

**Demonstration and Sale of Neponset Floor Covering**  
**Saturday, Monday and Tuesday, Oct. 13-15-16**

Your floors will look better, stay cleaner, make home more pleasant and housework easier, with

**NEPONSET Floor Covering**

A dull, depressing room is made warm and inviting the moment its floor is covered with Neponset Floor Covering. Grease won't soak in and spread. Refreshing to the eye and highly sanitary.

Thick and tough. Wonderfully resilient to the step. Easy to keep clean. Enduring. Lies flat without tacking.

Artistic color designs specially suitable for kitchen, bed-room, bath-room, play-room, porch, sewing-room, halls and closets. Makes a neglected room look like new. Come in and examine our many new designs today.

Made by BIRD & SON (Est. 1795) East Walpole, Massachusetts

CAMDEN, SOUTH CAROLINA

**SEA ROVER FOR TWENTY YEARS**  
**Moon Has Visited Every Port of Any Consequence.**

There is a man in Charleston who has visited every seaport of every important country on the globe. W. J. Moon is his name and he has been a seafarer for over twenty years. He has made several trips around the world and stopped over in every important seaport on the face of the earth. If the total miles of his travels were counted they would very well circle the globe ten times.

W. J. Moon was born in California some fifty years ago and at the age of sixteen he began a sea career that ended a few years ago when he married and settled down although he still likes to talk of his journeys, adventures and many travels that only a few men ever have the opportunity to make.

For something over twenty years W. J. Moon was in the different branches of the merchant marine, being chief steward for several years on a large transatlantic ship. He stayed a few years in the Southern Pacific, in India, Australia, New Zealand, Malagassar, on the coast of Africa and other points of interest. Mr. Moon has been anywhere from Honolulu, Capt. Town to some half a dozen or more seaports on the Chinese coast. He has visited every seaport of any importance that is situated on the European side of the Atlantic, South America, Africa, Asia and others.

When asked if he found any English-speaking people in the many different places that he visited Mr. Moon said:

"I have visited every seaport of every important country on the globe. W. J. Moon is his name and he has been a seafarer for over twenty years. He has made several trips around the world and stopped over in every important seaport on the face of the earth. If the total miles of his travels were counted they would very well circle the globe ten times."

In speaking of the Chinese and Japanese Mr. Moon said that the yellow people raise an abundance of rice, but that they would give their any day for the same amount that was raised in South Carolina, because the rice raised in South Carolina is the best on earth.

Mr. Moon has now quit the sea, but he said last night that he still would like to make several voyages to the places that he has already visited, and also go into the interior of the countries, as he has never been far inland. "I like to meet people," said Mr. Moon, "who have been to these places. I like to talk to them, because if they have been there since I have they can see the vast changes taking place because of the war. News and Courier."

**MORE PLOTS MADE PUBLIC**

**Bernstorff Was Arranging For Destruction of American Property.**

Washington, Oct. 10.—Secretary Lansing drew upon his collection of secret German diplomatic correspondence again today to shed further light upon what the German foreign office and general staff were doing in this country while nominally at peace with the United States.

He gave to the public, without comment as usual, three brief cables, disclosing that more than a year before submarine piracy drove America to war the Berlin government was instructing Ambassador von Bernstorff to arrange destruction of Canadian railroads and to use Irish-Americans in carrying on sabotage in their own country. They showed, too, that von Bernstorff on his part was even at that early date seeking authority to support a campaign to influence Congress.

The statement follows: "The Secretary of State publishes the following telegrams from the German foreign office to Count von Bernstorff in January, 1916:

"January 3. Secret. General staff desires energetic action in regard to proposed destruction of Canadian Pacific Railway at several points with a view to complete the protracted interruption of traffic. Capt. Boehm, who is known on your side and is shortly returning has been given instructions. Inform the military attaché and provide the necessary funds."

(Signed) "Zimmermann."  
 "January 26. For military attaché. You can obtain particulars as to persons suitable for carrying on sabotage in the United States and Canada from the following persons: One, Joseph MacGarrity, Philadelphia, Pa.; two, John P. Keating, Michigan Avenue, Chicago; three, Jeremiah O'Leary, 10 Park Row, New York.

"One and two are absolutely reliable, but not always discreet. These persons were indicated by Sir Roger Casement. In the United States sabotage can be carried out on every kind of factory for supplying munitions of war. Railway embankments and bridges must not be touched. Embassy must in no circumstances be compromised. Similar precautions must be taken in regard to Irish pro-German propaganda."  
 (Signed) "Representative of General Staff."

**Kitchen Shower.**

Tuesday afternoon Oct. 16th there will be a Kitchen Shower at the Camden High School. This shower is given so as to fit up a kitchen for the benefit of the High School pupils and also to provide a place of meeting for the Women's Home Demonstration Club in Camden. A list of some of the utensils necessary for equipping this kitchen is given below. Those who prefer may bring money. A demonstration will be given at this time. Pupils will please confer with their teachers in regard to their contribution.

This kitchen was gotten up by Mrs. L. A. Wittkowsky, Commandant Detachment No. 10, Women's Service League.

- Stove, baker, oil can, asbestos sheet for top of baker, 2 dish pans, 1 garbage can, 1 biscuit board, 1 rolling pin, 1 biscuit cutter, 1 qt. measuring cup, 2 pt. measuring cups, 2 large kitchen spoons, 1 butter cake turner, 2 paring knives, 6 baking tins, 6 gem pans, 1 kettle, 1 pair scales, 1 sifter, containers for flour, meal, sugar, salt, cup towels, holders, potato masher, fruit cover, 6 teaspoons, 3 tablespoons, 2 pots (4 qt. size), 1 grater, 6 plates, 6 soup plates, 1 coffee pot, 1 tea pot, 1 cream pitcher, 1 sugar dish.

Has it ever occurred to you that a worn-out range wastes money in burning too much fuel and spoiling food? A range expert who will have charge of the Majestic Demonstration during the week commencing October 15 will show you how the Majestic range cuts down household expenses.  
 Burns & Barrett.

Norway, Me., has a group of five women whose ages total 448 years. They are Mrs. Harriet Porter Millett, age 93; Mrs. Hannah Billings, age 90; Mrs. John Henry Millett, age 89; Mrs. Clara J. Hayden, age 88, and Mrs. Sarah E. Bates Barlett, age 88.

Portugal is rendering an important aid in the war against Germany. She has two divisions in France and a third is ready, making about 75,000 men actually fighting and she has handled most of the transports or troops.

**NOTICE**

To our water and light consumers: We wish to advise that after October 15th, 1917, we will be obliged to strictly enforce our rule of discontinuing water and light service to all of those whose bills are not paid on or before the 15th of the month following that in which the service was rendered.

Respectfully,  
 H. Savage  
 W. B. DeLoach  
 W. C. Moore  
 Commissioners of Public Works of the City of Camden  
 Camden, S. C., Oct. 10, 1917.

**Beautiful 1918 Maxwell**  
**Now On Exhibition**

*Without altering the world champion motor, the famous perfected clutch and transmission or the mighty axles, the Maxwell builders have produced a new wonder car, far superior in construction and in appearance to anything yet turned out by the Maxwell factories—we have this new and beautiful car—come and see it.*

The car is larger and roomier, for one thing—the wheelbase has been increased six inches. It is also a stronger and more rigid machine for the road.  
 The frame is now six inches, instead of three inches deep.  
 And the body rests directly on this powerful frame, instead of on brackets extending from the sides, as in the past.  
 Do you know what that means?  
 It means this: The firmness with which the wheels grip the road and the steadiness of the car at high speed give you a sense of security such as you have been able to enjoy before only in cars shackled with a battery of shock absorbers.

And the Maxwell before was the most economical 5-passenger car in the world. Compensating underfiring rear springs—the last word in spring suspension—mark this wonderful Maxwell of 1918.  
 They mean greater comfort—greater economy, by lessening wear and tear on the car.

**Maxwell Now Has the Style of the Costliest Cars**

The new Maxwell is a car of great beauty. It has a sloped windshield and rakish lines never before produced in any car costing less than \$1200.  
 Its good looks now equal its proved mechanical efficiency.  
 The new upholstery is richer and gives a new comfort.  
 Inside and out the new 1918 Maxwell is a perfected car.  
 We're proud to sell it.  
 You'll be proud to own one.

**This New Car is 50 Pounds Lighter**

There's a marvel of engineering for you, friends! The car is made bigger and stronger—and yet actually lighter.  
 This means greater ease and comfort on the road. More than that—it means greater economy.

**Touring Car \$745; Roadster \$745; Coupe \$1095; Berline \$1095; Sedan \$1095**  
 All prices f. o. b. Detroit

**MOTOR SALES COMPANY** W. R. DeLoache, Manager

**WHEN THE SCHOOL BELL RINGS**

Does your child hang back and dread to start? There may be a cause. Perhaps he is not learning as rapidly as you would like him to, and he knows it— But perhaps he can't help it.

Send him to us and let us examine his eyes. Thousands of children have weak or defective eyes. In that condition it is torture for them to study continuously.

Give the child a square deal. If you demand a task of him, see that he is fitted for the task.

Glasses ground to fit any condition of eye defect, and we guarantee satisfaction.
