NOTICE.

THE subscribers patented Grist Mill, will on the 30th inst be placed at the State House for inspection, where planters are requested to call and see it. A communication of the 16th inst. from Leonard White, Esq of Sumter Dist. to John Knox, Esq. contains an account of a mill which he has had in the course of faithful experiment for several months. In regard to the durability of the mill, Mr. White expresses the opinion, that one with care will last almost an age, inasmuch as his at yet exhibits no appearance of wear, and in regard to its simplicity, he thinks nothing can exceed it The power he has employed is that of two mules, (one a very small one) and he has ground with one horse apparently very easily. Mr. White says, "I ground a few days since twenty-three bushels into pretty good meal from a little after sun rise to dark, the days you know are very short. From the trial I have made, I am satisfied the mill will grind two bushels of corn into meal (passing through three times) in one hour, and 8 or 10 bushels per hour suitably for stock. I think the price which I paid, say $40, very cheap, when compared with the advantages of the mill; but I find they can be stocked much cheaper, say for $10 which will reduce the cost to $25. Certainly this is a mere nothing when compared with the saving of corn for the year I save or shall save at least 150 bushels of corn independently of what I shall save in grinding for my stock; and my opinion is that three pecks of corn ground to grist will go as far in feeding hogs and horses as one bushel of corn unground. I also save much time for the carrying of corn to mill takes more time of a horse and boy, than grinding the same quantity does. My mules are driven by a very small boy, (one too small to go to mill) a negro woman attending to the feeding &c. Suffice it to say, I would not be without this convenience for $100 per year.

Applications addressed to Thomas Baker near Statesburg Sumter District, will be attended to.

Stop the Horse Thief

On the night of the nineteenth instant a horse was taken from the stable of James Coleman, in the village of Cambridge, of the following description and under the following circumstances.

The Horse was a Bay, a little upwards of fifteen hands high, six years old, some marks of saddle on his back, a long tail, a small blaze in his face, and a white spot on his upper lip, not a handsome horse but racks finely, holds a very high head, and is a little ragged rumped, and is shod all round. The saddle taken was quilted in the seat with dressed deer skin, and newly done A double reigned bridle was taken at the same time.

The Horse, was taken, as is believed by a man who has been lurking about the village for a day or two well dressed, in a Blue Frock coat and pantaloons, Boots, and wore whiskers, his name is supposed to be Brown, a great dandy very loquacious, and has very little regard for truth. He is a very good looking man, and has a very peculiar manner of speech He has a foreign accent. He is about six feet high and walks erect.

Any information directed to James Coleman Cambridge, or Henry W. Perrin, Anderson C H S. C. will be thankfully received.

NEWBERRY ACADEMY.—The winter session of the Newberry Male Academy will commence on the first Monday in January next, under the superintendence of the undersigned assisted by Mr. Solomon L. Pope, whose moral and literary qualifications entitle him to public confidence.

RATES PER QUARTER.

Latin and Greek Languages, Algebra, Geometry,	$8 00
English Branches generally,	6 00

On the same day the winter session of the Newberry Female Academy will also begin, under the same superintendent, assisted by Miss Angelina C Mathien.

RATES PER QUARTER.

Solid Branches inclusive—as Grammar, Geography, History, Mathematics &c.	$8 00
Music,	8 00
Drawing, Painting, Embroidery,	6 00

The solid branches are included in one charge, to avoid the complaint of parents, that pupils are encouraged to study many branches, for each of which a separate charge is made. No charge for entrance or house rent will be made.

The superintendent will divide his time between the academies, as the best interest of each may require. Being taught in different buildings, the pupils of each academy are entirely separated. No scholar will be received for less than one quarter or charged for less without a special engagement.

Should it be necessary, other assistants shall be employed; as it is my desire to establish a permanent school in this place; in which young men may be prepared for active life;—in which young Ladies may obtain a substantial and polite education. It would be easy to make out a syllabus of studies—a catalogue of books studied &c—to promise to conduct the pupil by many "a near cut" to the temple of truth. But at last the *performance* must determine our claim to public confidence.

Good boarding can be had in the village for about $7 per month—in the neighborhood of the village, for $5 or 6 per month.

Those who desire more particular information shall be fully satisfied on any particular relating to the academy, by addressing a letter (postage paid) to

SAML P. PRESSLEY,
Superintendent

TO THE PUBLIC.

CAME into Union district, in the State of South Carolina, on the 7th instant, a man who to all appearance is labouring under mental derangement. When he was arrested in his journey he refused to eat or drink for several days. He has never been known to speak, but sometimes signifies his assent or dissent by the nod of his head. He appears to be about 25 years of age, slender make, pallid countenance, of a peculiar quiet disposition, and pleasant tho' downcast look. He came by the way of Spartanburg. This man is certainly an object of charity, and greatly needs the assistance of his friends. He is at present tolerably well clothed, having on a decent blue broad cloth frock coat, cotton shirt and corded pantaloons. In his pocket book was found a note for forty one dollars 12½ cents signed by Wm. Laird and payable to John Laird.
