The Imperial Gas Lamp

Admittedly the BEST light on the market and the most economical.

The Imperial burns common stove gasoline and gives a 100 candle power light at a cost of one cent per day. One Gallon will burn 60 hours.

The needle keeps the burner clean, so it will not clog, and the generating tube being in center of flame, insures a light that will not go out. There is no odor, no smoke and no flicker. The light can be raised or turned down just as with a gas jet or lamp. THE IMPERIAL is the most perfect light on the market and everything pertaining to it is the best to be had.
