

Don't Kill The Goose That Lays The Golden Eggs

You know the fable. The owner of the goose laying the golden treasure became so greedy that he decided to kill the goose and get all the eggs at once. We all know that eggs don't come that way, and that when he killed the goose he not only lost the egg he was getting daily, but cut off the source of his treasure to his own injury and loss.

If there ever was a time when the boat wont bear rocking, we believe that time is now. If there ever was a time when everybody needed to sit steady and lend a long pull and a strong pull and a pull altogether for our common good and prosperity, that time is now.

If there ever was a time when we all own a golden opportunity to make money, to prosper, to do well, to save money, that time is now. We are all getting the best wages, the best working conditions, and the best living conditions we ever had, and with this the crest of the high prices is passing, if it has not already passed, and all we need now is to sit steady, pull together, and not kill the golden goose.

Every interruption of the steady stream of production simply means stretching out the time before we can sensibly feel and realize that the tide of high prices is receding.

In other words the time has come for us all to face the fact that you can't make water run uphill, you can't turn back God's laws, you can't have something for nothing, and every man who demands more than he gives, who gets more than he produces, must inevitably help pay the higher price that his failure to produce, his interference with the smooth running of any of our industrial processes brings about.

None of us can get around the fact that shortening hours and restricting production creates an abnormal demand whose tendency was always reflected in advancing prices. The only remedy is to curtail the demand, do without the unnecessary, produce more, save our money, hold to the present high standard of wages and living conditions, but make it possible for all to live cheaper and better from increased production and larger volume at lower price.

Let's sit steady in the boat and not repeat the tragedy of killing the goose that lays the golden eggs...

UNION-BUFFALO MILLS STORES

HALF HOSE IS STYLE AT WAR RISK BUREAU

Washington, June 17.—War may be what Sherman said it was, but the Bureau of War Risk is the other extreme.

Following a general "understanding" so to speak, most of the 8,000 girls employed in that government department appeared at work today in half hose. And their skirts were far from the austere length their grandmothers wore, those who boasted a dimpled knee would have had considerable difficulty in concealing that pleasant fact—had they tried.

Encouraged by the ease with which the war risk girls "got away with it," those of the other departments are planning to do likewise. The result is that Secretary of State Colby, Secretary of War Baker, Secretary of the Navy Daniels and other department

heads are due for a test of their broad mindedness

BUYS TOWN FOR COTTON PLANTING

Purchase of the town of Marinette, Arizona, fourteen miles northwest of Phoenix, and 7,800 acres of land adjacent, for cotton growing, has just been made by the Southwest Cotton Company, a subsidiary of The Goodyear Tire & Rubber Company.

By the completion of this deal, the total amount of land owned by the company for raising long staple cotton to be used in fabric for automobile tires has been increased to 36,000 acres. More than 20,000 acres additional have been leased for future needs. Of the 56,000 acres controlled, about 30,000 are under cultivation and producing many thousands of bales of cotton annually.

Homes similar to those built by the company for its 2,000 employees in the towns of Lichfield and Goodyear in the Salt River Valley will be erected in Marinette for employees on the new plantation.

To celebrate the acquisition of this new tract, a barbecue was given recently by the company to allow its employees to become acquainted with the people of Marinette.

The pioneer work done by this company in irrigating portions of the Salt River Valley and starting the cultivation of cotton in the heart of an Arizona desert marks one of its most brilliant achievements. Besides owning cotton gins and other equipment in Arizona, another Goodyear subsidiary has gone into the Imperial Valley of California and arranged to take large portions of the cotton yield in that fertile region.

While the cultivated cotton does not begin to supply the company's present needs, the project has been developed to care for future requirements.

OPENING DAY A BIG SUCCESS

Glymph's Pharmacy Crowded All Day Saturday. Eager Throngs Call for Re-Cu-Ma

"We never anticipated such a crowd," said Glymph's Pharmacy, referring to the unexpected number of people who called Saturday to investigate Re-Cu-Ma, the new stomach, liver and nerve medicine. "Why, we could have given out several times the number of bottles of Re-Cu-Ma than we had prepared for free distribution."

"Many didn't use the coupon at all. They wanted Re-Cu-Ma and they bought and paid for it. It was a remarkable success for the opening sale of any medicine. The people know what they want nowadays and the man who has it for them is the one who makes a success. That's why my store has grown; because I have what the people want."

"I believe there were people in my store yesterday who were never in here before Re-Cu-Ma brought them."

Re-Cu-Ma is a big success everywhere. It gets results. That's the reason. Testimony from prominent people over the South states that Re-Cu-Ma acts wonderfully on the liver, relieving headaches, biliousness, malarial conditions, nervousness and constipation.

Re-Cu-Ma gets and keeps the stomach in a clean, strong condition, overcomes indigestion and dyspepsia, gas on stomach, makes a good appetite, and makes eating a pleasure. The kidneys are strengthened and one awakes in the morning feeling rested and strong with no pains in the back.

Re-Cu-Ma is successful in rheumatic cases because it purifies the blood and build up the kidneys and with clean blood and strong kidneys rheumatism cannot exist.

Re-Cu-Ma is sold in Union by Glymph's Pharmacy and all good druggists everywhere.

Prague, Czecho-Slovakia — One hundred towns in Bohemia are ordering their relief from the American Red Cross warehouse at Prague by mail. Six hundred cases and bales of secondhand clothing were distributed in one month from the central warehouse and snipped to all parts of the country.

THE UNION HARWARE COMPANY, Sporting Goods, UNION, S. C.

TAX ON "CUSS" WORDS

How would you like to be fined every time you "cussed?" You'd lose all your change in these days of high cost of living and poor telephone service—enough to make anybody "cuss."

One department of The Goodyear Tire & Rubber Company has put a tax on "cuss" words. Members of the blueprint department of the factory have formed the "Don't Swear Club." Any word you wouldn't say when your mother was present is on the blacklist. One cent fine for each violation.

Results? There's 78 cents in the treasury—but "cussing" is decreasing.

When the treasury has enough money there'll be a banquet for members but from present indication it'll be a long time before one is held.

Now the club members are even afraid to say "damn."

Australia has seen the "light." Realizing the economic necessity of permanent roads for the use of passenger and motor trucks, numerous important projects are now being launched, according to A. G. Cameron manager of the Goodyear Australasian division of the company.

The "back-to-the-land" movement is being actively promoted with excellent results. It has resulted in a constant influx of colonists from England. To develop the farms, large appropriations for good roads have been made.

New Zealand is following closely and closely indications are that it will continue to enjoy the reputation of having the greatest per capital wealth in the world.

HAROLD BOOKER SAYS REPUBLICANS ARE SCARED

Columbia, June 17.—Many prominent Republicans of the country are frightened over the prospects of the Republican party in the presidential selection this year, and they believe the Democrats will have a good chance of winning, according to Harold C. Booker, of Columbia, newspaper man and secretary of the South Carolina Cotton Association, who returned yesterday from a trip to New York, Washington and other points in the east, where he talked with many prominent men, among them several leaders in the Republican ranks. Mr. Booker states that many of these prominent Republicans told him that they feared for the Republican chances this year since Harding is their nominee. "It is generally conceded in the east," Mr. Booker says, "that McAdoo will, if nominated, have a good chance at victory."

Mr. Booker quoted the editor of one of the largest commercial dailies in New York city, with whom he spent many hours, and this Republican leader stated that he was "scared over the outlook." "The South won't vote for Edwards," the editor was told, and his quick republican reply was: "Well, if that's so, I hope the Democrats will nominate him."

Many leaders in the east are of the opinion that even if the LaFollette crowd doesn't organize a new party, there will be thousands of republicans of that persuasion who will not vote for Harding; they will just simply not vote at all. This will mean points for the Democratic nominee.

Mr. Booker stated that he was very much pleased with the sentiment he found expressed constantly in the east of pessimism over the Republican future and the belief that the Democrats "have a good chance." With the labor organizations voting Democratic and with the division in Republican ranks, with the Republican platform facing both ways, and with old line Republicans as the hope of the party, with backing that does not meet the approval of the best American citizenship, the Democratic party has bright hopes of winning.

"RUM RUNNING ALONG THE BORDER

Windsor, Ont., June 18.—Some farmers of Petite Cote, Essex county Ontario, apparently are leaving the fields for a new endeavor. Recently thirteen of them were fined \$13,000 for violating the Ontario Temperance Act. They were convicted on charges of "rum running" along the border.

One provincial officer said "their pockets are bulging with United States currency garnered from rum running, and some farmers are paying more attention to this business than to seeding."

EMIGRATING TO BRAZIL

Calgary, Alta., June 18.—Mennonites of Southern Alberta will join those of Manitoba and the Dakotas in an Emigration movement to Brazil shortly, it is stated here. It is stated the Mennonites have options on 20,000,000 acres of land in South America.

Queen Alexandra has confessed that her favorite dish is Yorkshire pudding.

WHITMIRE.

Rev. K. D. Smith filled his regular appointment at Black Rock church Sunday afternoon. All present enjoyed a fine sermon. The crowd was very small, only one member of the church was present, that is very disheartening to our minister. Mr. Smith asked me to request the members of the church to be present next second Sunday. He said if more did not come out and seem to be interested he was not coming back any more after the second Sunday in July.

Mr. Smith is a gifted speaker and is striving to help the people of this community; he has been faithful to his work at this church. I enjoy hearing him preach, and I think the people ought to be proud to have him as their preacher and teacher, and appreciate his service enough to encourage him by being present.

When we only have service once a month, and on that Sunday there is not services at Rogers, and I am sure the people could attend; there are enough people in this community to fill Black Rock church if they would just attend. We could have an extra fine Sunday school too if they would attend, but instead we have only a few who are faithful.

But the faithful few will be rewarded in the next world. I think everybody ought to attend Sunday school when they can.

Remember the second Sunday in July, as Mr. Smith frankly requested all the members to be present, and all those who are not members, come and encourage him. Just think of this community without any preaching at all at Black Rock, and how it would be to lose such an excellent preacher as Mr. Smith!

Do not think that Mr. Smith was mad in requesting the members to be present. Just in a frank friendly way, as it is very discouraging to him for none of the members to be present.

Hoping to see a large crowd at Black Rock Sunday, July 11th, second Sunday.

Yours Correspondent, "Pansy."

FIRST WOMAN SHERIFF INSTALLED

Duncan, Okla., June 18.—The first woman sheriff of the Southwest was installed recently when Mrs. William Gates took the oath of office as sheriff of Stephens county here.

"There will be no bootlegging or moonshining in these parts," Mrs. Gates announced as the chief plank of her platform, and to prove she meant what she said, she seized three stills within a week after she assumed office.

Mrs. Gates succeeded her husband, who while on his death bed summoned the three commissioners of Stephens county and asked them to elect his wife to the office. They promised that they would do so, and that is Mrs. Gates became the first woman sheriff of the Southwest.

Mrs. Gates despite the fact that she has accepted the responsibilities on the sheriff's office in a county near the oil fields where there is an inclination to disregard laws, is feminine and domestic. She had never before appeared in public life, and her time and energy have been devoted to her home.

The inside work of the office has been assumed by the woman sheriff who dictates its policies, while the outside tasks of riding, serving papers and hanging prisoners is delegated to three male deputies. "My husband's policies were satisfactory to Stephens county and I will follow closely in each step of his career," Mrs. Gates said.

BROWN BEAR KILLS LOGGER

Prince Rupert, B. C., June 18.—Clarence Thompson a logger on Chicago Island died recently from wounds inflicted by a large brown bear. Terribly lacerated, Thompson was found by a searching party, to whom he gave a connected account of his experience before he died.

Unexpectedly he came upon the bear while it was feeding on the carcass of a deer. It rushed at him and he shot once before the huge paw landed with smashing force on his face. The animal knocked and buffeted him about for a time and then walked away. When found Thompson had not a stitch of clothing on his body and he had suffered terribly from cold and loss of blood.

In the rural districts of Germany, not so many years ago, "pay weddings" were quite common. These peculiar entertainments were arranged for the pecuniary benefit of the bridal pair, for the guests each paid an admittance fee. The receipts went toward furnishing a home for the newlyweds.

While nightmare is said to be capable of causing death to a physically weak adult, this has never been known to happen to a child.

The last artis "sea cow" was seen in 1854—about a century after the first discovery of the spices by white men.

Asbestos is feathery as eiderdown, and can be spun or woven. An once has been spun into a string of more than a hundred yards long.

Women members of the San Bias Indian tribe wear their marriage rings in noses.

CANDIDATE CARDS
