At last THE HERALD is in shape to become a first class, up-to date weekly newspaper. Our new press has been installed, and last week's issue was printed on it. We have been badly handicapped since purchasing THE HERALD, in the matter of a press, but now that the difficulty has been removed, we are in a position to supply everybody in Bamberg county with a neatly printed and newsy paper. We have the only cylinder press in Barnwell or Bamberg counties, and our electric plant gives us a well equipped and first class office. Our machinery will no doubt be an object of interest to many of our readers, and they are cordially invited to drop in any time and see the beautiful little electric motor (built by a well known Bamberg boy, Mr. Decania Dowling) run a large Cottrell cylinder press and a 10x15 Chandler & Price job press. We now have the best equipped office in this section of the State, and we are going to make other improvements at once. We are going to put in a lot of new faces of job type. We also will have a new dress for the paper. Our job trade has increased materially lately, our work, but we are hustling day and night now, and will deliver
