Atladtic Coast Line Violates the Law.

WASHINGTON, D. C., [Special.]-The Inter-State Commarce Commission has made a decision in favor- of the complainant, in the case of Charles P. Perry against the Florida Ceptral and Peninsular Company and other roads forming the Atlantic Coast Li . The conditions affecting rates on stra berries from Flor-ida points to New York are compared with those connected wi h the transpor tation of oranges and other freight carried in the same trains, and the Commission ru'es that the rates for forwarding strawberries from Florida to New York city should not exceed 3.33 per hundred pounds from Callahan, Fla, to New York, and from Lawtry, Hammock Ridge, and other st tions more distant from New York than Callahan; and through rates should not be in excess of the charge from Callahan, and should be filed with the Commission and published according to law. The Commission also reaffirms its power to determine what rates are reasonable, and in regard to damages it holds that the measure of reparation is the difference between the rate charged and the reisonable rate which should have been charged. The defendants are ordered to bring their freight from Lawtry and all points to Callahan in conformity with the long and short haul provision of the law, and fault is found with the practice of charging a

In childhood he exhibits wonderful determination in Writing from the other side Dr. Field surmousting obstacles and accomplishing says, "The time has come when we can whatever he undertakes. This is very

CHRONICLE.

interestingly narrated in . his trying experience when attempting to enter West Point, his subsequent trials, and final "over coming" of them all by the end of his four years' career as a cadet. While in the military academy he com-

piled for his own use a set of rules and mexims, relating to morals, manners, dress, choice of friends and aims in life. Perhaps the most characteristic of these was: "You may be whatever you resolve to be." Another was: "Through life let your principal object be the dis-charge of duty. Disregard public opin-ion when it interferes with duty."

Then there comes "Me lives to Action. First, regard for one's own happiness, and for the family in which you live. Second, strive to attain a very high elevation of character and a high standard of action."

With such lofty resolves he could do and dare. What an example for young

men! His career in the Mexican war 1846 to 1848, is pleasantly, but not lengthily told; his subsequent years of usefulness and happiness as a professor in the Virginia Military Institute, his two marriages are full of interest and fill his life, till the shadows of 1861 called him in the spring to the stormy scenes of war, away from the peaceful nest in the mountains, to which he was destined never to return. The interest never flags through come a national hero, and the North the three years, in which we count his (without the tender love and hero-worlife by deeds, not years, till the fatal night, when at the very climax of his

ship for him that inspires every Southern heart.) proudly claims him as the highest glory a shot from these who would have 13. type of an American soldier. Dr. Field died for him, palsied the strong arm and says: "He was the most picture que figure of the war. None of the other put an untimely end to his grand career. Dr Field says: "Next to his thought leaders had a personality so unique. In of God and acknowledgement to Him ckson there were two men in one were thoughts of the dear ones at nome seemed absolutely incompatible-the -the young mother with his child in highest military genius, with a religious her arms. 500,000 BALES SHORT The Cotton Crop Is Not As Big As Has Been Estimated.

That Is What the Agricultural De. partment in Washington Says of the Cotton Crop of 1891as Compared With That of 1890.

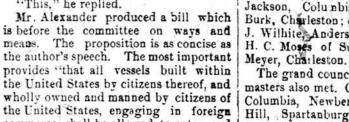

NO. 43

WASHINGTON, D. C .- The Tebruary cotton report of the statistician of the department or agriculture relates to the proportions marketed, quality, yield of lint, close of the picking season, losses by insects and price of seed. insects and price of seed,

The proportions sent from plantations, is estimated by reporters; and accurately consolidated, is as follows: Virginia 80, North Carolina 82, South Carolina 90, Georgia 92, Florida 92, Alabama 91, Mississippi 88, Louisiana 87, Texas 88, Arkaasas 88, Tennessee 89, Missouri 87;

general average 88.3 per cent. The returns of comparisons with the crop of last year are: Virginia 78, North Carolina 79, South Carolina 82, Georgia 85. Florida 91, Alabama 92, Mississippi 96. Louisiana 99, Texas 107, Arkansas 96, Tennessee 91, Missouri, 90; general average 94.3 per cent. The returns are remarkably consistent, as their indicated results vary by less than 1 per cent. in dicating a crop about half a million bales short of that of 1890. The October reports of the two years make almost the dentical difference. These results are submitted without comment. The estimated average time of the close of pick-ing is by States: Virginia, December 11; North Carolina, December 10; South Carolina, December 8; Georgia, Decem-ber 4; Florida, November 20; Alabama, December 2; Mississippi, December 10; Louisiana, December 12; Texas, Decem-ber 4; Arkansth, December 12; Texas, Secon-see, December 12; Missouri, December

The quality is the highest for many years. The staple is medium or somewhat short, color excellent and unusual ly free from trash. The low price of cote ton and disappointment in money returns have led to large sale of seed to oil mills at prices somewhat reduced, as follows: Virginia 14 cents per bushel, North Carolina 14, South Carouna 14.5, Georgia 14.5, Florida 14, Alabama 13, Mississippi 12, Louisiana 11, Texas 11, Arkanses 11, Tennessee 13, Missouri, etc., 11, On the Atlantic coast the larger use of the seed for fertilization makes a relacively higher price. Losses from insects were not very serious and were mainly confined to the Gulf coast States. The boll worm was nearly as destructive as the caterpillars.

Fish Planting in North Carolina Streams.

NEWTON, N. C.-Dr. Josephus Turner, of Sherrill's Ford, takes much interest in fish and has been corresponding with Congressman Henderson with regard to stocking the Catawba river. The following reply of the Commissioner of Fish and Fisheries to one of Mr. Henderson's communications, which is furnished us by Dr. Turner, will be of interest to many readers, especially those along the Ca-

tawba and Yadk'n rivers: HON. JOHN S. HENDERSON, HOUSE of Representatives.

DEAR SIR: - Replying to yours of Jan-uary 19th, I beg to say that in June, 1886, 365,000 shad fry were deposited in the carp were put in the same stream near rainbow trout were deposited therein. 1 have directed these streams be placed on our list for deposit of shad in the distri-

bution of the species next spring. Should you desire that notice in reference to the planting be given to any of your constituents, please fo ward name and ad-

Very respectfully. M. McDONALD, Commissioner.

Machine-Made Music.

Harp-playing by machinery is one of the latest novelties. The harp is an langed so that the plane of its strings is horizontal, the instrument lying on the table, after the fashion of a sither. Then, as regards the written music, the notation of the traditional stave has

been abandoned, and sheets upon which are imprinted mysterious groups of numbers are used in its stead. When one of these sheets is slid into a frame made for the purpose the meaning of the figures is interpreted.

Each of them falls under a string of the instrument, and by picking at them in numerical order with a bevelled pencil of ivory the operator produces a tune. Time and phrasing are indicated by the spacing and alignment of the numbers, nor are the requirements of harmony torgotten.

When the melcdy of the sir is adudged insufficient one of the figures is accompanied by a letter, indicating that a button attached to the instrument, and bearing the same symbol, should be at this juncture pressed. This action, by

bringing a small saw of ivory points into play, produces a cord suitable to the occasion .- Pall Mall Gazette.

To Rival Blowing Bock.

WINSTON, N. C .- The Roaring Gap Summer Resort Company is the name of . a new organization which was perfected in this city by the election of the follow. ing officers; A. Chathara, of Elkin, president; A. H. Eller, of Winston, secetsry; W. W. Wood, W. C. Fields, J. Patterson, V. O. Thompson and F. M Silmons, directors. The object of the organization and the plans in view are the purchase of lands on the Blue Ridge near the Wilkes, Alleghady and Surry county lines, and the establishment of a resort for the pleasure and convenience of the cities in Piedmont North Carolina as well as the country generally. The new company is composed of thirty stockholders, all of whom are progressive business men. This company proposes to build a fine summer hotel, cottages. school bouses, etc., for the benefit of summer tourists.

Captain and Crew Drowned.

RALEIGH, N. C.-A special from Beaufort brings the news of a sad drowning in Pamilico sound. The schooner, Wave, loaded and bound for Norfolk, was swamped in the sound and sank, drowning her captain and crew. The master of the vessel, Captain Newcomb, was a native of New Jersev, and only came to North Carolina last year. He lived in Beaufort. He leaves a wife and one child.
