Among these, are Trees ten feet in height and a large number of five and six feet. The Trees are growing in a dry soil, at such distances as with the aid of a hot sun, and extraordinary dry season, .. ave imparted maturity and firmness chequers 12 feet apart, each way, covering an

area of at least twenty acres. All, therefore interested in the culture of Silk. will have an opportunity of furnishing themselves, on the most advantageous terms. The object of the Subscriber in offering his Trees at this time, is to afford the purchaser an opportunity of seeing the Trees as they are growing, or as they have recently grown. The sale will therefore take place on the ground. The Trees will be sold in lots to suit the hum lest purchaser, and on such conditions as will enable the poor man (notwithstanding the sneers of certain Editors among us,) to compete with the wealthy man, who can bring a larger force into the field. Morus Multicaulis. NOR Sale nearly or quite TWO MILLIONS

of Morus Multicaulis cuttings of remarkably wel grown and well matured wood; a large proportion from roots one and two years old. The trees are very super or, generally from 6 to 10 feet high, growing on dry sandy land, in rows from 4 to 8 feet apart, and standing, generally, at from 2 to 3 feet in the row. Main stems and branches will be sold together; and, rather than refuse a good offer, the roots will also be sold It is estimated that the lot will yield from four to five hundred thousand cuttings an inch and quarter, or more in circumference. Such cuttin, s, as I know from last spring's experience, grow almost as certainly as rooted plants, even with bad management in an unfavorable season, more especially when grown themselves from rooted plants, as is: he case with many of those here offered. It is confidently believed that very few if any lots of trees are for sale in the country which afford so large a number of so good cuttings. They are worth visiting from a distance by a person wishing to purchase so great a number of trees or cuttings of prune quality. The present price is 121 cents per foot, or 2 cents per bud. A reasonable deduction would be made to a purchaser of the whole lot. The field on which the trees stand is within a few hundred yards of the Cheraw boat landing, from which there is regular steamboat communication with George Town and Charleston. The postage must be paid on all letters on the

subject or they will not attended to. M. MACLEAN. Cheraw S. C. October 4th 1839. The Journal of the American Silk Seciety will insert the above advertisement once omitting this postscript, the National Intelligencer, American Farmer, Morris's Silk Farmer, Georgia Journal, and Federal Union will insert it twice, omitting this postseript, and forward their accounts to this office ; or state the amount

of their bills respectively at the bettom of the
