### CURRENT MISCELLANY.

One of the secrets of the success of Robert P. Porter, editor, tariff expert. superintendent of the United States census of 1890 and recently United States diplomatic agent in the West Indies and afterward in Germany, is his wonderful memory for figures. He fairly revels in statistics. In his home in New York there are several rooms filled with volumes upon volumes of industrial statistics. Many of these Mr. Porter can readily quote from memory. An illustration of this occurred not long ago, says the Philadel phia Saturday Post. A Chicago man was boasting of the rapid growth of his city. "We have 2,000,000 inhabitants now.

You gave us 1,100,000 in 1890," he said. "Not as much as that," replied Mr. Porter. "The exact figures were 1,099,850. Your school census of 1892 gave 1,400,000."

The conversation then turned upon New York city.

"You underestimated that also." "Yes, we gave New York 1.515.301. and the state census of 1892 gave

1,801,739." "Where do you carry all these figures?" asked the Chicago man.

"I believe I can repeat from memory the best part of the important figures in my census," returned Mr. Porter. "Can you tell me how many negroes there were in this country in 1890?"

Bill-Gill wouldn't think of fishing asked the westerner with an air of triumph. "There were 7,470,040," repeated the

Whenever he cannot sell them he eats them. This is the truth, strange as it may seem. He recently killed a large one with 11 rattles on it. This was a fat snake, and Moses ate it. The other day he brought a very large snake to Sayannah, trying to sell its hide. There were 23 rattles on it. The snake was very poor, and Moses said it would not do to eat, and he stuffed its hide and sold it for a good price. Every year Moses makes a great deal of moncy selling snake oil. What we are looking for is a girl whose shoes are not a mile too large. When a child scratches its head, its mother wants to know whom it has been playing with of late.

A woman is immensely flattered when "the girls" ask her to appear at a party in a low neck gown. When a woman can't sing at all, friends excuse her by saying that, though her voice is not strong, it is

very sweet. When a woman is entertaining an out of town guest, she looks very grateful when some one asks her "company" how long she is going to
