Advertisements will be inserted at the rate of \$1 50 per square, 10 Nonpareil lines, for the first insertion; subsequent insertions by contract.

Gov. Hampton has issued a proclamation appointing to-day as a day of thanks giving and prayer.

Ex-Comptroller T. C. Dunn, has been tendered the office of Collector of internal revenue for this State in place of L. Cass Carpenter, resigned.

The Walterboro News has changed hands, and will hereafter be conducted in the interests of the Democratic party. It certainly must improve by the change.

The following gentlemen were elected by the General Assembly, last Thursday as trustees of the South Carolina University to serve for the next four years: Rev. E. J. Meynardie, R. W. Boyd, Esq., Hon. B. F. Perry, Col. F. W. McMaster, Hon. C. H. Simonton, Col. J. D. Blanding, Col. J. H. Rion.

On Thursday, Mr. Sheppard, from the committee on ways and means, reported unfavorably on the recommendation of Gov. Hampton for the payment of the professors of the university. The salaries are fourteen months in arrears.

Secretary Sherman, at the instance of the President, tendered to ex-Governor Chamberlain the solicitorship of the treasury. Mr. Chamberlain declined on account of previous professional engagements. Mr. Chamberlain had an interview with the President last Friday, and left for South Carolina, where he will remain a week to settle his affairs, and then return to New York to practice his profession.

Although a determined fight was made by the repudiationists in the House of Representatives on Monday to amend the joint resolution seeking to raise a commission to investigate the public consolidated debt, it nevertheless passed, and now assures the bondholders a speedy settlement of their claims. The resolution provides that the commission shall consist of two members of the House, one member of the Senate and two citizens to be appointed by the Governor, who shall sit during the recess and pass upon the validity of the indebtedness of the State.

In consequence of the failure of the late Congress to make an appropriation for the army, an order has been issued reducing the force to about 19,000 men. All soldiers and non-commissioned officers whose terms expire before November are to be mustered out previous to June 30, unless they give notice of their intention to re-enlist, and all minors and men who from any cause are not fitted for good soldiers will be discharged. Officers on recruiting service will have their choice of returning to their regiments or be put on the list of those waiting orders.

Peter Papin, the financier, who was about to have invested in his enterprises ten millions of English capital, which he is supposed to carry around in his breeches pocket, came to grief on Tuesday in Columbia by offering such inducements to committeemen as no honest man could listen to, and was hustled off to jail to await the uncertain adjournment of the Legislature. It won't do to trifle with the integrity of such men as Joe Robinson; and it is well for Papin that he has found it out. Port Royal breathes free again, and Appleton will advance the price of water lots.

In their eagerness to appear economical the legislators in Columbia have not indulged in the customary wrangle over the number of newspapers to be furnished for their mutual perusal. Perhaps the State would have gained more than it may lose if the up-country members had access to a few newspapers.

We are afraid from the course pursued in reducing the salaries of Quarantine officers, that the importance of filling those positions by securing competent men, has never been brought to the attention of our Solons. Few of them probably are aware of the duties and requirements of Health Officers, and of the relation they sustain to the commerce of the State and the protection they afford the health and property of the citizens on the coast. They may not have heard that the yellow fever visitation last summer cost the city of Savannah several millions of dollars and that a relaxation of the quarantine regulations may cause the commercial mart of South Carolina to pay as bitter a penalty during the present season.

The want of opportunity to read newspapers may leave the rural members ignorant of the great number of foreign ships which are constantly entering and clearing from the harbors of Port Royal and St. Helena bringing no slight increase of wealth to this section. It is but charitable, we think to attribute ignorance of all this as the excuse for the action of the legislature in reducing the salaries of competent and faithful men of the profession, who in the past have done so much for the State.

Hon. Henry McIver, of Charleston was unanimously elected Associate Justice last Friday, to succeed Judge Willard as Chief Justice. Mr. McIver is a lawyer of prominence in his section of the State, and is devoted to his profession. He has never taken an active part in politics, and is conservative in his views. His elevation to the supreme bench is a high compliment to his legal abilities and moral worth.

Mr. Chamberlain has great hopes for the future of South Carolina under good government. In an interview given a Herald correspondent he said:

"I have had political differences with the people of South Carolina that were wide and deep, but upon this subject of the resources of the Commonwealth I have never entertained a doubt. South Carolina offers the most inviting inducements to the emigrant. Her resources are almost indescribable. Her cotton, long staple and upland, her rice and corn, her facilities for production and manufacture are absolutely unsurpassed. I had a dream of identifying myself with the development of these great resources; not if you will allow me to say, so much as a matter of personal ambition as of satisfaction at seeing a State capable of taking her place among the great productive agencies of the Union; but the dream is past. I have sought other fields, and probably shall find my future in New York. I should have been glad to have participated in the results that must come from the energy, industry and growth of South Carolina, for she is Massachusetts, Alabama and Iowa rolled into one. She has great variety of climate and soil. She has a tractable and adaptive laboring population, and with good government, self-reliance and the disappearance of political dissensions her future seems to be as clear and promising as for most enthusiastic soul could desire."

The Sectional Dock.

Port Royal harbor having been made a naval station the Secretary of the Navy has decided to send here a sectional dock and erect machine shops for the repair of naval vessels. The dock is now at League Island and will be towed down in sections at an early date. A naval inspector, Mr. W. L. Mintoyne, at present attached to the Boston Navy Yard, arrived here a few days ago to select a site for the dock, and after a careful investigation has decided in favor of a point at the mouth of Johnson river, opposite the present anchorage of the New Hampshire. At this place a channel was found a quarter of a mile long giving 35 to 40 feet of water at low tide, sufficient for the purpose, and he has forwarded his recommendations to the department.

On Monday a party of gentlemen went down on the Agnes and called on the Inspector on board the New Hampshire when the project was discussed and all available charts carefully examined. The officers on duty here, so far as we could learn, all agree that the point selected is the most desirable and best suited to the wants of the government. Mr. Mintoyne joined the party on their return and soundings were made at several desirable localities, but none showed so great a depth of water as the place already selected. We can safely calculate on this desirable addition to the government interests in our harbor and as the number of men necessarily employed on such work must be large it cannot fail to be a great benefit to our mercantile community.

THE GENERAL ASSEMBLY.

In the Senate on Thursday Mr. Allen, from the committee on Legislative Library, reported and called attention to the fact that the robes and archives of the State had been packed up and deposited in the basement of the University library; that they had been opened by H. E. Hayne, and the records left scattered over the floor, and recommended that the Clerk of the House be instructed to collect and classify them, and cause the manuscript journals to be bound.

On motion of Mr. Sheppard the vote on the bill to reduce and fix the salaries of certain officers, was reconsidered, and the bill and report postponed till next session.

On motion of Mr. Yescmans, on behalf of the Committee of Incorporations, the following was recommitted: Bill to amend the charter of Port Royal Real Estate Improvement Company; House bill to amend charter of Port Royal Dock and Bank Company, and Senate bill to amend the charter of Port Royal Dock and Bank Company. These are the schemes of Papin and are now, thanks to some of our citizens, pigeon-holed for the present.

In a speech on the bill to raise supplies Mr. Hemphill said: Why does the committee recommend \$300,000 for interest only. It is either too much or too little. The funded debt under the act amounts now to \$4,396,290.44. The interest on this sum is \$247,022.28 now due. There remains funded under the act \$1,787,458.37 after being scaled at fifty cents to the dollar with interest due upon the same from July 4, 1874, at 6 per cent. per annum which by July next will be \$327,745.30. This fundable debt is waiting up the street to be poured in to go through the mill and in two months from the appointment of the contemplated "commission" will flood the treasury, consume the \$300,000 of this section and leave a balance still ready to pour in. Add the interest now due on the funded debt to what will be funded by the time of the collection of taxes and we have \$368,766.58 of these precious coupons and only \$300,000 to pay with.

lston Rail road recommended that the bill do pass. A resolution to postpone to the next regular session all bills relative to the granting of a charter to a new company, or for the amendment of a charter heretofore granted, for the purpose of mining and digging for phosphates, was agreed to.

Upon the House assembling, the tax bill was taken up for a second reading. Section 1 was passed, levying 7 1/2 mills for State purposes.

Section 2 was taken up. This section levies 3 mills for county purposes. It was amended by adding a proviso that nothing herein contained shall prevent the levy of special county taxes where not authorized by special acts in Pickens, Sumter, Richland and Orangeburg. The section as amended was then passed.

Section 3 as to the deposit of taxes collected and the publication of monthly statements, was passed. Section 4 which forbids the collection of any other tax except as specified for the fiscal year, was amended so as to except the taxes to meet the interest and retire bonds issued by the several counties in aid of railroads, and passed.

Section 5, relating to poll tax and providing a punishment for non-payment by fine of \$5 or thirty days' imprisonment, was passed. Section 6, prescribing the kind of money in which the taxes shall be paid, was passed.

Section 7, providing that the taxes may be paid in installments, and prescribing penalties for non-payment, was passed. Mr. Orr moved that the rules be relaxed, and members be allowed to smoke in the hall, but was not agreed to.

In the House, on Friday, Mr. Youmans, from the Committee on Incorporations, reported unfavorably on the following, which were rejected: Bill to amend charter of Port Royal Dock and Banking Company; bill to amend charter of Port Royal and Liverpool Real Estate Improvement Company.

The consideration of the report of the special committee as to the conduct of Judge Wright was postponed till next session.

Mr. Hamilton entered a motion to reconsider the vote by which it was postponed. Mr. Myers introduced a resolution to instruct the Judiciary Committee to prepare a general bill as to working of public roads, Adopted.

Mr. Bissel introduced a bill to incorporate the Port Royal Harbor and General Shipping Company.

Bill to establish a new county from a portion of Beaufort County, known as Palmetto County was postponed till next session.

From Goethe Township.

BEAUFORT, S. C., May 18, 1877.

Editor of The Tribune: Presuming that a few dots from this township might not be uninteresting to your readers I would state that the people seem to have acted upon the Governor's advice, to let politics alone and go to work. From the backwardness of the Spring, the crops are however unpromising. The "oldest inhabitant" racks his brain, in vain, to recall so unpropitious a season.

The planters have generally succeeded in getting a "stand" of cotton, and are weeding out the grass with a vim. The grain crops are receiving more attention now, than they have since the war.

A seven year old daughter of Miles Ford, (colored) living on Frank Johnson's plantation, was so severely burned yesterday, that she died within 78 hours. Her clothes caught from the fire in the chimney, and were literally burned off, before assistance could reach her, though her parents were only a few rods off.

GOETHE.

War Notes.

Roumania has proclaimed her independence of, and declared war against Turkey. The army will remain on the defensive.

Sebastopol is about being attacked by the Turks, and all civilians have been ordered to quit the city.

The Russians have taken Ardahan, a strong position about thirty miles north of Kars. Sixty guns and a large quantity of ammunition were captured and the Russians lost two hundred and thirty-five men.

The Russian loss a cording to official account, was one officer and fifty soldiers killed, and forty officers and one hundred and eighty soldiers wounded.

The Turks have, it is estimated, two hundred thousand troops between the Balkan and the Danube, opposed to which are two hundred and fifty thousand Russians.

Further amended so as to give the Health Officer of Charleston \$1,000, of Hilton Head and St. Helena Sound \$500 each, and of Georgetown \$400.

A correspondent of the New York Sun, who claims to have made an examination of the facts, reports the total yield of the Black Hills gold fields last year at two and one-half million dollars, four fifths of which came from the immediate vicinity of Deadwood. He estimates the return for the present season at twenty-five millions, and to support his predictions instances a quartz lead where eight hundred thousand dollars in ore is now plainly visible. The correspondent adds that all the available claims are already taken up, and that starvation only awaits those who may now venture the seeking of their fortunes in that locality.

A London correspondent thus describes an incident in a bull fight at Madrid, when the king was present:

"Two bull-fighters came to the rescue of a picador lying helpless under his horse. Either would have sufficed to draw off the incensed animal, made rabid at the sight of the glaring capes. The two bull-fighters got too close to one another and caused in their feint a moment of pause, which enabled the bull to come at them like lightning, with head lowered. Hermosilla managed to escape, but Frasuelo was caught from behind and raised off the ground, shaken on the horn, which had entered his thigh, and then again gored. The others hurried to the rescue and drew off the bull, which was on the point of again goring the wounded man. The whole scene lasted but a few seconds, and a loud cry of horror burst from every part of the ring."

Juan Salazar, a Spaniard, and Henry Sanders, a negro, had a discussion in San Jose Cal., as to whether there was any difference in the blood of whites and negroes. They agreed to decide the question by examination, and with a razor they slightly gashed their arms, thus getting the two kinds of blood to look at. So far they were amiable; but when Salazar said that he could plainly see a difference Sanders got angry and made a fatal attack on him with the razor.

The skin of the enormous grizzly bear lately killed in Calaveras county, Cal., is to be sent to Mr. Hayes. The animal when dressed weighed 1,453 pounds. His head, back of the ears, was two feet ten and a half inches in circumference after the skin had been removed.

The season as reported from all quarters of the country, is forward to an unusual degree in respect to all farming operations, and grain and grass are advancing under highly favorable conditions.

It is stated that the Russian fleet left American waters upon intimation from the State Department that their departure was desired.

P. T. Barnum and the father of Charles Ross offer \$10,000 for the boy and no questions asked.

A negro convict in the penitentiary was shot and killed last Friday while attempting to escape.

Don't love two girls at once. Love is a good thing, but it's like butter in warm weather—it won't do to have too much on hand at once.

Governor Williams, of Indiana, has his blue jeans for use as well as for campaign purposes. He is to take part in an old-fashioned log rolling, to be held on the farm of Dr. Farnus, near Danville, on the 25th. On the program Governor Williams is down as teamster, and will show his skill in engineering a yoke of oxen.

A WHEELER & WILSON Sewing Machine, for sale low. Inquire at this office.

HOUSE and LOT in PORT ROYAL AT AUCTION.—Will be sold on the first Tuesday in June in front of the Court House to the highest bidder. One house and lot on 8th St. Lot No. 18, block 52. The house is 22 feet front, extending 35 feet back; in a good stand for business. Kitchen and necessary out-houses, and a well of most excellent water in the yard.

Mechanical ingenuity culminated in the invention of the Sewing Machine and millions of toiling women were elevated from drudgery and poverty to intelligence, industry and competence. If this be true in the abstract as regards the average sewing machine, with what force must it apply to that marvelous embodiment of all that is useful and beautiful in sewing machine mechanism, the VICTOR Sewing Machine, which has fairly eclipsed all others, not only in its adaptability to do all kinds of work but in the ease with which it is done. It may be said to have carried its admirers by storm as soon as its capability for work became known. The aim of its inventor has been to discard every useless complication peculiar to ordinary machines, and only familiarity with the machines will enable our readers fully to appreciate how far he has succeeded. It is not too much to say that the machines will last a lifetime. Salesroom 54 East 10th Street, New York City, and in all the large cities of the country.

A LECTURE.

THE RIGHT REV. P. N. LYNCH, Bishop of Charleston, will deliver a lecture in the dining hall of the Sea Island Hotel on SUNDAY EVENING, MAY 27, at 8 o'clock. Subject,

"CHRISTIAN ANTIQUITIES."

Tickets can be procured at the Sea Island Hotel, from John Franz, Wm. Harrison, Jas. E. Boyce and Jno P. Boyce.

SHEPARD D. GILBERT

NOTARY PUBLIC. Attention given to Marine Protests. Office in the Sea Island Hotel.

APPLICATION FOR CHARTER.

To whom it may concern: Notice is hereby given that the application for a charter for the year 1877, in accordance with the provisions of the act in that behalf passed by the Legislature of this State, is open for

Official Notices.

Send me one dozen bottles, by express, for some friends. ALFRED CURRIE, 120 West Twenty-first Street.

DR. TUTT'S EXPECTORANT.

This unrivaled preparation has performed some of the most astonishing cures that are recorded in the annals of history. Patients suffering for years from the various diseases of the Lungs, after trying different remedies, spending thousands of dollars in traveling and doctoring, have, by the use of a few bottles, entirely recovered their health.

"WON'T GO TO FLORIDA."

Dear Sir:—When in Allen, last winter, I used your Expectorant for my cough, and realized some benefit from it, and I have since used it for the purpose of the past two years, and to my knowledge many bottles have been used by my patients with the happiest results. In two cases where it was thought confirmed consumption had taken place the Expectorant effected a cure. R. H. SPAGNOR, M.D., Boston, January 11, 1876.

"We can not speak too highly of Dr. Tuttle's Expectorant, and for the sake of suffering humanity we may as well say so as we can."

ALFRED CURRIE, 120 West Twenty-first Street.
