**TUESDAY, MARCH 9, 1920**

School has been closed so long that we fear little Willie and little Johnnie will have forgotten their alphabets.

Why not allow Europe to go to work? That's what the people of Europe need more than any thing else.

The Thrift Brigade is a good foundation upon which to build a civilization, fact is, it is one necessary to the building.

It is a good time to remember, Mr. Farmer, that all food products, as well as cotton, is likely to bring a good price this season.

Don't forget the hog sale at Sardis Farm on the 12th-Friday. Whether you intend to purchase or not, go, Mr. Farmer, and see for yourself, some pure bred hogs.

When you draw your weekly pay Friday or Saturday try the novelty of setting aside a part and opening a bank account. Try it, and you will be convinced of the wisdom of such a course.

With the "flu" epidemic coming to a close, it is again possible for one to look about and take an interest in affairs. Let us hope that many years will elapse before the return of the same thing.

Some of our correspondents are anxiously awaiting the coming of a larger paper. It is not our fault that you have not already received it. The machines and the paper were bought five months ago. By April 1 we hope to begin.

Now that the new commercial secretary for the Union Chamber of Commerce and Agriculture has arrived, we hope that the entire business community will take a lively interest in the organization. It is impossible for Dr. Payne to do much unless he has the support of the business community.

Mr. Workingman, get your mind firmly fixed on this one point: If you do not save a part of your earnings you will find that you will have no reserve to draw from. You will have to help yourself, or go without. So, please you join our Thrift Brigade and begin to put part of your earnings in the bank? You will be glad to try it and see for yourself.

The government has fallen behind in educating the people from the "choice cuts" of beef to the less expensive, though equally nourishing cuts that do not come under the head of "sirloin", "porter house", "sirloin" and "prime rib". All very well, perhaps, but worth nothing so far as any saving is concerned about the only result will be to drive upward the prices of the less choice cuts, while the high priced cuts will go up and go higher. If we are to have reasonably low priced meats, there is but one way to get them—save at home. In so far as Union County is concerned we had better trust in the results of F. J. Parham's hog farm to help Union County than any interference the government may have in the matter. And when the hills and dales of old Union County are covered with pure bred cattle, hogs, sheep and goats, there will be some prospect of meat at a reasonable price, set at a price that will give the farmer a profit. It is not going to be a good while before that condition will arrive in Union County, according to our humble judgment.

So long as we pay heavy carriage charges, heavy refrigerator charges and a big profit to the Western man

who grows the beef and swine, just that long will the prices for "choice cuts" be high. All the governments in the world cannot change this condition any more than you can change the law that water runs down hill.

Our cat says now that the government has decided to educate the people away from "choice cuts" of everybody is going to call for sirloin and porterhouse steak.

**TO ASSIST FARMERS**  
 Washington, March 8.—(By The Associated Press.)—Production has increased in the Northwest since last year. Washington, Oregon, Idaho, and Colorado produced one of the total crop of the country. The acreage coming into the department of agriculture is likely that the Northwest will be producing a part of the country's total crop.

If big crops are avoided in the Northwest, experts say growers will be able to give greater attention to their other properties

with up-to-date storage houses that they have heretofore. Because of increased production and an acute shortage of refrigerator cars last season growers in the Northwest were unable to move their apples to market and thousands of boxes of fruit were caught unprotected in the orchards by an early freeze, while other fruit remained on the trees and was frozen because there was no place to store it.

A government specialist is now making his headquarters at Yakima, Wash., to personally assist growers who expect to build storage houses during the spring and summer. He is supplied with working drawings of storage houses tested during the last five years.

**OPERATIONS NOT PRACTICAL**  
 Philadelphia, March 8.—(By The Associated Press.)—Philadelphia surgeons scoff at the suggestion of operations on fat men to reduce their weight. "Operations for the removal of fat," a prominent physician said, "is not practical. Wherever fat is moved scar-tissue forms. When this occurs the skin refuses to function."

"Persons excessively fat have the fatty tissue all over their bodies. To do any appreciable good in reducing weight, it would be necessary to operate extensively. Thus a wide area of scar-tissue would form."

Physicians said fat was sometimes removed from small areas in the course of other operations, or where the formation of scar-tissue was beneficial. This has never been done for the purpose of reducing weight, they maintained.

**HUNGARY'S BANKING SITUATION CHEERLESS**

Budapest, Feb. 17.—(By The Associated Press.)—Roland Hegeles, director of the Commercial Bank and finance representative of the Hungarian delegation sent to Paris to discuss peace terms, says Hungary's banking situation cannot be looked on as cheerful. "All the banks loaned money to the government during the war and later, so if the government can't pay, we are injured," he adds. "The ability of the state to pay depends on the kind of peace we get."

"According to the boundaries now fixed it is difficult for us to operate our industries. My bank operates about 25 small railways, for instance, and part of these railways are in our territory, part in that of our neighbors, the Rumanians, the Serbs, Czechs and so on. (Because of the line drawn by the Peace Conference, these railways may have to cross and re-cross customs frontiers several times.)

"There are many sugar factories hindered in the same way. The factory may be left in Hungarian territory, but the beet crop is across the line. The largest iron works in the line have been given to the Rumanians. The only thing left to us is rich land and an energetic people. We are bound to rise again. The Danube haven't been opened from us and with irrigation we can do a great deal."

from a merely money point of view we have in circulation about 10,000,000 crowns. The damage done by the Bolsheviki may be estimated at 5,000,000,000. Our total debt was about 32,000,000,000 crowns, one half of which was consolidated into war loans.

"Despite a crazy quilt boundary line fixed by the Allies, leaving hundreds of villages to us yet placing the railroad stations of these villages in foreign territory with a customs barrier, making it difficult for the villagers to use the railroad, we have not despaired."

**BATTLE SHIPS TO BE DISMANTLED**  
 Philadelphia, Mar. 7.—(By The Associated Press.)—Six third line battle ships stationed at the Philadelphia Navy Yard are to be dismantled.

They are the Maine, Alabama, Wisconsin, Illinois, Kentucky and Kearsarge. An order directing that they be put out of commission has been received at the Navy Yard from the Bureau of Operations of the Navy Department.

None of these ships was ever actually in battle. They were completed after the Spanish-American War. The dismantled vessels will be sold as scrap or used as targets in gunnery practice. All were units of the fleet which sailed around the world in 1908.

Some of our correspondents are anxiously awaiting the coming of a larger paper. It is not our fault that you have not already received it. The machines and the paper were bought five months ago. By April 1 we hope to begin.

**Makes You Feel Good All Over**

When you have a cold, a cough, sore throat, or when you feel that you are threatened with LaGrippe or Influenza—Buy a bottle of

**TARBAL**  
 (Mentholated)  
 Formerly Tar Balsam

Take a teaspoonful immediately. Within a few moments it will open up the head and nostrils, loosen up the phlegm and make you feel better. A few doses will drive away the cough and cold and alleviate the inflamed condition of the throat. A delicious syrup used successfully for more than 40 years.

Your druggist is instructed to refund your money cheerfully if it doesn't relieve you.

**BIRTH RATE INCREASING**

Berlin, Feb. 18.—(By The Associated Press.)—The birth rate is making a rapid recovery throughout Germany, according to statistic which have been gathered by the American Red Cross representative here. In most sections of the country, the number of births per-month is now double that of a year ago, when the lowest point in the curve of vital statistics was reached.

Figures for Berlin show greater improvement than for any other city in Germany. Health conditions throughout Germany, however, indicate a steady betterment.

**A NERVOUS WRECK**

**From Three Years' Suffering, Says Cardui Made Her Well.**

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

**It Cost Just 20 Cents More**  
 To Produce the Big One than it did the runt.

**THE BIG ONE WAS FED AVALON FARMS HOG-TONE**  
 —The Liquid Hog Conditioner, Fattener and Worm-Remover—  
 —THE RUNT WASN'T

THEY both started life at the same time and weight. They were given the same feed under the same conditions - with one exception. The big one got his regular dose of AVALON FARMS HOG-TONE - the Liquid Hog Tonic, Conditioner and Fattener - and the runt didn't.

The big one is the kind that tops markets and brings big profits to the pockets of the hog raiser. The runt cost more to raise than he will ever bring in the market. And the difference was brought about by 20 cents worth of AVALON FARMS HOG-TONE. HOG-TONE puts new life into hogs - makes them eat more and grow fat at an amazing rate. It helps them to combat disease and eliminates the worms that are the hog raiser's greatest foe to profits. Splendid for pregnant sows - helps to produce healthy, sturdier pigs. Come in the store - tell us the number of your herd - and we will give you enough HOG-TONE to treat all your hogs 60 days. You don't give us a penny now. It's so direct the HOG-TONE treatment will satisfy you, it will cost you nothing.

**FOR SALE BY**  
 GLYMPH'S PHARMACY, UNION, S. C.

**PAY YOUR TAXES AND HAVE CHILDREN**

Paris, March 8.—(By the Associated Press.)—Former Premier Clemenceau's pithy advice to the French on his last speaking tour: "Pay your taxes and have children," has been followed by a crystallizing of sentiment for prompt remedies to the gradually decreasing birthrate.

"How to save France" and like phrases are being used in a vigorous campaign by the National Alliance, organized to fight birth control and to encourage the increase of population by making it an honor to have large families and by giving bonuses for all children after the second.

Pictures are being used by the Alliance comparing France and Germany, showing how France's almost stationary population in past decades and its present decreases threaten the nation and, it is added, "France is lost; nothing can save a nation that commits suicide," unless present conditions are remedied. Illustrations are given to show that it is possible for a race to die out or become so weak as to be engulfed in a sudden influx of foreigners. Other pictures contrast the indulgent attitude toward irregular life with the opprobrium, that, it is urged, should attach to such conduct.

**Yellow Mustard For Sore Throat, Tonsillitis**

Old fashioned remedies are often the best. Yellow Mustard, in the form of plaster or poultice, has been used for generations for soreness, inflammation, congestions and swellings with most excellent results but—it blistered.

Heat eases pain and Begg's Mustard made of pure yellow mustard, together with other pain relieving ingredients is just as hot, but quicker, cleaner, and more effective and cannot blister.

When your throat is sore, when you have pleurisy, bronchitis or a pain-shooting chest cold you can get speedy and lasting relief with this most effective preparation because heat eases pain—30 and 60 cents at druggists or by mail, S. C. Wells & Co., LeRoy, N. Y.
