### ELKO FARMERS QUITE BUSY WITH FALL WORK

#### Planting Oats and Destroying Cotton Stalks Order of the Day.

Elko, Oct. 10.—Farmers in this section generally are busy planting oats and destroying cotton stalks. The local ginners reports having ginned more than twice as much cotton was ginned in 1922.

Most of the straw hats and peek-a-boo waists have been discarded. Miss Daisy Green, of Orlando, Fla., is visiting relatives here.

Mrs. L. E. Stansell and little daughter, Marguerite Ashley, of Greenwood, Miss., returned home last week after spending several weeks with her mother-in-law, Mrs. Ashley Stansell.

Mr. W. H. Wooley and Mr. A. M. Hair, the latter of the Ashley Produce Co., of Charleston, last Sunday returned from an extended trip via automobile to North Carolina and Virginia for the purpose of buying apples. They bought and arranged for several car loads to be shipped in bulk to Charleston as needed. The Ford of the former was used and upheld its reputation—"It carried them there and brought them back."

"Believe it or not," the grist mill of Green and Company is able to run again.

Miss Constance Crouch spent the weekend at her home in Johnston. The other assistant here, Miss Frances Rankin, made her weekly trip to her home in Williston also.

The movement of negroes is that of immigration instead of emigration lately. The latest to return home is Lottie Austin, a good negro, who left three or four months ago for Detroit.

"Know all men by these presents," etc., which is to wind up finally by saying that the Hon. C. H. Anderson has a new Ford. He drove into town last week smoking a cigar six inches long (literally) and came very near wearing his car out in town showing it off. We used to call him "Charley," now it's Mr. Anderson.

The list of new Ford owners are L. E. Williams, W. H. Hair, G. Z. Crouch, et al. Several other of our folk are "breaststroking." The latter phrase "E pluribus unum" fits the second hand car owners, and they are too numerous to mention.

Mr. C. H. Hair and wife, of Augusta, were recent guests of their parents, Mr. and Mrs. W. H. Hair.

The Rev. J. D. Crane, chaplain of the State penitentiary at Columbia, was a distinguished visitor in Elko last Tuesday week. He spoke to a few whites and a mass meeting of negroes at the negro church in the afternoon upon the subject of a new school building for the negroes. Mr. Crane stated that his congregation at the penitentiary continued to grow. The colored folk here listened attentively to his address and sought his friendship—they did not know who might be the next to need his companionship. Mr. Crane is also pastor of the Second Baptist Church in Columbia. He was accompanied on this trip by Mr. J. B. Felton, State Supervisor of Negro Schools, State Department of Education. Mr. Felton also made a talk to the negroes. The colored folk here have already secured a lot of four acres for a new school building and besides paying for this new site have raised nearly \$1,000 among themselves as their part of the fund necessary to erect this new house.

Mr. Paul S. Green and daughter, Katherine, are expecting to make a business trip of several days to Atlanta next week.

Miss M. K. McElheney Dead.

Ellenton, Oct. 8.—Miss Mary Kane McElheney died at her residence near Ellenton late Friday. She was 71 years old and was one of Ellenton's most beloved citizens. Death came suddenly with a stroke of apoplexy. Miss McElheney was a devoted church worker and for many years had been a member of the Ellenton Methodist Church.

The funeral services were conducted at the Ellenton Methodist Church at 3 o'clock Saturday afternoon, the Rev. Mr. Jones, of apportion, officiating. Interment followed in the Ellenton cemetery.

Miss McElheney is survived by one brother, Mr. M. L. McElheney, of Ellenton; one sister, Mrs. W. H. Jones, of Ellenton, and several nephews and nieces.

The following gentlemen acted as pallbearers: Messrs. E. S. Hair, D. W. Brown, C. H. Turner, W. S. Nelson, W. H. Walker and E. D. Williams.

Mrs. W. W. Hair was the guest recently of her mother, Mrs. E. G. Birt, who Miss Nina Frederick spent last week with Mrs. L. F. Williams.

### BARNWELL MAN INJURED WHEN HAMMER HITS HEAD

#### F. H. Miller, City Electrician, Painfully Hurt Last Week.

Mr. F. H. Miller, city electrician, had a narrow escape from death Thursday while at work at the power plant here. The water tank was undergoing some needed repairs when one of the workmen dropped a two and one-half pound hammer from the top of the tower. It fell a distance of about 80 feet and struck Mr. Miller, who was standing on the ground, in the forehead, knocking him flat. Had the heavy missile hit him on top of the head he would probably have been fatally injured. While the wound was quite painful, Mr. Miller has been able to attend to his work as usual.

### Good Teeth—Good Health

By C. M. Douglas, D. D. S.

I have been requested to write an article for your County paper showing how good health is dependent upon good teeth.

We have a great many good things in this life, the greatest of these is good health. One of the prime causes of bad health is lack of cleanliness in the mouth. Lots of diseases are of dental origin because the person with an unclean and diseased mouth lacks resistance against disease. We are dependent upon three things for our life: Food, water and air, and without any one of these the body dies. When you remember that these things, essential to the human life, pass through the nostrils and mouth, and if they are not in a clean and healthy condition, it will cause infection to get into the body and set up trouble. The unclean mouth leads to decay of teeth, and decay of teeth leads to exposure of pulp or nerves, which causes tooth ache, and if the condition is neglected, it might lead to abscess and possibly septicemia or blood poison. So remember that a clean tooth never decays.

Recent examination of the teeth of school children in Barnwell show that about 90 in every 100 children have decayed teeth and that the number of decayed teeth average from 4 to 6 for each child. Think of it! Only about 4 children in 100 who are not suffering more or less from decayed teeth. It would be but enough if the tooth ache were all the little ones had to suffer as the result of somebody's neglect; but the tooth ache is the smallest part of the trouble. In fact, tooth ache is simply the cry of the nerve to be delivered from the poison that is killing it. Statistics show that on account of poor teeth, the mental and physical development of the child is seriously retarded. The worse the teeth, the lower, as a rule, is the school standing of the child.

If you allow your teeth to decay until you find the cavities yourself, the chances are that the pulp or nerve will become inflamed and then there is real trouble. The best filling is a small one, because there has been very little loss of tooth structure, and where the cavity is small the pulp or nerve is safe. So do not neglect your teeth until large fillings are necessary. The time to have them looked after is NOW.
