

THE CAMDEN CHRONICLE

H. D. Niles and E. N. McDowell, Publishers.

Published every Friday at 1109 No. Broad Street, and entered at the Camden postoffice as second class mail matter. Price per annum \$1.50.

Camden, S. C., September 21, 1917.

That was a horrible affair committed near Camden last Friday. The more that we can gather, the more sensational the details. From all reports right around in that section shows a king state of affairs being carried on for a long period of time. Many of the details that have been learned are too harrowing to be put in print. A great deal of this morbidity will have to come to light when the true facts are known. But the circumstances of this horrible murder demand that the guilty party or parties be made to suffer, however much of these shock details will hurt innocent parties.

The Argentine senate yesterday by vote of 23 to 1 declared for the breaking of relations with Germany. The resolution then goes to the chamber of deputies. There is a strong feeling in favor of its final passage.

Time brings many changes but it seems to us that there is still an awfully large number of people who wait until Saturday afternoon to get their hair cut.—Columbia Record.

The Chronicle is this week carrying an unusually large amount of display advertising. We are due our readers an apology for the lack of leading matter in this issue. We are planning to care for the increase in this advertising and also to give our readers a better paper in every way. Other announcements will be made later.

The German government has requested the return of Count Luxburg, of the Argentine embassy on account of his connection with the German-Swedish messages made public by the Washington secret service. Safe passage to Berlin has been requested. Berlin wants him to make a personal report of the affair.

Editor W. D. Grist, of the York Enquirer left last Wednesday evening in company with Hon. John L. McLaurin, where the latter will address the Nation Non-Partisan League at St. Paul, Minn. Editor Grist goes to get some first-hand information from the people of the middle Northwest.

Pleasant A. Stovall, American Minister to Switzerland, at the desire of his government, will shortly leave Berne for a brief visit to Washington. The purpose of the minister's trip is to discuss various matters including shipments to Switzerland and other neutral countries.

The republic of Uruguay has seized eight German ships interned in the harbor of Montevideo.

LATEST WAR NEWS

Two German Submarines Reported Sunk by Armed Merchantmen.

Bombardment by the British artillery of the German lines in the Ypres sector in Flanders continues most intense, but there has been no infantry movement in force. An attack on a larger scale than the usual daily raids probably is imminent.

Berlin apparently is much exercised over the evident increasing volume of shells from the British big guns. From the Houtholst wood, northeast of the Ypres, to the river Lys, on the Belgian French border Berlin reports that the British fire has been destructive. Field Marshal Haig's artillery increased its volume of shots to drumfire several times. As on the front in Flanders and Artois, there has been no major operations on the French portion of the western front. At several points from the Alsace valley to Lorraine the French have made raids into the German defenses. Here, too, the expenditure of ammunition is great.

The Italians have been more active on the Trentino front. In a forward movement near Carzano, east of Trent, the Italians captured 200 prisoners. Austrian attacks on the Brinsizza plateau continue, but Gen. Cardona's men have held them for no gains.

The Rumanians continue their offensive in the mountain regions west of Folkshand, Moldavia. Attacking the Austro-German defenses near Oena, the Rumanians captured a height. Berlin reports that the Rumanians, at first successful, were driven from the positions, suffering heavy casualties and losing prisoners.

The American steamer Palturia, of 145 tons, owned by the Standard Oil Company, has been torpedoed with the loss of her master and eight members of the crew.

The sinking of two German submarines is reported unofficially from Norway. One was sent to the bottom by an armed merchantman and the other accounted for by a British destroyer.

Robt. A. Cooper.

By this time next year South Carolina Democrats will have named a new Governor. Each reader of this paper is allowed one guess as to who it will be.—Columbia Record.

Ten prisoners confined in the York County jail charged with complicity in the murder of the Rev. Watson Sims have been granted bail by Justice Watts and all have been released from prison. The case will likely be tried at the November term of court for York County.

The Merchants and Planters National Bank of Gaffney has recently purchased \$30,000 worth of \$1,000 bonds of Great Britain and Ireland.

Four soldiers were wounded when a troop train was fired upon near Mingo Junction, Ohio, Friday night.

Flight Cadet Kroemer of Detroit and Flight Cadet Douville were killed when their planes crashed together at the aviation school at Deseronto, Ontario.

O. S. Mistler, foreman of the Southern Power Co., near Chester, was killed Wednesday by a fall from a pole.

GENERAL NEWS NOTES

It is expected that Congress will adjourn early in October.

Miles Carter while in a buggy with several other young men near Branchville Saturday night was shot and died several hours later from the wounds. The young men state that some one fired at them and in returning the fire Carter was shot by one of the young men in his own buggy.

Julius S. McInnes a lawyer of Darlington, is in the Florence hospital suffering from two bullet wounds in his leg. He accidentally shot himself while handling an automatic pistol.

Dallas county the most populous county of Texas, voted "dry" in a local option election Monday. In a vote totaling around 19,000 the prohibition majority was approximately 1,500.

Four hundred folk songs have been collected from among the people of western North Carolina and Tennessee.

Can't Kill Languages.

One of the most effective means of prolonging the life of a hated language is to attempt to kill it, as the Germans and the Austro-Hungarians have from time to time found out. It was the effort to make all Bohemia talk German that lit the fires that reviled the flames of the dying Bohemian speech, so that today it is one of the official tongues and dominates two-thirds of the country. Hungary, fighting on behalf of the Magyar speech, awoke Slav and Rumanian echoes. We found English prosper best in Canada when English was offered to be "taken or left."—London Standard.

The Seven British Languages.

There are seven distinct languages spoken in the British Isles. In addition to English there are Welsh in Wales, Erse in Ireland, Manx in the Isle of Man—church services in Manx were discontinued there but recently—Gaelic in Scotland, French in the Channel Islands, and Cornish was spoken in Cornwall more recently than either historians or the public know.—London Globe.

Out of Date Cars.

Few people realize how many different cars are still in use whose makers have gone out of business and how many models of existing builders that are so far obsolete that spare parts are no longer carried at the factories of their origin. The Horseless Age recently published a list of 206 orphan cars and is not entirely sure that it includes all of the tribe.

One Relief.

"What are you reading there?" "My life insurance policy, and it gives me a frightful headache." "Can't tell what that means, eh?" "No, and my only consolation is that somebody else will have to settle it in the end."—Kansas City Journal.

Different.

"He used to say he loved the ground she walked on."

"Now?" "Since her father bought a limousine she'd be insulted if he even dared to hint that she ever walked."—Detroit Free Press.

A Model Wife.

Our idea of a model wife is one who keeps her husband from making a fool of himself.—Galveston News.

Preparation is half the battle, and nothing is lost by being on one's guard.—Don Quixote.

Wet Buckeye Hulls carry the feed perfectly

ROUGH-AGE is of little value if it allows the concentrated foods to sift to the bottom of the trough and become separated from it. There is no danger of this with

BUCKEYE HULLS

when they are wetted down a half hour or so before using. Then they combine more thoroughly and uniformly with the other forage than the old style hulls. Use Buckeye Hulls properly and you will find them a better roughage than old style hulls and far more economical.

Other Advantages
Buckeye Hulls cost much less than old style hulls. They allow better assimilation of food. No trash or dust. No lint. 2000 pounds real roughage to the ton—not 1500 pounds of roughage and 500 pounds of lint. Sacked—easy to handle. Take less space in the barn.

Mr. E. W. Leonard, Ellendale, Tenn., has been feeding Buckeye Hulls to three milk cows. He says that the cows are giving more milk and butter and are in fine condition. He prefers Buckeye Hulls.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free
Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
