

THE DANGER SIGNAL!

THE STATE DEMOCRATIC EXECUTIVE COMMITTEE. COLUMBIA, S. C., October 23, 1884.

The political enemy is hard at work in the middle and lower counties of South Carolina, where the Republicans always expect to obtain their largest vote.

The Democratic organization is not as thorough as it should be, and the Democratic voters, it is feared, are not fully alive to the necessity of exerting themselves to the utmost to bring out the full Democratic vote.

A Democratic rally and barbecue were held at Peru on Thursday. The crowd was the largest ever assembled in the town, numbering about 25,000 persons.

BLAINE'S LYING. TERRE HAUTE, IND., October 23.—Mr. Blaine left Evansville at 8.30 this morning, having before him a long day's ride to Lafayette.

THE CAMPAIGN IN INDIANA. The Democrats not Thoroughly Alive to the Seriousness of the Situation. INDIANAPOLIS, October 24.—The people of Indiana are now awaiting the approach of the soap men who did such a large business here four years ago.

The County Chairmen, as the immediate representatives of the Democratic party, are directly responsible for the result of the election in their respective counties.

There is much to be accomplished, and the time is short. It will be the fault of the Democrats who realize the momentous character of the present political struggle if their friends and acquaintances are not by personal appeal made as ardent and earnest as themselves.

HENDRICKS HOLDS INDIANA.

The Vice-Presidential Nominee in Command—Review of the Field in that State. INDIANAPOLIS, IND., October 25.—The situation in Indiana at the present writing, shows that the parties are pretty evenly matched, and each is confident of ultimate success.

The Democrats, while not openly avowing hostility to the tariff, have shown a tendency to thrust that issue in the background, and rely mainly on the popular demand for reform in the public service, and upon the personal popularity of ex-Senator Hendricks who has ever been a power in Indiana politics.

Blaine's tour through the State has undoubtedly won him friends and his reception has been cordial. The real effect, however, has not yet been determined. He takes his leave of Indiana to-morrow, passing into Illinois.

Among the methods to be used this year the Pension Convention has taken the place of gatherings of what Logan would term the "old veterans," by which party spirit has been aroused in former Presidential canvasses.

The Democratic managers feel confident of their ability to carry the State, but for that matter they were confident four years ago. They have always labored under the difficulty of underestimating their opponents.
