AWAITING OUTCOME OF CONFERENCE WARNING GIVEN **BEFORE GIVING MESSAGE TO CONGRESS**

dress to congress on the industrial situation until tomorrow or a later date.

Washington, Aug. 16 (By the Associated Press) .- Agreement between railroad executives and railroad labor organizations to hold another conference tomorrow in New York to seek a settlement of the shopmen's strike, it was said today, had resulted in President Harding questioning the desirability of making his expected report to congress and the country on the strike situation within the next few hours. Plans made for the reception of his communication tomorrow at a joint session of the house and senate consequently were understood to be on the verge of a revision tonight as the president was represented as being desirous of withholding his statement of the case if the unions' chiefs and the railroad presidents could hold out any prospect of a final satisfactory settlement.

Heads of the seven unions met today with the officials of unions not involved in the controversy and after some delay reached a decision to take almost the entire group to New York for the discussions of the executives. Though officers of the five organizations of train service employees, the engineers, firemen, conductors, brakemen and switchmen, will be the only ones actually to meet with the committee of raliroad executives, their chairman, Warren S. Stone, declared the operation was, but the father they desired close at hand all the strike leaders and the spokesmen for all the other railroad unions. Some objection to this plan developed among the strike leaders but they finally arranged to send most of their group, including B. M. Jewell, their chairman, to New York, and to call in all concerned in case any settlement sals emerged from the discus-
