The Boston Courier says-Notwithstanding the frequent annunciation in the New-York papers, that the Banks discount more freely, and that "money is easier," we do not perceive that complaints in this city are less frequent or uttered in tones less indicative of trouble and vexation.

The Boston Evening Gazette says "The pressure in our Money, market for three or four days past, we are informed, has been greater than it was at any time during the celebrated panie. It has been difficult to raise money on the best paper, at two per cent a month, and on post notes at one and a half per cent.

The New York Journal of Commerce announces the arrival in that city of \$300,000 of the indemnity money in gold and adds: \$1,500, 000 have since been received by the ship Heri iv. on account of the same indemnity.

Tampering with the currency, and corsold by the Land-Officers at a premium, we were contradicted in the usual courteous style of the Government paper, and defied to produce any specific fact to justify the statement. Though our general day evening, having left Norfolk on Thursinformation was undoudtedly true, we could day evening, with four companies of U. We have, however, just received one, and we hasten to place it before the eyes of the Executive, and of our readers, as follows:

MAY 14.

We extract the following from a letter received by us a few days since from a the letter of the committee : gentleman of high respectability :

"Being in the immediate vicinity of the Land-Office, I have an opportunity of seeing many queer things transacted, and will give you one among the many daily and almost hourly taking place. A man came in, wishing to enter five half sections of land, and offered in payment \$1,875 of fairs of our country is eminently critical. a New York Safety Fund Bank, and he orders from the Department at Washing- danger. If I were persuaded that, by rewas informed by the agent that, by the ton, they were prohibited receiving any money of a less denomination than \$5, or materially aid in arresting our downward money of any bank other than deposite progress, and in communicating additional banks. Here the man was in a predicament, for, if he went to get his money exchanged for such as was receivable under these orders, some one might enter the very land he had selected to settle himself and sons upon. What could he do? The agent very obligingly helped him out of his trouble by exchanging his own private money with him, for five per cent. premium, in which operation he pocketed the trifling sum of \$83 75, and the man has to pay, in reality, \$1,958 75 for five half sections, being \$83 75 more than the law of the land requires. But mark the sequel! The same day a merchant wanting funds that would go at the East, paid this land agent 2 per cent. premium for this same money, being \$39' 17 pocketed by the agent, making \$122 92 clear shave our of two individuals, on the same money, in one day. How long people will submit to this fraudulent system of kna. ving them out of their industrous earnings, time must determine. If they will keep in power such men as will stoop to any fraud, however glaring and obvious, to aggrandize co-partisans they ought to suffer the consequences. The above is but a specimen, and such specimens are but the commencement of a system of operations admirably calculated to make the 'rich richer, and the poor poorer;' and the whole to be done under the pretence of benefitting the poor and laboring classes of the community."

## PERFORMANCES.

Mucklejohn, Jr. was partially trained in the fall of 1830, then 3 years old; but only suffered to run sufficient to test his speed and to try his future promise. Fully trained the next season, and on the 26th of October, 1831, he won the Jockey Club purse, \$80, at Pineville South Carolina, two mile heats-beating Col. Richardson's b. f. Lapruelle, 4 years old, and, Col. Sinkler's c. Van Buren, same age. (Time not statedsaid to be very quick.) After this race he was exercised with an unmanageable filly, .who, in defiance of the efforts of her rider, constantly took the lead, by which means he soon became accustomed to look for a leader, and to stop when he saw nothing in advance of him-and on the 21 of December, 1831, on the Stateburg Course 1 4 mile heats, purse \$300, ran into the growd herfor payment.
