We invite our colored Fellow Citizens dispassionately their eonsider interests and unite with us in this attempt to elect men who will favor retrenchment and economy. To the mechanic we would say that as long as taxes are so high and so ruthlessly expended that he will get no employment and must remain idle from the indisposition and inability of property holders to repovate or improve their property during the continuance of an administration in which they have no confidence. The laborer must realize that if there was not so much expended for taxation there would be more to devote to wages and to the

employment o' their time. Come one, come all then with a long pull, a strong pull, and a pull altogether and on Monday next vote solidly for the following tieket. In my judgment many pieces of property are assessed at too high a value and in other cases the value is far below what it should be, thus making the burden of taxation unequal among the owners of real estate. The distinction in the rate of taxation of one fourth of one per cent in favor of those whose property consists of personal estate only, is as unfair as it is unlawful and should be repealed and made unitorm with other taxes as no sound reason can be urged why discrimination in favor of that

AN ADDRESS To the Taxpayers of the Town of Beaufort.

At a meeting of the taxpayers of the town of Beaufort, held Wednesday evening, August 1st., the following address was adopted and ordered to be published:

Fellow Citizens : Our municipal elecnion is near at hand and we will be called upon soon to elect an Intendant and board of Councilmen to conduct the affairs of this town for another year. Every one rich and poor, high and low, white or colored, must realize the necessity of a change that will guarrantee retrenchment of expenditures and a wholesale reform in the administration of the public trusts. There are considerations that have to political or party significance and equally address themselves to all classes of citizens who bear the burdens of taxation regardless of whether he be black or white Republican or Democrat. Greaning under the burden of an unnices a ily exorbitant taxation, the merchant the mechanics and the working man alike feel the extortion upon his slender profits to raise an amount for an extravagant an i reckless administration to squander. The annual amount of taxes raised by the Corporation of Beaufort for the past three years has been in round numbers about \$10,000 annually, almost as much as that raised for expenses of the county with its expensive machinery of Courts and yet the town is in debt and has to borrow money at a heavy rate of interest to pay its employees. Who shall say that so exorbitant a levy in comparison to the advantages derived is necessary or demanded and who can doubt with the experiences of other administrations in this same town that half that sum honstly judi-iously and economically expend ed would procure greater beachts and husband one half of the present rate of taxation for the hard earned rewards of honest toil or legitimate investment.

The high and exorbitant salaries now paid to officials should instead be devoted to public improvement and to the em-

The condition of the fire department is good, and company, and one hook and ladder company, hose and reels are supplied each machine, with the ex. reel and cannot perform efficient fir duty until this want is tilled The attention of the council has been called to this fact in former reports.

The purchase of a lot from Mr. Gleaves and the building of a house thereon, as recommended by the committee on Fire Department has through my efforts been delay id, as upon examination the tille were found defective, and should therefore result in indefinitely postponing the whole matter. Feb 27 The condition of the streets are as good as the con Mar 2 dition of the finances will permit, and are clean and well kept. The amount of work done in that direc. tion will be seen by reference to the report of the Town Marshal herewith submitted. The drains have been well taken care of, and to this fact no doubt, together with clean streets much has been added to the reputation of the town for healthfulness. The experience of last summer and fall is evidence that with proper sanitary precautions Beaufort may be classed as one of the most

healthful towns in the United States. In the management of the quarantine and sanitary departments last season which proved so success ful in preventing the introduction of yellow fever from adjacent cities where it had become epidemic in its worst forms, the citizens as well as myself are under obligations to II. M. Stuart, M. D., for his ad. vice and assistance which at all times was ready and

practical, and which rendered the town more healthful than in former years, and demonstrated that with proper precaution, contagious and infectious diseases could be successfully defied. There has been brought before the Intendant's

court during the fiscal year for trial or examination two hundred and fifty-one cases. One hundred and eighty-nine presecutions against males and sixty. two against females. In none of these cases have appeals been taken except in the cases of the Town vs. Alice Burton, and one Page, charged with violaing the ordinance regulating morality. decency &c., and although twenty-five persons have been arraigned under this ordinance during the present year, these are the only cases in which the jurisdiction of the Intendant has been questioned. The cases disposed of are as follows: Assault and battery, Sleeping on streets-Drunkenness, Violating ordinance regulating good morals &c., 25 Profane, indecent or abusive language.

Drunk and disorderly, Violating market ordinance Violating quarantine, Shooting in town limits, Interfering with, or resisting an officer. Selling liquor on Sunday, Selling and shooting fireworks,

Total. Some cases have been turned over to the trial justice for want of jurisdiction, and many have been

discharged without forma! trial because of the trival nature of the charge. There has been in posed in fines \$537.00 for which he town has received the money or its equivalent in work on the streets, except in the case of Burton
