization to meet such emergencies. Officials of influence were interested and an international conference was called at Geneva in 1863, with 36 delegates representing 14 nations and six charitable organizations present. Thus the Red Cross was brn.

Henry Dunant lived to the age of 82, by which time he had seen the great organization of which he was the father spread to every civilized nation. Pedhaps no man who ever lived contributed more to the cause of humanity than he, and millions yet unborn will be beneficiaries of the noble movement of which his great, sympathetic heart was the inspirat-

IST BILLION DOLLAR COTTON CROP SINCE 1929

The billion dollar cotton crop this ear is prophesied by Cotton Administrator Cobb in an article in the cur-

billionW dollar cotton crop-the first since 1929.

Nor will this mean simply that cotton farmers will receive a billion dola lars this year against 484 million in 1932, 893 million in 1933 and 882 million in 1934. This increase to a billion might mean little if the farmers proportion of the total income had not also increased. But it has.

In 1932 the cotton farmer received for his cotton only one per cent of the national income or one dollar out of every hundred. Last year his proportion of the national income had increased; he received one dollar and seventy cen's out of every hunred of the national income. In 1935 with a billion dollars in prospect for he cotton crop (from market prices olus parity payments), the Southern farmes proportion of the national ncome should be even better than in 1934.

In other words the promise is that the 11,798,000 bale crop of the presyear will bring more than twice as many dollars as the 13,000,000 bale crop of the year 1932 brought.

To put it another way, the gross cash income from cotton and cotton seed for the current season promises to be about 16 peer cent over last season. As the prices of goods pur chased by cotton farmers will not be appreciably hisher, this indicates a vastly increased net buying power all over Dixie. It should lead to fur ther liquidation of old debts and to inevitable defeat the continued and increasing demand for all things the cotton farmer had to forego during the lean years.

Children's Colds Should Have This Safe Treatment

Young Mothers Benefit from Two Generations' Proof of This External Treatment For Fighting Colds.

IT AVOIDS CONSTANT "DOSING"

There's nothing like a child's cold to upset a young mother. And mothers of two gen-

erations, anxious to help end colds, have depended on Vicks and safe. It avoids the risks of constant "dosing," so often upsetting to children's delicate digestions. Just rubbed on throat and chest at bedtime, VapoRub acts two ways

1. By stimulation through the skin,

By stimulation through the skin, like a poultice or plaster—
 By inhalation of its penetrating medicated vapors, released by body heat and breathed in direct to inflamed air-passages.
 Continuing through the night, this combined vapor-poultice action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion.

 A Practical Guide for Mathers

A Practical Guide for Mothers Each year, more and more families are being helped to fewer colds and shorter colds by Vicks Plan for Better Control of Colds. Vicks Plan has been clinically tested by practicing physicians, and further proved ing physicians, and further proved in everyday home use by millions. Full details of the Plan in each package of Vicks VapoRub.

Over Million Vick Alds Used Yearly For Better Control of Colds

HERMITAGE LAKE PROJECT

In a report of the ERA activities submitted by Col. J. D. Fulp, Admin istrator, to Washington, Hermitage Lake was one of the projects selected ent Progressive Farmer, which says: by the South Carolina Relief organi The prospect as I write this is for zation to illustrate work accomplished since April 1st, 1934.

The report which was submitted in book form, contains statistical infor mation of physical accomplishments of the relief administration together with a description of one project in each category of work. A description of Hermitage Lake follows:

For more than 100 years, Hermitage Lake, in Kershaw County, located just outside the city limits of Camden was used for water power purposes. It furnished water for a saw mill and a wheat flour mill which were located near the site of the present Hermitage Cotton Mill. Water was conveyed to the mill through a canal which paralleled the Green Bridge road, a thoroughfare used by Gen. Greene in the Revolution during his retreat from Comden.

About 1893 the pond bed was pur chased by the Hermitage Cotton Mill and a dam was erected to fur mish power for the industry. Later, however, after the Hemmitage Mill absorbed the Camden Mill other sources for the furnishing of power were found, and the lake site was no longer needed for power purposes.

When the ERA started the restor ation of this sheet of water to its former usefulness, there was much enthusiasm on the part of the Kershaw County residents. The stream that had furnised the water supply to the Mill was known as the Big Pine Tree Creek and was one of the best fishing streams in the state. The completion of a dam would make a most beautiful lake which could be used for boating, bathing, picnics, fishing and camping.

The Hermitage Lake was given over to Kershaw County by the Hermitage Cotton Mill, and therefore those who participate in the various forms of recreation in the lake and on its banks, receive privileges without cost.

Nicarauga balances her budget Which definitely puts her in the list of backward nations.

Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardul and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter whe was in about the same condition and she was soon all right." Thousands of wemen testify Cardul bene-sted them. If it does not benefit 80% censult a physician.

NOTICE OF LOST STOCK CERTIFICATE

H. Osborne, Mayor. C. Boykin, City Clerk.

LONE STAR, The World's Largest Living Milk Cow

6 Feet, 2 Inches High; Weighs 2810 Pounds

Lone Star, positively the largest Cow in the world is an extra added attraction with the Big Whale Marine Exhibit. She is 9 years old, stands 6 feet and 2 inches high, weighs 2810 pounds. Was born on the J-J Ranch near San Antonio, Texas. Thousands of people have seen this mountain of hving flesh at the World's Fair in Chi-, cago, 1933-1934, as well as in many large stock shows.

Her mother was a small Jersey Cow that weighed 530 pounds, while her father was of the Brahn a broad, and weighed about 800

All Boys and Girls of the various 4-H Clubs should see this; wonderful animal. Five Hundred Dollars reward is offered for anyone, who can produce a larger living Milk Cow, than Lone Star, owhed and exhibited by the Scattle Whaling Company as an added feature with The Big Whale Tour.

At Camden, 2 Days, Friday and Saturday, November 8th and 9th
