### Sweden Actively at Work On New Radio Plant

Gothenburg, Dec. 8.—From Gothenburg, Sweden, to New York in one-fifth of a second—no more time will be required for the transmission of a wireless message when the powerful new radio station near Varberg, South of Gothenburg, is finished.

The work on the half million dollar contract by the Radio Corporation of America for the equipment of the station has begun in earnest. A large force of men is busy on the foundations for the masts for the two separate systems of antennae, one for sending and the other for receiving. One of the first steps is the installation of a so-called balance net, which consists of copper wires laid in the earth at regular distances. The new radio station, which probably will be known as the Grimeton station, will be used for simultaneous messages in both directions between Sweden and the United States. The radio system which is to be installed is the now universally known Alexanderson system, invented by the Swedish engineer E. T. W. Alexanderson, who is now associated with the Radio Corporation of America as chief engineer. The mechanisms at Grimeton will work automatically, requiring only two or three attendants for the receiving division, and about a dozen for the sending division. The actual handling of messages will be done at Gothenburg through land wires connected with Grimeton.

### Santa Claus Club

Yesterday was the lucky day with the Santa Claus club—their star was in the ascendancy and held its place all day. Early in the morning Mrs. R. P. Harry gave \$2.00 and expressed great approval of the club and said it would never do to let it drop this year of all years and urged the committee to go forward and carry it out to a successful close. Mrs. John R. Mathis brought two dressed baby dolls and a lovely basket of chocolates and said it was a beautiful charity and she delighted to help. Mrs. F. D. Lockman brought 50c and said the idea was a great one and she hoped every one would help this year as never before.

Aren't Union people about the nicest that live? Get in the game and help old Santa Claus make his rounds. If you do not want to come in the club single out a special case and make Christmas merry for that one. Try it this year. Hang up your wreath and smile, smile, smile.

### "Anything To Wear" Motto of Russian Boys Who Face Death from Lack of Clothes

"Anything to wear" will be the motto of these three Russian boys during the coming winter months. Their condition is typical of that of millions of little Russian children, most of whom have come through the summer without shoes and seldom with more than two garments. And they face the prospect, according to reports which field workers of the American Relief Administration have made to Herbert Hoover, head of the organization—of being unable to go out doors to the A. R. A. kitchens which have fed them warm meals for a year or more. As fuel is almost impossible to get, most of the homes will be heated, adding to the peril the children face, say the reports, for if they try to go out in this scanty clothing they will be exposed to illness and death from the elements.

The Russian winter is as severe as that of the northernmost United States and Canada, and this has made the problem doubly pressing, for the Russian markets have little clothing available, and the supply that is for sale is held at prices far above the reach of the average workingman. Overcoats cost more than a year's salary. Some of the organizations allied with the American Relief Administration have sent clothing for distribution in Russia, but these contributions, big as they are, have been "only a drop in the bucket."

To overcome these conditions, the American Relief Administration has initiated a Clothing Remittance system operating in every way like the now famous Hoover Food Remittance. The Clothing Remittance costs \$20, and each clothing package contains sufficient material for a suit or dress and four suits of underwear for man or woman or two children. The items include 4-2-3 yards of 56-inch 20-ounce dark blue wool cloth; 4 yards of 36-inch black cotton lining; 3 yards of 27-inch flannel; 16 yards of unbleached muslin; and buttons and thread to make up the garments. When the money is received at A. R. A. headquarters, 42 Broadway, New York, delivery of packages purchased without designated consignees, will be distributed among the most needy cases, many of which are beyond description. Delivery of clothing package is undertaken to any given address in Russia. The sender receives a direct receipt from the Russian who gets the clothing.

### America's Food and Medicine May Go for Naught if Russians Cannot Secure Clothing

"If Russia's children, and adults as well, are to be saved from death this winter from exposure—after the charity of America has brought them through the famine of last winter, they must be supplied with clothing." This is a consensus of opinion of the American Relief Administration staff in Russia, from Colonel Huskell down to the inspectors, according to their reports to Herbert Hoover, head of the A. R. A.

From every part of Russia where the A. R. A. has been feeding children and adults, and has been hastening sanitation and medical service and inoculations to save literally millions of lives, the story is the same—that the children lack even the barest essentials of underwear, shoes, stockings or outer wear, with which to protect themselves against the rigors of the

Russian winter. And the need of aid in this direction for adults, too, is indicated by statements of recently returned workers, who state that in cases where Russian employees have been given a blanket for extra services the blankets have almost invariably been made into overcoats. Literally millions of children, say reports, have no shoes—an item which in itself may make it impossible for them to go to American Relief child-feeding kitchens. Free shoes and stockings have been provided for 250,000 children who are absolutely without footwear, but the whole problem is beyond the reach of any general funds now available.

The American Relief Administration, to meet this emergency, has put into effect a Clothing Remittance, functioning in every way as does the now world famous Hoover Food Remittance. For twenty dollars sent to the A. R. A. at 42 Broadway, New York, the following articles, or their equivalent in value, will be delivered to any designated person in Russia: 4-2-3 yards fifty-six inch twenty ounce dark blue wool cloth; 4 yards of thirty-two inch black cotton lining; 3 yards of twenty-seven inch flannel; 16 yards of unbleached muslin; 16 large black ivory buttons; 16 small white bone buttons; 2 spools No. 40 white cotton thread.

One package will clothe one adult or two children all winter, and remittances ordered for general relief will be used for neediest cases, thousands of which are heart-breaking.

### Australian Money Succoring Armenian Children

Athens, Dec. 8.—A new alliance between the United States and Australia for relief work was inaugurated recently with the opening of the first Australian orphanage for 1200 Armenian refugee children. The institution is situated on the seashore at Antyeas, a suburb of Beirut, and is a part of the orphanage system of the American Near East Relief, but will be under the control of an Australian personnel and supported by Australian funds. The children now in the orphanage are those who have arrived during the past fortnight from the interior of Anatolia as a result of the Angora government's edict for the removal of all Christian children.

#### Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful, and Got Well.

Altha, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of Route 2, this place, said: "I became so weakened it was an effort for me to get around. I knew what was the matter, but I felt like I couldn't give up." "I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling." "I would get depressed and out of heart." "I began to feel, after awhile, there was no use to try to get well. This is all wrong, for it makes a person worse." "I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results." "I took one bottle (of Cardui), then I saw I wasn't so nervous, so kept it up." "Gradually the nervousness left me. I began to eat and sleep better. Was soon well, and all right. Cardui did wonders for me, and I certainly do recommend it." "Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others."
