

OPENING OF THE CAMPAIGN FOR MEMORIAL TO SOLDIERS

Anniversary of Smashing of Hindenburg Line Will See Start of Drive—Legislature Gave \$100,000.

Columbia Aug. 12.—On September 29th last year, South Carolina troops in the immortal Thirtieth (Old Hickory) Division smashed the theretofore impregnable Hindenburg line and hastened that which became inevitable when the United States entered the war against Germany. On November 11th the armistice was signed. This year, on September 29th, first anniversary of the smashing of the Hindenburg line, the campaign to raise a fund to erect a memorial to South Carolina soldiers and sailors who made the supreme sacrifice in the Great War for human liberty and for the preservation of civilization will open. It will close on November 11th, first anniversary of the signing of the armistice.

These dates with their significance for all Americans, and the first with particular significance for the people of this State, were decided upon by the South Carolina Memorial Commission, meeting in Columbia July 30th. The fund to be raised is \$40,000 to which will be added \$100,000 appropriated by the legislature at the last session, making half a million dollars for a fitting memorial to South Carolina heroes.

At the meeting of the memorial commission a petition from a number of physicians, asking that the plans for the form the memorial shall take, be changed and that instead of a temple a hospital be built, was received and carefully considered, but since the time under which the commission was created and which appropriated \$100,000 toward the memorial, expires and specifies the form of memorial, the commission was powerless to alter the plans as previously announced. It was decided to proceed with the campaign for funds being to the original plan.

The work of organization is now being completed. The campaign will be carried along the lines of the several Liberty Loan drives. Chairman will be appointed in each county. These will be asked to complete their county organizations of workers in time for the opening of the campaign. The quotas of the several counties will be announced in the near future.

FEDERAL GAME ACT CAUSES CONFLICT

The Federal legislative act has changed the season for shooting doves from September 16 to October 16, as the opening dates for sportsmen in this State, and thereby brought about a conflict with the State law, according to Wade Hampton Gibbs, State game warden. The South Carolina law was made to conform with the federal migratory bird treaty act by the 1919 general assembly of the State, but since that time United States agents have notified Mr. Gibbs that the open season under federal law is from October 16 to January 31, inclusive. This is a direct conflict with the old act of the government which was adopted

by South Carolina. Under the old act and the one adopted here the dates were September 16 to December 31, inclusive.

Mr. Gibbs has sent out notices to all game wardens telling them of the changed dates, but at the same time denying the effectiveness of the federal law in as much as South Carolina licenses have already been issued for the dates of September 16 to December 31. Mr. Gibbs states in his notice that all game wardens are advised to concede the right of the public to shoot doves between September 16 and January 31 regardless of the federal act. This, however, will be done at the hunters' own risk as United States agents may prosecute all who enter the field before October 16.

A letter has also been addressed to D. F. Houston, secretary of agriculture, by Mr. Gibbs calling attention to the fact that he has endeavored to cooperate with federal officials in all matters in the State and it is no fault of the game warden that the State and federal laws conflict. Mr. Gibbs in his letter says the matter of enforcement before October 16 will be entirely up to federal agents. Following is the letter sent Mr. Houston:

"Inclosed please find copy of a letter just dictated to R. V. Nelson, also copy of letter which is being sent from this office to all sheriffs and game wardens in South Carolina. "My cordial desire to cooperate with the federal department in migratory bird law enforcement has been in every way in my power. After an uphill fight we got our legislature to adopt the federal regulations as shown in the inclosed pamphlet, act of 1919, section 13, page 1. Last spring we were advised by Mr. Nelson of the contemplated change in the dove season in this State and we urged that we be authorized to enter it upon our hunting licenses, which constitute our contract with our sportsmen (see page

JOE DAVIS NEW PRESSING CLUB

I am better prepared now to do highclass cleaning, pressing and dyeing than ever before. My new club is located in the Harman Building in the rear of the court house grounds, where you will always find us ready to give you quick service.

HATS CLEANED.

I have special arrangements for this I am now making a specialty of cleaning Panama and hard straw hats kind of work and guarantee to please you. Bring your old hats to me and I will make them look like new. Call on Joseph Davis, 112 S. Third St., Columbia, S. C. Phone No. 150

TRANSFER NOTICE.

We want the public to know that we are now prepared to do your transfer business. We make regular trips to Columbia and other local points. Party trips a specialty. Your patronage solicited. Calls answered day and night. Phone Nos 118-25-151.

), but Mr. Nelson... position to authorize us... Therefore, our licenses... printed and we can not now... do anything to stop... from shooting doves on... September 16 to and including January 31, prox. The matter of the enforcement of this new provision will, therefore, be entirely up to the federal authorities, and under the circumstances we do not think it will be fair on their part to undertake to enforce this new provision unless they give the widest possible publicity to the matter throughout the entire State.

"In the interest of future cooperation, will it not be possible to have the federal regulations fixed for at least 12 months, in the spring of each year, so that such conflicts between the State laws and the federal laws may be avoided?"

"South Carolina's experience in this instance is going to make it much more difficult hereafter for me to secure the cooperation of our lawmakers.

PROTECT HOGS FROM LICE.

Clemson College, Aug. 12.—Feeding tests have recently been completed which have shown that there is a great loss of feed each year from allowing hogs in the feed lot to be lousy. This is pure carelessness, as lice can be easily controlled. Two-year feeding tests on various lots of pigs at the United States experiment station have shown that costs of gain on lousy pigs was a little over a cent per pound more than on those that were free from lice. This would amount to at least \$2.25 on each hog, as 225 is about the average weight that hogs obtained before being marketed.

Crude petroleum is the most satis-

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

Cardui

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at... Cardui cured her, and we sing its praises everywhere." We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. E-77

factory remedy for lice, according to the extension service animal husbandman. However, oil-drain from an automobile or machine oil mixed in the proportion of two parts of the oil to one part of kerosene will be found to kill lice satisfactorily and various stock dips will also control them.

There are a number of ways of administering treatment for lice. If there is a dipping vat, the hogs may be run through this. Sprinkling the hogs is also a good method. A very common method of control is to wrap a piece of burlap bag soaked in oil around a short post so that the hogs may rub on this and in that way get the oil over their bodies. There are many commercial oillers on the market which will serve the same purpose.

Growth.
To become like Christ is the only thing in the world worth caring for, the thing before which every ambition of man is folly and all lower achievements vain... Reflect the character of Christ and you will become like Christ.—Henry Drummond.

JOYFUL EATING

Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living.

WHERE YOU CAN GET IT!

Boys! There's a Bunch of 'Live Wires' Who Sell 'Green Flag' Motor Oil in This County

They're right "up-to-the-minute" in everything they do, and that's why they're agents for "GREEN FLAG" MOTOR OIL. I have been using "GREEN FLAG" MOTOR OIL for more than a year, and nothing else, and more than that, I'll drive ten miles out of my way if it's necessary, to get it. I found their advertising honest.

Now I'm doing some "honest advertising" for "GREEN FLAG" myself, by telling you boys where you can "get it"—

Forty Five Years of Success The astonishing Record of PERUNA

Not a cure-all, but a rational remedy for catarrh and all inflammation and congestion of the mucous membranes.

Catarrh attacks the mucous linings, in any organ, in any part of the body. It is not, as some imagine, confined to the nose and throat, although nasal catarrh is the most common form and afflicts many people.

Unchecked catarrh soon breaks down the tissue and destroys the organs or part. Evidence of the ravages of catarrh are all around us. Without desire to frighten anyone, we say: "Guard yourself against catarrh as you would against the direst plague. Fortify your system. Take Peruna."

INSPIRING WORDS FOR THE SICK FROM THOSE WHO KNOW.

A Good Medicine in the Family.
I had a bad case of Catarrh and could get no relief. Peruna cured me. It is the medicine. We often use it in the family and find it good.
MRS. GENTRY GATES, 2225 First Avenue, East Lake Station, Birmingham, Alabama.

FEELS LIKE A DIFFERENT PERSON.
Peruna has cured my stomach and I feel like a different person. I only took twelve bottles of Peruna and can eat anything without distress, something I have not done for fifteen years.
I recommend Peruna to everybody suffering with catarrh of the stomach.
1029 16th St., Columbus, Georgia.
J. J. THOMPSON.

FOR ALL FORMS OF CATARRH.
Peruna is indicated for all forms of catarrh or catarrhal inflammation and congestion of the mucous linings in any part or organ, such as nose, throat, bronchial tubes, lungs, stomach, bowels, kidneys, bladder, etc. It is fine for coughs, colds and effects of the grip and an excellent preventive remedy.

If you want health, insist upon having Dr. Hartman's World Famous Peruna Tonic.

LIME WILL HELP YOU DO THIS

Read the resolutions passed by the representatives of the Experiment Stations of the Southeastern States at their conference at Knoxville, Tenn., April 23-30, 1919.

- LIME NEEDS OF THE SOUTHEASTERN STATES.**—The Agreement is unanimous that the soils of the Southeastern States are seriously deficient in lime, so that liming is essential to their most profitable development and permanent improvement.
- FINESS OF GRINDING.**—The finer the limestone is ground, the greater is its immediate availability. Limestone ground to pass through a 20 mesh screen, all finer particles included, is recommended for the common application of two tons per acre.
- QUANTITY AND FREQUENCY OF APPLICATION.**—For general use we recommend an application of one to two tons of ground limestone per acre, or one-half that amount of burnt lime, once in a rotation of not more than five years.
- LIMING AND CROP ROTATION.**—Liming is most profitable in those portions in which legumes are prominent, but, over large areas in these States, especially on the heavier types of soil, liming is profitable for corn, small grains and grasses.
- LIME AND FERTILIZERS.**—With soils poor in potash and phosphate, liming gives best results only when supplemented by materials carrying these constituents.
