## TANLAC'S SUCCESS DUE TO REAL MERII

HOT AIR WILL PUT BALLOON UPBUT WONT KEEP IT UP IT PAYS TO AD. VERTISE
But Success Is Impossible Un less There Is A Dollar-For-Dollar Value Behind The Article Advertised
This is an age of advertising, and everyone is familiar with the popular saying, eIt pays to advertise. Advertising is a business force. So potent is the charm cast by its spell it has been known to perform marveluos feats and to accomplish phenome. nal results. It cannot be truly said, however, that everyone who advertises succeeds, for unless full value un-
derlays the article advertised, the ad vertising would ultimately fall of its own weight. In this connection we must not forget the words of the immortal Lincoln, who said, "You can fool some of the people all of the ime, you can fool all of the people all of the time, but you cannot fool all of the people all of the time." So
if there is not behind every adverif there is not behind every advertisement a dollars and cents value to Queen Helena of Italy speak
the article advertised, no amount of the article advertised, no amount of four languages, including Rus advertising will stimulate the sale on sia point. This applies to every line of point. This applies to every line of firm can only succeed through honest advertising and fair dealing Hot air will put up a balloon buvit on't keep it there, So when the the market something over two years ago, they did so with the firm convic tion that they were offering to the people the best and purest product of its kind on the American market to-
day. They did not hesitate, therefore, to expend vast sums for advertising, because they knew that the more the people heard about Tanlac the more they would ached was immediate, and people everywhere were uick to recognize its genuine merit. Tanlac has never been advertised as a "cure all" or that it would perform unheard-of wonders. The adverasing has been ciean, straightforward figures constructive. Actual facts and mares have been stated and stated In a business-like way in a manne hat has commanded confidence in the conservative claims set forth. Underlying these claims there has been real value, not from a dollars and cents point alone; but from health as
well. And that's just where Tanlac has scored. And that's why it. is here to stay.
