THE FEVER.

That dreadful scourge, yellow fever, is once more among us, or if not in our immediate town it is having a dreadful harvest in the neighboring city of Port Royal, only four miles from us. This fever which is at last confessed to be of the yellow fever type first appeared about three weeks ago and carried of three victims without creating any alarm although their sickness was of but about t'iree days duration. Afterwards when many others contracted the disease, the slarm was sounded that it was what was feared, and a consultation of physicians called. Dr. Stuart, Dr. Gibbs, Dr. Battle of the Navy and Dr. Ford of Augusta met in Port Royal and examined several cases but only one, Dr. Gibbs, was certain the patients were suffering from yellow fever, and the report was then sent abroad that the disease was but an aggravated form of bilious fever.

Yesterday morning the matter was fn ally settled when Dr. Stuart reported that Fritz Hollengher had died the previaus evening of yellow fever with black vomit, and that four others undoubtedly had yellow fever. Savannah was the first to responded for calls for aid and sent down three colored nurses under the care of Dr. Sheftall. A subscription was started in Beaufort and in a short time \$100 was raised and forwarded. The only case in Beaufort is one of a man named Stern, a clerk for Mrs. Apple who has been living for some time past in Mrs. Apple's store in Port Royal and who came up last Sunday. He was frightened and walked all the way in the night which of itself was enough to make him sick and he was taken down next day. This is the only case of fever in Beaufort at present, there being a remarkable absence of the usual bilious fevers so prevalent generally at this season, and the physicians do not fear any visitation of the scourge.

In the meantime everything that can be done has been done by our town authorities to prevent disease. The town is remarkably clean disinfectants have been freely distributed, the stores are ordered closed at 6 p. m. and watchmen stationed around town to prevent communication with Port Royal. There has not been sufficient precaution, taken to keep persons out of town for the past week who visited Port Royal daily on business, but now all persons from there are rigidly refused entrance, and an oscape so far can be contributed only to the natural healthfulness of our town. The close proximity of the fever has induced many of our citizens who can leave to absent themselves for a short time, and the trains t day and tomorrow will carry them to localities where yellow fever is not known, and where its presence is not feared.

A dispatch from Jacksonville dated yesterday, says that the heavy and continuous rains last week have been extremely hard on the sick in Fernaudina. Dr. Starbuck states that the city is in a more deplorable condition than at any time since the epidemic commenced. It was raining all day, there was scarcely a white person on the streets, and it was impossible to get any reliable information regarding the sick. Most of the physicians are sick, Dr. Martin being the only one able to do full practice. Dr. Geddings, president of the Medical Society of South Carolinahas offered his services, if they think it necessary to call him. A later dispatch says that there were no deaths, but six new cases, three whites and three

OFFICIAL PLUNDER. It seems almost superfluous to say that the most alarming symptom of corruption under the form of Goveenment with which this country should be blest, in every sense, has been the unblushing venality to be traced in so many official quarters. This is an evil which increased apon us so rapidly that where a case of conscientious discharge of duty occurred, it positively became a matter of especial elamor and ontery by the rogues. Not, at ninety cents per bushel, exceed by indeed, that offices were generally filled by men who commenced with thoroughgoing raseality; but one used to hear upon the street such remarks as these:- abundant in all these States. This enor-"That place has a regular salary of mous crop is of itself the strongest guar-\$3,000 per annum, but he can make rantee of better times. The whole \$10,000 out of it." Again:-"So-and-so country will be benefited not only by a is worth \$200,000, and when he took reduced cost of the first necessaries of that office, two years ago, at \$6,000, he subsistence, but also by an increased dehadn't a cent." Houest, toiling men of mand for other commodities. Inasmuch industry, talent, frugality, and self-denial, as an ample grain crop usually carries heard these things with amazement and with it a large pork crop, we have almost aversion at first, but, finding them con- a certainty of an exceptionally large tinually repeated amid the smiles and not supply of the staple food products of the the frowns of the by-standers, who were country. The agricultural West has as likely to be men of note as any others, suffered much less from the influences grew familiar with the thought, and at associated with the panie than the man- the treasury, tortured him by applying last, insensibly lost that keem, delicate ufacturing and commercial group of burning coal to his feet, and so compelled sense of rectitude that should have been States. It has known comparatively him to divulge the combination of the sheir second nature. Others commenced little of losses resulting from the shrink- safe lock, whereby they were able to carwith ripened knavery, and, finding lit. age of manufacturing property, from the ry off about \$27,000. It turns out that tle restraint either in public conscience or prostration of the iron industry, or from the ruffian who applied the torture was in the larriers which law imposed, were the collaspe in the coal trade. It has the county auditor, and that it was all not satisfied fill they had gorged theme not been appreciably hart by the failure what is vulgarly called a put up job. solves with immense sums of the people's of newly constructed refrends or the Moreover there has been a study course. Vessels discharged and loaded with dis-They we now look with improvement destroy is the stocks of the older ones of straining from the country treasury for paren.

tions than the second; but one thing is certain, we shall never get out of the trouble unless we stop its cause. Public and official thieving must cease.

EX-SENATOR SAWYER IN JUL.

In the case of the United States vs. ex-Senator and ex-Assistant Secretary of the Treasury Sawyer tried in Washington last Saturday the jury rendered a verdict of guilty, and he was sent to jail. The defence made many exceptions, which will be heard at the general term. The convict will be retained in jail there until the exceptions are heard and the case finally disposed of. He is convicted on the count of conspiracy to pass a fraudulent claim on which \$57,000 was paid to Roddy. The unfortunate Sawyer, then secretary, only received \$1,000 of the plunder. The penalty is not less than one year's impriso ment at hard labor and a fine not less than \$1,000. The jury made an exceptional recommendation for mercy in favor of Sawyer, who it was not proved had received any share. This is the famous Parkman, Brook & Co's, cotton claim of Memphis.

In the course of a recent interview with a member of Congress the President remarked that from what he had seen during his late trip to the South, he believed that the whites of that section were really anxious to accord to the colored people their full civil and political rights, and that his trip had strengthened him in the conviction that his Southern policy would redound greatly to the interest of the blacks, in whose welfare he had always telt, and should continue to feel the deepest interest.

In the meanwhile, notwithstanding Senator Conkling's opposition, a large mass meeting has been called by prominent New York Republicans at Cooper Institute on October 10th for the purpose of declaring their unabated faith and confidence in the integrity, ability and patriotism of President Hayes, their sense of the wisdom and justice of the aims and purposes of his Administration, and their belief and joy that the country is beginning to realize and will soon fully reap the blessings of domestic quiet and happy concord in and between all the States, which a universal love of duce; of restored confidence and abundant labor in all departments of industry and commerce, and of a sound and perman- tion. ent prosperity, which shall bring plenty and happiness to all the people. Judge Noah Davis presided, and letters were read from many prominent Republicans signifying their intention of being present. George W. Curtis, Jos. H. Choate and Gen. Dix were invited to address the mass meeting.

President MacMahon has undertaken to dragoon the French nation into submission to his imperial authority. He has at length issued his manifesto, in which he assumes to dicta e to the people how they shall vote at the coming election, and that if they do not choose to elect to the Chamber of Deputies such men as he shall select, he will pursue his own course with the support of the Senate. He speaks of the dissolution of the Chamber of Deputies as if it were the first act in a course designed to re-establish despotic authority, and claims for himself such power and authority as the nation never entrusted to him.

Continued Brightening Prospects.

Our exchanges still assure us of increasing trade and better prospects in almost every direction. The bountiful harvest, and fair if not high, prices obtained for our various products are the country says:

"In estimating the business prospects of the fall season, it is important to keep Western States, containing over onethird of the whole population of the still higher ratio of the total national product. The value of the aggregate wheat crops of nine States-Minnesota, Iowa, Wisconsin, Kansas, Michigan, Indiana, Ohio, Kentucky, and Tennessee-for the crops of the same States for the year cient officers of the Society. 1876; while other grains will be equally

at the mountains of debt-State, muni- The capital which covered the West with years. The tax-payers are very much cipal and corporate-piled up within the a net-work of iron roads came mostly exasperated and are considering the prolast decade, large portions of the avails from the Bast and from abroad. The priety of lynching both auditor and treasof which were stolen by those who had disasters of the railroads have resulted in urer. the handling of the funds. The wonder some positive advantage to the West. now is, first, how we could ever have through reduced transportation charges permitted such a state of things to occur; and consequent increased profits on its and second, how we shall ever become crops. While the Western people buy extricated from the load. Doubtless it is all Eastern commodities at greatly reduceasier to answer the first of these ques- ed rates their own products have not fallen in anything like the same ratio. Indeed, the West is not only prosperous. but in a situation that warrants our expecting from it a valuable fall and winter business. Its healthier condition diffuses a healing influence through the whole country, and, with its enormous crops, the benefits it confers upon other sections, and more especially upon this city, the great distributing center and counting house of the country, will be more marked during the next twelve months than they have been at any time since the crash of 1873."

A boiler in the Charleston Mining and Manufacturing works, near Charleston, exploded last Thursday instantly killing one colored man and scalding two others' so severely that they died

The Treasury Department had upon the Union Pacific Railroad train recently attacked by robbers in Wyoming 300,000, ounces of silver bullion. This was, however, in large bars, and was so heavy that the robbers were unable to carry it with them, and not an ounce was lost. This bullion had been purchased in Nevada, and was destined for the Philadelphia mint.

While the wife of Mr. C. J. Langdon, was riding near Elmira, N. Y., with her child and nurse, a few days ago, the horses ran away, and were stopped by a colored man named John F. Lewis, who was rewarded by a present of \$1,000 from Mr. Langdon, with a quit claim for a mortgage of \$400 on his farm, due to a gentleman who thought the deed worthy of a further reward, and smaller gifts from some other persons.

In the Patent Office fire the most valu. able relics lost were Eli Whitney's cot. ton gin and Robert Fulton's origina model of a steamboat. The original sewing machine was not destroyed, as supposed. Some bystander, knowing its value, seized it before the flames reached it, and was arrested in the act of carrying

> The elegant and costly steam fire engine is being doctored for ailments which seem to increase in number as the intricate machinery is overhauled and brought to light. For some time it has been evident that something was wrong with the machine and last week the Intendant employed Mr. Whitman to make an examination to find out what was the matter. Mr. Gordan, the engineer was wroth at another machinist being set to work at the engine, claiming that he was fully competent but had asked in vain for authority to overhaul it. The officers were also exercised over the Intendant's action and a lively discussion was the result. In the meantime the taxpayers who were obliged nolens volens to have their taxes expanded for several years to pay for the machine gaze inquiringly on while the subject is talked over.

The ninth annual fair of the State Agricultural and Mechanical Society will be held at Columbia from the 13th to the 16th of November next, and promises to be an unusually interesting exhibit of the progress made in our State in field crops. stock raising and the mechanical arts. These terms, however, but faintly indicate the extent of the display and the incalculable amount of good which must accrue to the State under the stimulus apparently sure grounds of confidence if of premiums offered for excellence in we do not ourselves ruin everything by products of agricultural and other indusill-a lyised legislation. The New York tries. For instance, sixty seven premiums Sun, discussing the business prospects of are offered for the best samples of cotton, corn, wheat, potatoes, rice, tobacco. ramie, hay, hops etc, and other valuable inducements are held out to 'competitors in view the condition of affairs in the in bringing forward, lard, bacon, honey, green and dried fruits and native wines; while encouragement and notoriety will country, and furnishing in money value a | be offered those who have engaged in the manufacture of domestic fabrics of cotton, wool and silk, of paper and of farming and other mechanical implements. The display in the stock and poultry department promises to be unusually fine, and romark by honest people and a general year 1877, would, if sold in the country the cutire fair promises to be a great success under the efforts of Col. Thomas \$66,400,000, the value of the wheat Taylor, the President and the other effi-

A convention was in progress at Lima Ohio at which the county auditor was making a furious speech in favor of "reform," when he was suddenly snatched up by the constables and carried off to jail where he found his friend and political crony, Lewis Meyers, also incarcerated. Myers was the treasurer of Auglaize county who was discovered a few weeks ago in his office bound. and a gag in his mouth. He said that four masked ruffians had seized him upon the highway, hauled him to

B. G. FLEMING, They are worth their

Dr. Turr:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation, and Piles. Last spring your pllis were recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds soild fiesh. They are worth their weight in gold.

REV. R. L. SIMPSON, Louisville, Ky.

combining in them the heretofore antagonistic qualities of a strengthen-ing, purgative, and a pur-ifying tonic.

Their first apparent ef-fect is to increase the ap-petite by causing the food to properly assi milate.

Thus the system is nourhus the system is nour-shed, and by their tonic action on the digestive or gans, regular and health

WHAT IS QUEEN'S DELIGHT!

Entering at once into the blood, expelling all scrof-ulous, syphilitic, and rheumatic affections. Alone, it it a searching alterative, but when combined with Sarsaparilla, Yellow Dock, and other herbs, it forms
