

Dr. Frederic Jacobson says 75 percent of women need Phosphates to give them Strong, Healthy, rounded figure and to avoid Nervous break down. Thousands of women grow strong in Nature's way.

"Consider the Lilies of the Field, How They Grow."

The life of the lily is but a few weeks or months. The life of man is "three score years and ten." But to live one's life in its fullness, women like the lily, must be nourished by those same vital elements which nature provides for nourishing every living thing; and these include the valuable phosphate so often lacking in the usual food we eat today. Argo-Phosphate is rich in these wonderful elements. It contains them in concentrated tablet form which is easy to take and quickly assimilated and absorbed into the system, and from youth to old age, builds and rebuilds body and brain in beautiful harmony with Nature's perfect plan. "That's why" Argo-Phosphate makes good solid flesh and muscles.

SPECIAL NOTICE: Argo-Phosphate contains the Natural phosphates which thousands of physicians are prescribing daily to build up thin, pale, colorless women to give them rosy cheeks, red lips, and a beautiful complexion. Many cases have been reported where women have increased their weight from 15 to 25 pounds with a few weeks treatment, and any woman who desires a well rounded and developed form, should secure from her druggist, this new drug which is inexpensive and is dispensed by any reliable druggist with or without a doctor's prescription. If your druggist will not supply you, send \$1.00 to the Argo Laboratories, 10 Forsyth St., Atlanta, Ga., and they will send you a two weeks treatment by return mail.

HONOR THE BRAVE.

(By J. W. Hook.)

Oh, you young men of America
So young, so vigorous, so brave!
Who know the blessings of liberty
And the power of Him to save;
Whose land is the home of the christian,
Where God delights to dwell—
Not a land ruled by a kaiser
With the tyrant hand of hell.

You have heard your country calling;
And the people far over the sea
Are suffering and moaning and dying
And calling with a pitiful plea
For help to dethrone the tyrant
And stay his murderous hand,
That monarchies and kingdoms may vanish
And the world be a christian land.

You are going to the front with valor;
You fear not the soldier's grave;
And your sword and helmet clatter
As you hurry, the world to save;
For the life of the nation is threatened
By thirsty Hohenzollern greed
For world-wide dominion
And one-man slavish creed.

You are going to the bloody battle,
But you go not all alone;
For the spirits of dead heroes
Go with you and condone
Your deeds for universal peace
And liberty of the world,
With suffrage bound in release
Under flag of democracy unfurled.

And when you've fought the battles
In air, on sea, on land;
And you have won the victory
O'er savage Teuton band,
Then will the crown of power
Fall from the kaiser's head
And all the German Empire
Be numbered with the dead.

No longer shall a crown of gold
On a brutish, savage head
Legalize a tyrant king
To dye the land a bloody red;
But tell the world shall dwell in peace
Under democratic rule,
Like a lot of worthy students
In a wisely governed school.

All honor to the soldiers brave,
Who dare to gain this good;
And honor to the Red Cross, too,
And the man who raises food;
For one is need to help the other—
It takes them all to win—
And each should do his part to help
The valiant, fighting men.

On history's pages, through the ages,
In marble, book and story
Shall live the daring, noble deeds
That crown the men with glory.
Women, too, shall wear this crown,
For deeds that they have done;
For 'thout their love and kindly
daring,
The victory had ne'er been won.

Irmo, S. C., July 15, 1917.

A BAD SPRING FOR WOMEN

The late, cold, and damp spring seems to have caused much suffering from backache, rheumatic pains, aches and pains in sides, joints and muscles, lumbago and similar ailments Mrs. T. J. Bucknell, Hardy, Neb., writes: "I am recovering from an attack of lumbago by the aid of Foley Kidney Pills. They surely help me."

TEXAS TROOPERS FIRE ON MEXICAN CATTLE MEN.

Mission, Texas, July 19.—In a battle between members of the Fourth Tex. national guard at Ojo de Agna this afternoon and Mexican bandits, three of the latter were killed. None of the American soldiers was injured. The Mexicans fired across the river and the Texans returned their fire. The American river guard was reinforced by fifteen soldiers after the first volley. The Mexican bandits, who have had quarters close to Matamoros have been carrying on depredations across the border for weeks and the Texas troops have maintained a small river guard.

Reinforcement from the Fourth Texas national guard numbering about 200 men have been rushed to the seat of the trouble.

The bandits who attacked the Texas soldiers are made up of the worst band of cut-throats in the state of Tamaulipas. In addition to maintaining headquarters at Matamoros they also have a band camped near Camargo.

Reports as to who fired the first shot in the fry this afternoon are conflicting. It is said, however, that the river guard attempted to turn back a band of bandits who were bent on cattle stealing.

The Mexicans fired at the four of five members of the river guard; the latter returned the fire and took to cover. In the meantime reinforcements of fifteen men came to the aid of the Texas troops, and they went after the Mexicans, driving them back across the river. Three Mexicans were seen to fall. The Texas troops, nearly 300 strong, tonight are encamped in the vicinity of the battle but will not attempt to cross to the Mexican side.

TAX NOTICE FOR LEXINGTON.

Notice is hereby given, that pursuant to an ordinance duly passed by the town council of the town of Lexington; that an eight mill tax has been levied on all taxable property within the corporate limits of the said town, to defray the ordinary EXPENSES OF THE GOVERNMENT of the town of Lexington for the current year; the said tax will be due and payable on the 1st. of July 1917 the tax books will be opened for the collection of the said levy on the 1st. day of July and remain open until the last day of July next at the store of Caughman-Kamminer Company.

A ten (10) per CENT penalty will be added to all taxes not paid within the limit herein above set out.

After Aug. 15th executions will be issued against all persons not complying with the above notice.

JOS. M. CAUGHMAN,
Treasurer of the Town of Lexington.
Lexington, S. C., June 1, 1917.

Take this for Chills, Fevers, Malaria.

For a malarial condition with chills fevers and sweats, take Foley's "King of Malaria" Chill Tonic. It combines the virtues of quinine, without its unpleasant taste, with the strong, purifying and tonic properties of iron. It gives appetite, strength and vital energy. Try it.

Begin Their Sentences.

The officials at the State Penitentiary have "receipted" for and now have in their custody T. W. Mappus, A. J. Barton, Peter Pappus, Mike Kanalas, I. N. Johnson and E. Marilli. The authorities state these six white men have all been received from Charleston and that they are serving sentences ranging from 60 days to 6 months for violation of the sale or storing of liquor.

The information is that the men have not yet been assigned to any particular work, but they are "on the yard" and that they will be given something to do in the next day or two.

ANY CHEST COLD MAY BRING

Bronchitis or Tonsillitis

The irritating, tickling cough affects the lung tissue and wears down nature's power to resist disease germs.

SCOTT'S EMULSION

suppresses the cold, allays the inflammation, steadily removes the irritation and rebuilds the resistive power to prevent lung trouble.

SCOTT'S has done more for bronchial troubles than any other one medicine. It contains no alcohol.

Scott & Bowne, Bloomfield, N. J. 16-10

MAKING A LIFE.

Farm and Ranch.

We should remember that our neighbors know us. They may not always be fair in their estimate of our activities, but they know our character and are seldom deceived in our motives.

In addition to making a living on the farm we should strive to make a life. We should do the things that help make the community, leave an influence that is elevating among young people, and thus develop into ripe old age refined and benevolent citizens.

Not all of our energies should be taken in making a living. Some of the thought ordinarily given to less important things should be given to making a life.

Let the making of a life be paramount among young people. If this be done there will always be a living commensurate with the life—a living that typifies and exacts the life that is worth living.

This kind of character will be worth more than the wealth that could be accumulated and the end of such a life will be the beginning. Such a living makes life brighter and better. Such a living is worth making.—Farm & Ranch.

The Russians captured 35,000 Austro-Germans in 13 days. If the unlucky number hadn't interfered the spoils no doubt would have been everything on the Eastern front.

Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders. Often increases the strength and endurance of delicate, nervous folks 100 per cent. in two weeks' time.

New York, N. Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was notwithstanding his age. The secret he said was taking Nuxated Iron. He had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly all in. Now at 50, after taking Nuxated Iron, a miracle of vitality and his face bearing the buoyancy of youth. As I have said a hundred times over, Iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, preventing it becoming organic in thousands of cases, and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how

JUDGE FOR YOURSELF

Which is Better—Try to Experiment or Profit by a Lexington Citizen's Experience.

Something new is an experiment. Must be proved to be as representative.

The statement of a manufacturer is not convincing proof of merit.

But the endorsement of friends is. Now supposing you had a bad back, A lame, weak, or aching one. Would you experiment on it?

You will read of many so-called cures.

Endorsed by strangers from far away places.

It's different when the endorsement comes from home.

Easy to prove local testimony.

Read this Lexington case:

John J. Taylor, carpenter, Main St., Lexington says: "I had a constant pain in my back which bothered me so much I could hardly work. At times I was scarcely able to bend to pick up my tools. The kidney secretions were too frequent in passage, making me get up number of times at night. I bought Doan's Kidney Pills at the Harmon Drug Co., and they strengthened my back and relieved all symptoms of kidney trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Taylor had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Cattle relish the sweet odor of wet Buckeye Hulls

BUCKEYE HULLS, after being wetted down for ten or twelve hours, acquire a taste or odor similar to the succulent ensilage odor that cattle like so well. Simply feed

BUCKEYE HULLS
COTTONSEED
LINTLESS

properly and your stock will like them better than any other roughage. Once they are accustomed to them, they will not be satisfied with anything else.

There is every reason why your cattle should relish Buckeye Hulls. They are all roughage; no lint that is worthless as forage; no dirt, trash or dust.

Other Advantages

Buckeye Hulls cost much less per ton than old style hulls.	They take less space in the barn.
Buckeye Hulls allow better assimilation of other food.	They are sacked—easy to handle.
Every pound goes farther.	They mix well, when wet, with other forage.

Mr. L. R. Farmer, Louisville, Ga., says: "that he has used no other hulls but Buckeye for the past year and gets good results. Cows have not been bothered with cough since using Buckeye Hulls."

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
