## TEACHER IS TREED

Pennsylvania Schoolma'm in Lonely House Wigwagged a Passing Teamster.

## **Bruin** on first floor

Girl While Preparing for Opening of the Term Accidentally Locked Up With Brute, Which Had Been For aging Among Dinner Palls.

Galeton, Pa.-A teamster driving along the lonely Kettle Creek road the other day had his attention attracted by the frantic waving of a pair of human arms that were thrust out of the attic window of a little schoolhouse which sets back from the road near Oleons, and in one of the most picturesque but isolated sections of all that rather wild part of Potter county. Stopping his horses so that the rattle of the harness chains was stilled, his ears were greeted by pitiful calls for help, in an unmistakably feminine voice, and then, looking sharply at the little opening at the gable end of the schoolhouse, he could distinguish the face of a woman back in the shadow of the building, for the window was not large enough to permit bother her head and arms to protrude at the same time.

Holding a conversation from his position on the ground, the teamster was affrightedly informed that there was a bear on the first floor of the schoolhouse and the woman advised him to run for a gun before he attempted to open the door.

The woman was Miss Crissie Roper. the appointed teacher at the Oleona school, and in the forenoon she had gone to the schoolhouse alone to arrange some things preparatory to the opening of the term and to get ac-

quainted with the place. She expect ed to find some carpenters at work ing not a little commens regarding its naking repairs upon the interior of probable population

of the building was unlocked and ajar | truly great dictators of styles there were no workmen about, they having, as she subsequently learned gone to another schoolhouse down the pike several miles to attend to some work, expecting to return to the Oieona school in the afternoon. The men had left their dinner pails there.

When Miss Roper entered the room and found it deserted she decided that she would turn her attention to sweeping the floor, and swung the door shut in order to get the broom which she thought must be behind it. The door clanged shut and fast, for the spring lock had made her a prisoner without any key with which to unlock it.

Realizing her predicament, the young woman set about to find a way by which she might release herself from her lonely prison. The only way she could accomplish this, as she saw, was to take a small ladder with which the workmen had reached the attic, and which still stood in that position, with its upper rung reaching the opening into the dark apartment, where extra books and other accouterments were kept, and which looked to the timid new teacher as though it was a very likely place for bats to roost, and if she could move it to one of the windows it would afford her an opportunity to get down to the ground.

Just then she heard a sound in a little room off from the main apartment, and at the next instant she was over whelmed with fear at the sight of a full grown black bear that came shufevidently been attracted into the and, finding the workmen's dinner buckets, had been indulging his appetite in cake and other toothsome del-

lcacies. But the sight of the young woman and the piercing shrick she uttered as she beheld the animal and recognized that she was locked in the building with him rather startled Bruin, and he retired to the other apartment. In the meantime Miss Roper, seeing a way of escape up the ladder into the attic. climbed up there, bats or not bats, and once up on the rickety floor she drew the ladder up to her, so the bear would have no chance of getting her. She struggled with the little attic window until she got it open, and then began her vigil for help.

Sagging Wire Saves Baby.

Conshohocken, Pa.-Because chick en wire on the premises of Patrick Harkins sagged William Rorick believes his baby's life was saved. The child leaned from a third-story window to watch Harkins' chickens and pitched out. In falling the child struck the top of the wire fence, and because of its sagging it acted as a net, and aside from bruises and a pair of black eyes the baby was not hurt.

Dies of Rattlesnake Bite. St. Joseph, Mo.-Mrs. Elizabeth Schmelebeck, 35 years old, died as the result of a bite of a rattlesnake, which attacked ber in her garden.

A SPORT'S COAT

This useful coat might well be made in tweed or rough serge. It has the fling out toward her. The animal had upper part set to the basque under waist-band, which is of material late in the winter can now use her schoolroom through the open door, cut the reverse way, as also are the cloth gaiters and be very much in cuffs and collar. The cap is of the same material as ion, and their rivals are pearl gray.

Materials required: 2 yards 48 with all kinds of gowns that are short THE RIGHTEOUS "YEA YEAS"

inches wide.

Patterns of Irish Lace Are Made Into Pretty Yokes and Collars.

Especially lovely are the sheer laces -the filmy, cobwebby weaves which spell many hours-days and years even-of patient, painstaking work. Does a woman possess several pieces of rare needle point, rose point or

Brussels lace so much the better, for she will find it useful indeed. And the heavier laces, too-the always lovely filet, the fascinating Venise, creamy of tone and lovely of design, and the real valenciennes laces as well as the duchesse and Bruges.

This year there are new patterns in blouse from plainness into smartness. ful and usually very becoming.

LACES TO BE VERY POPULAR | Round collars there are too, some with cuffs and some without

Little vokes and chemisettes of Irish lace are most useful in mademoiselle's accessory box for they are very practical indeed. They may be worn with many gowns or blouses, may be washed quite frequently and do not object to the soap and water treatment

A Good Hint.

In an emergency, where one has to evolve a "fancy" costume with little time and apparently less material. something very lovely can be made of several of the beautiful evening scarfs, either the spangled ones or plain ones. Nearly every woman will possess a scarf of one kind or another and these can be borrowed, as no damage need Irish lace-baby Irish and the crochet be done to them. Over a white dress laces in the heavier patterns. What hang two or more of the silver spanwith the vogue for collars and little | gled ones, so that they fall from the yokes the clever Irish have kept pace shoulders down as far as possible on with fashions and made laces in many either side. Then wind others about new ways. In addition to the always the hips and around the head, crossuseful stock collars and cuffs there are ing a piece over the forehead and an sailor collars which make it but an other over the chin and lower part of easy matter to transform gown or the face. The eastern effect is grace

Linton, Ind .- E. B. Martindale's estate, incorporated, is made defendant in a suit for damages brought by James B. Dillon, on a charge that is not of the ordinary. Clayton Baker, who is employed on the Martindale farm of 1,200 acres, located southeast of Linton, took a mule to Dillon, who
