GERMANY BACKED I. W. W.

Evidence Points to Gigantic Conspiracy to Tie Government's Hands.

Washington, Sept. 7.—Numerous indictments for conspiracy to thwart the government's war plans and tie its hands in many ways appear to be in prospect as a result of Wednesday's nation-wide raid of Industrial Workers of the World offices by Department of Justice agents.

Evidence is said to be fast accumulating to support the belief that a gigantic conspiracy has existed for some time past to cripple the government in carrying on the war, that its ramifications have extended into virtually every State and that numerous anti-war activities, which appeared to emanate from many sources in reality had their fountain head in a single group of conspirators.

Anti-draft demonstrations, crippling of war industries by so-called labor disturbances and by violence, burning of crops and continuous anti-war sentiment with other activities tended to embarrass the government and retard the exercise of its full strength in prosecuting the war, appear, from recent disclosures, to have been included within the scope of the alleged conspiracy.

Thorough Inquiry.

Into the formation and the workings of this alleged conspiracy the Department of Justice has begun an inquiry more comprehensive, it is said, than any launched since this country's entry into the war.

How closely the anti-war activities and propaganda have been interrelated is to be determined largely by the federal grand jury at Chicago, which is investigating documents seized by government agents in their raids Wednesday of I. W. W. and Socialist offices of that city and throughout the country. Indications are that the alleged conspiracy originated in Chicago and was for some time actively directed from that city.

There are also indications that German money financed, in part, this propaganda, that German funds were spent freely, in many ways to further the ends of conspirators and that from many persons believed to be actively identified in carrying on the work, few knew of this source of financial support.

The grand jury inquiry will not be confined, from present indications, to Chicago. United States attorneys, who have not accumulated documentary evidence which apparently support the theory of a great conspiracy

are said to be few in number. It is probable that much of this evidence will be presented later to other grand juries.

So vast is the accumulation of seized letters, checks, and other papers of all descriptions that the great bulk still lies unsifted and the exact determination of their contents and significance probably will not be reached for several days.

William C. Fitts, the assistant Attorney General, who conceived and directed the execution of a nationwide seizure of I. W. W. papers at a prearranged hour, devoted virtually his entire time today to consideration of reports from all sections of the country.

"The results are very satisfying," was all that Mr. Fitts would say.

Its Hands Strengthened.

The government's hands have been greatly strengthened by the seizure of papers in contemplated proceeding against persons identified with the I. W. W. and others whose activities have been for some time under surveillance. Many of these documents are said to be related to labor disturbances in the West and the Pacific-Northwest.

Department of Justice officials said today that the investigation probably will be prolonged. United States Attorney Cline is to be assisted by Frank C. Dailey, of Indianapolis, and Frank N. Nebecker, of Salt Lake City, and the entire investigation will be conducted under the personal supervision of William C. Fitts, assistant Attorney General.

Where the money came from to finance the manifold activities of the movement under investigation is a subject into which the grand jury will delve deeply. Many evidences, it is said, point to a German fund from which money was lavishly supplied.

United States attorneys in many sections were today making a minute study of the documents taken in the recent raid.

Hospital Bombed; Nineteen Killed.
Grand Headquarters of the French Army in France, Sept. 6.—The Vandolaincourt hospital in the region of Verdun was again bombarded by German aviators for six and a half hours last night. Nineteen persons were killed and twenty-six wounded. The huts attacked contained only severely wounded men who were unable to move from their cots.
