## **RELIGIOUS REVIVALS**

Dr. Talmage, in a Timely Discourse, Declares His Belief in Them.

Fermon Adapted from the Story of Simon and the Fishers-Greatest Obstacle to Revivals Is an Unconverted Ministry.

[Copyright, 1901, by Louis Klopsch, N. T.] Washington, March 24.

This discourse of Dr. Talmage is most pertinent at this time when a widespread effort for religious awakening is being made; text, Luke, verse 6: "They inclosed a great multitude of fishes and their net brake."

Simon and his comrades had experienced the night before what fishermen call "poor luck." Christ steps on board the fishing smack and tells the sailors to pull away from the beach and directs them again to sink the net. Sure mough, very soon the net is full of fishes, and the sailors begin to haul in. So large a school of fishes was taken that the hardy men began to look red in the face as they pull, and hardly have they begun to rejoice at their sucbeas when snap goes a threal of the net, and snap goes another thread, so there is danger not only of losing the fish, but of losing the net.

Without much care as to how much the boat tilts or how much water is splashed on deck the fishermen rush about, gathering up the broken meshes of the net. Out yonder there is a ship dancing on the wave, and they hail it "Ship aboy! Bear down this way!" The ship comes, and both boats, both fishing smacks, are filled with the floundering treasures.

"Ah," says some one, "how much better it would have been if they had staid on shore and fished with a hook and line and taken one at a time instead of having this great excitement and the boat almost upset and the net broken and having to call for help and retting sopping wet with the seal'

The church is the boat, the Gospel is the net, society is the sea, and a miration for that man who goes out with a book and line to fish. I admire the way he unwinds the reel and adjusts the bait and drops the hook in a like also a big boat and a large crew great multitude of souls brought-so to get help to draw it ashore, straining the net to the utmost until it breaks here and there, letting a few escape, eternal safety.

In other words, I believe in revivals. The great work of saving men began one day, and it will close with 40 or a hundred million people saved in 24 vivals. People are opposed to them if by the pressure of souls it does not get broken, then they take their own closed a great multitude of fishes, and the net brake."

It is sometimes opposed to revivals ing they have their sails up. But as what are the facts in the case? In all our churches the vast majority of the rection. useful people are those who are

It is sometimes said that during re-vivals of religion great multitudes of present temperature of plety, this land will never be enveloped with re-vivals. While the pews on one side children and young people are brought into the church, and they do not know the altar ory for mercy, the pulpits on the other side of the altar must what they are about. It has been my observation that the earlier people cry for mercy. Ministers quarreling. come into the kingdom of God the more useful they are. Robert Hall, the Ministers trying to pull each other down. Ministers struggling for eccle-siastical place. does all that mean?

years of age; Dr. Watts, whose hymns listed, and we want it done softly will be sung all down the ages, was imperceptibly, no excitement, one by one. You are a dry goods merchant on a large scale, and I am a merchant converted at nine years of age. Jonathan Edwards, perhaps the mightlest intellect that the American pulpit on a small scale, and I come to you ever produced, was converted at seven and want to buy 1,000 yards of cloth years of age, and that father' and Do you say: "Thank you. I'll soll you 1,000 yards of cloth, but I'll sell nother take an awful responsibility when they tell their child at sever you 20 yards to-day and 20 to-morrow years of age: "You are too young to and 20 the next day, and if it takes e a Christian," or "You are too young me six months I'll sell you the whole to connect yourself with the church.

That is a mistake as long as eternity. If during a revival two persons present themselves as candidates for the church and the one is ten years of age and the other is 40 years of age, I will have more confidence in the profession of religion of the one ten years of age than the one 40 years of age. Why? The one who professes at 40 years of

age has 40 years of impulse in the wrong direction to correct, and the child has only ten years in the wrong direction to correct. Four times ten are 40. Four times the religious prospeet for the lad that comes into the kingdom of God and into the church at ten years of age than the man at 40. I am very apt to look upon revivals

as connected with certain men who fostered them. People who in this day do not like revivals nevertheless have not words to express their admiration for the revivalists of the past. for they were revivalists-Jonathan Edwards, John Wesley," George Whitfield, Fletcher, Griffin, Davies, Os borne, Knapp, Nettleton, Moody and many others whose names come to my mind. The strength of their ingreat revival is a whole school brought in at one sweep of the net. I have ad-make me think they would not have had anything to do with that which was ephemeral. Oh, it is easy to talk against revivals!

A man said to Mr. Dawson: like your sermons very much, but quiet place on a still afternoon and here catches one and there one, but I the after meetings I despise. When the prayer meeting begins I always and a net a mile long and swift oars go up into the gallery and look down, and stout sails and a stiff breeze and a and I am disgusted." "Well," said Mr. Dawson, "the reason is you go great a multitude that you have got on the top of your neighbor's house and look down his chimney to exam ine his fire, and of course you get only smoke in your eyes. Why don't but bringing the great multitude into you come in the door and sit down and warm?"

Oh, I am afraid to say anything against revivals of religion or against with 3,000 people joining the church in anything that looks like them, be cause I think it may be a sin against the Holy Ghost, and you know the hours when nations shall be born in a Bible says that a sin against the Holy day. Having lately seen a beautiful trib te to Theodore O'Hars, author of the immortal poem, "The Biyouae of the Dead," and as O Hara was my personal friend and assistant in the Adjutant General's office of the Kentucky division, commanded by Major General Breckerridge, I take pleasurs in send ing you an extract from the article. with the full poem, which I have car, rird in my notebook eversinge the war. It is worthy of record that this son

of the south produced the one perfect advice of Judge Wallace the Demo-oratic House abandoned the hall of the world how known and that the south world hes known and that the south House of Representatives and went has been absolutely unmindful of this fact. The first of these statements is complished by remaining and it was proven by the fact that without any advertisement or excloitations, the wonderful words have, in the fifty years sinde they were witten, permeated the whole world, and been laid clear majority as well as a quorum, the hold on by English speaking people everywhere, to c.lcbrate their honored dead who passed away in battle. Upon brimcan Battlefields, the resting place of Eoglith Berocs is marked by a great monument; on which shines, O Hara's matchless words, and yet Esgland 'did not know from whom she borrowed when she wrote them:

Perhaps the anonymous character of he poem was a blessing, since it doubtful if the Federal governm nt of the United States would have used the lines in such lavish fashion in im mortalizing the dead of the Union Army, had they been record zed as the product of the genius of a soldier and ficer of the other side, In any case, they did not know, and, every national cemetery in America has gained there by, since they are not only the most appropriate but the only appropriate

The negro secretary of State, Hayne, had in the meantime refused to grant certificates of election to the Demo-

Laurens. The Republicans gathered in the State capitol the day the General Assembly was called to order and elected E W. Mackey, of Charleston, Speaker. The Democrats in a hody, headed by the Eigefield and Laurence delegations marched to the State capitut were refused admission. tol. Whereupon John C. Sheppard, of Edgefield, delivered a protest. The capitol building was in charge of Federal troops commanded by Gen. Ruger. The Democrats then marched back to

court house and behind the stores on Main street. This building is historic in many ways, having been built of brick still hot from the smoking ruins of Columbia in 1865. In this hall the Democratic members, constituting a quorum (though not a mejority) of the General Assembly, proceeded to elect the ticket nominated in caucus the night before. The Senate, which was concided to be Republican, was notified of the organization at Carolina hall, but took no notice of the body and recognized the Republican House,

which was in session at the State capi From this the Democratic House brought action in the State supreme court to mandamus Hayne, the secre tary of State, to issue election certifi cates to the Democrats from Edgefield and Laurens. The Democrats won their point. Then at the suggestion of the State Democratic executive committee the Wallace House decided to get control of the hall of the House of Representatives.

#### Gen. Ruger agreed to interpose no martial interference if the Democra's would conduct themselves peaceably. However, although admission to the

building was obtained, it was necessary to pass the portals of the legisla tive hall. Strategy and force were both

The Radical House was to assemble at noon on Thursday. The Democrats, singly and by back streets, made their way to the State capitol and obtained admission. The Radicals were not ex pecting this movement. However, the negro sergeant at-arms, a burly fellow, attempted to prevent entrance at the swinging doors of green baize. Col. James L. Oir, of Anderson, thrust

him to one side. In the scuffle Mr. John S. Verner scrambled through the legs of the combatants and snatched the door open. The Democrats then filed in and Gen. Wallace took the speaker's

Gov. Simpson was elected obief jus tice of the State supreme court and Jeter, of Union, became Lieutenant Governor. Gen. Wallace, the presiding officer of the House, was also from Union. When Gen. Wallace the presiding officer of the House, was elevated to the circuit bench in 1877, John C. Sheppard, after an interesting contest, with Jas. L. Orr, became Speaker of the House. Mr. Sheppard afterwards the Carolina hall, which is now stand-ing, in the rear of Richland County married Gen. Wallase's daughter.

None but a man of highest attainments. delicate tact, supreme courage and indomitable will could have been Speaker of the Democratic House of 1876 and such a man W. H. Wallace is declared by all who served with him.
