We would now further state, that this is the first distressing casualty which has occurred amongst us since the establishment of the Institution. For a period of eight years, during which it has been in existence, we have never before, had occasion to follow one of our number to his "long home." In this respect we have been peculiarly favored with the blessing of heaven; on a recent occasion we said to the world, in our published Catalogue, for morality, good order and diligent attention to business was unsurpassed in any similar Institution. As we said then, so we say yet, notwithstanding the melanchol- ly occurence that has just transpired. During a period of eight years since the foundation of the Institution, there has never been an instance of a <i>drunken Stadent</i> , except one or two accidental cases. There has never been an instance, in which it was necessary to resort to <i>expulsion</i> or <i>diamission</i> . We hope then that the confidence of

"Americal seems to be prolific of all sorts of nonstrous sects. There is something in the very itmosphere of her social structure congenial to heir progress. Sects which in this country start ap like bubbles on the surface of society, burst disconter and influtheir progress. Sects which in this country start up like bubbles on the surface of society, burst and disappear, reach in America a size and influ-ence which frequently menace the safety of the Repuplic itself. Among the latest growths of this kind are the Fourierites and the Mormons, and both, but especially the latter, have attained political power.

"A code of Mormon laws was drawn up for its government. Joe Smith was mayor, or rather heocrat; and eventually the influence of the prophet prevailed so widely, that he commanded a majority of votes in the State of Illinois, and started for the office and dignity of President of the United States, with no mean chances of success."

In consequence of this sate of things, the Enquirer says : "A question has been presented to the Cabinet at Washington, what steps should they im-mediately adopt ? Whether they should convene an Extra Session of Corgress ? Whether they should quietly permit the invasion of Texas, assisted, too, by the instrumentality of England, to proceed, without the slightest interposition on our part? Whether they should remonstrate with Mexico against the course which she is pursuing, under the influence of the Tritish Cabinet? Whether they should fold their gens and suffer the fields of Texas again to be dreached with the blood of her citizens—or whether they should interpose the shield of the United States 1. And whether they would call an Extra Session of Congress, to advise and regulate the action of the Executive power ! It is now said that the Calinet has been much divided upon this last proposition ; and finally, it is determined for the present to have no extra Congress. A messenger has within a day or two been despatched to Mexico with a strong remonstrance upon the course she is pursuing.

The following amusing paragraphs, in relation to Mormonism and this country, are from a late number of the London Herald. They may be taken as a specimen of the want of intelligence, which too much prevails in England, in regard to all things American:-

TEXAS.

At an early hour yesterday morning a Texan vessel, the schr. Star, arrived at this port 12 days from Galveston, having on board Mr. E. O. Corr with despatches for the U. S. Government, and for the British and French Ministers at Washington City. The despatches are supposed to refer to the invasion of Texas. Gen. Woll, with some 10,000 of the advance detachment of the Mexican army, has, it is said, arrived on the banks of the Ric Grande. The despatches were forwarded by yes-

terday's mail. This is indeed deeply interesting intelligence, and may be supposed to have created great excitement in Texas. It is, however, but a rumor. Many intelligent gentlemen with whom we have conversed express the opinion that this report is at least premature. Although such a force may be on the march for that base of the future operations of Mexico against Texas, we are constrained to doubt if they yet have an organized force of ten thousand men ready to cross the fron-

tier. Our latest dates from Galveston were to the 17th ult. We now have dates to the 24th .---The Galveston News of that day is before us, from which we gather the following intelligence.

The Hon. Tilghman A. Howard, Minister to Texas from the United States, died at Washington on Friday the 16th ult. He reached there only ten or twelve days before he died. Truly there seems to be a fatality connected with the diplomatic agency of our country in Texas. Gen. Howard numbers the fourth American Minister who has found a grave in that republic. It is but a few weeks since we recorded the deaths of Gen. Murphy, the American Charge, and A. M. Green, Esq., U. S. Consul, within a few days of each other.

It pains us to learn also of the death of Comman der J. T. K. Lothrop, of the Texas Navy. He died at Washington on the 14th ult., of bilious fever. Capt. L. was well known in this city, and his loss H. will be deeply regretted by numerous friends.-The "Vindicator" states he was a native of Massachusetts, and a descendant in the maternal ine from Kirkland, one of the early pilgrim fath-
