Business Men Helping Farmers.

Augusta Chronicle.
While we may be busily engaged
in other propositions that for the
moment are of paramount impor-
tance, yet we do not want to get a-
way from the fact that the relation-
ship of the business man to the farm-
er at this critical juncture is one that
cannot be neglected, for if such a
condition of affairs is allowed to ex-
ist, not only will our own community
suffer, but the entire surrounding
community will be affected.

Discussing this important feature
in an editorial, the Progressive farm-
er outlines the following three things
which business men can do most ef-
fectively in a cooperative way with
the farmers:

Provide a market for corn and
beans. It will be a crime if, next
fall, communities, because of un-
organized marketing facilities, are
compelled to sell corn at 60 and
70 cents a bushel and velvet beans
at \$10 and \$12 a ton, as was the
case last fall. Of course the
grower must do his part by see-
ing to it that his product is sound
and dry, but it is the duty of the
business men to provide power
corn shellers and sacks, and to
help see to it that prices are in
line with the big markets of the
country.

Save the surplus of sweet pota-
toes. It is easy to raise a big crop
of sweet potatoes, but the fall
crop is tofen had to sell at fair
prices. Where such is the case,
business men must help by pro-
viding sweet potato curing houses
sufficient to hold the crop for bet-
ter prices. These houses are en-
tirely practicable. See your coun-
ty demonstration agent, or write
your state experiment station or
the United States Department of
Agriculture, Washington, D. C.,
for plans.

Help market hogs and cattle in
car lots. Selling live stock on the
local markets is out of the ques-
tion; carlot shipments direct to
packing houses must be made.
Rarely can individuals make car-
lot shipments and communities
must put their live stock together.
scores of counties in the South
are already following this plan

and hundreds of others must fall
in line. The business man should
actively help in this now. They
will probably be brought in a local
way through the establishment of an
army camp here, will have no trouble
whatever in hadling everything of-
fered in almost any way, shape or
form, still this is a good time, in
fact, the opportune time, to devise
ways and means to cope with con-
ditions which might have been thrust
upon us under less favorable circum-
stances. Consequently while we are
in the midst of a period of unpar-
alleled activities let us direct some of
our time and attention to vital prob-
lems that will be with us long after
war is closed—when we again begin
"beating our swords into plow
shears."

Don't Neglect the Summer Cold.

We "catch cold" in warm weather
because colds are germ diseases and
our vitality is too low to resist them.
To kill those cold germs the antiseptic
pine-tar of Dr. Bell's Pine-Tar
Honey is famously effective, besides
helping to relieve the tight chest and
invigorate the tissues. The honey and
expectorant ingredients heal the
throat and soothe the cough. Always
have a bottle of Dr. Bell's Pine-Tar
Honey in your home, 25c, at your
druggist.

Use "Gets-It," Lift Corn Right Off!

Shrivels, Loosens—and It's Gone!
"Just like taking the lid off—that's
how easy you can lift a corn off your
toe after it has been treated with the
wonderful discovery. "Gets-It."
Hunt the wide world over and you'll

find nothing so magic, simple and easy
as "Gets-It." You folks who have
wrapped your toes in bandages to
look like bundles, who have used sal-
ves that turned your toes raw and sore,
and used plasters that would shift
from their place and never "get" the
corn, and who have dug and picked
at your corns with knives and scissors
and perhaps made them bleed—just
quit these old and painful ways and
try "Gets-It" just once. You put 2
or 3 drops on, and it dries at once.
There's nothing to stick. You can
put your shoe and stocking right on
again. The pain is all gone. Then
the corn dies a painless, shriveling
death, it loosens from your toe, and
off it comes. "Gets-It" is the biggest
selling corn remedy in the world to-
day. There's none other as good.

"Gets-It" is sold by druggists ev-
erywhere, 25c a bottle, or sent on re-
ceipt of price by E. Lawrence & Co.,
Chicago, Ill.

Sold in Lexington and recommend-
ed as the world's best corn remedy by
The Harmon Drug Co.

Save Three Hours out of Every Four Your Horses Work by Using

Smith Form-a-Truck

\$350

F. O. B. Chicago

C. E. TAYLOR, LEXINGTON, S. C.

AGENT FOR LEXINGTON AND SALUDA COUNTIES

Every minute wasted on the road by slow,
inefficient hauling and delivery costs you
real money. Horses take from three to
four times as long to cover the ground as
it will take you when you install Smith
Form-a-Trucks in your service.

Three to four miles an hour is the best horses can do
with a ton load. Smith Form-a-Truck replaces the
slow, time wasting walk of horses with a speed of from ten
to fourteen miles an hour under every condition of work.

And it costs no more to buy a Smith Form-a-Truck
than it does to buy a good pair of horses equal to the
work of hauling a ton load. If your hauling or delivery
requires all-day service every working day of the year,
you must have at least two teams for every wagon.

The sturdy, efficient, untiring Smith Form-a-Truck never
takes time out for rest, never has to lay off the job. It
works steadily day in and day out, always maintaining
its high speed, always moving its load quickly, easily,
and at lower cost than any other form of service you
can buy.

Records of service obtained from over 18,000 Smith Form-a-Truck
users show a ton mile cost of less than 8 cents. And the first
Smith Form-a-Truck ever sold has been in service four years,
covered 20,000 miles and cost only \$8 for repairs.

Get a Smith Form-a-Truck, attach it to any Ford, Dodge Bros.,
Overland, Buick, Chevrolet or Maxwell chassis and end your
excessive hauling and delivery costs.

Put your hauling problems up to us. It doesn't cost you a cent
to learn just how much money we can put back into your pocket
that you are now putting into horses.
