HOUSEHOLD HINTS.

To remove paint splashed upon win-dow-panes, use a hot solution of soda and soft flannel.

AFTER taking up a carpet, sprinkle the floor with very dilute carbolic acid before sweeping.

Ir you have been picking or handling acid fruits, and have stained your hands, wash them in clear water; wipe them lightly, and, while they are yet moist, strike a match and shut your hands around it so as to catch the smoke, and the stain will disappear.

To STOP BLEEDING .- It is said that bleeding from a wound on man or beast may be stopped by a mixture of wheat flour and common salt, in equal parts, bound on with a cloth. If the bleeding be profuse, use a large quantity, say from one to three pints. It may be left on for hours, or even days, if necessary.

APPLE Snow .- Roast eight tart apake one-half pound of the pulp, and, when cold, mix with it one-half pound of finely-sifted loaf sugar, and the thin rind of a small lemon; beat the whites of three eggs, whisk all the ingredients together to a fine froth, and pile on a place dish. A little recovered to the control of the c glass dish. A little sponge cake soaked in fruit syrup and laid on the bottom of the dish is an improvement.

CHARLOTTE RUSSE .-- Line a plain mold with sponge cake cut to fit exactly, brush over the inside, very lightly, with the white of an egg, and put it upon ice. Beat up one pint of rich cream with one onuce of isinglass (previously dissolved in sufficient water to cover it). Sweeten and flavor to suit the taste. Pour this into the mold, cover it with a peice of sponge cake cut exactly the size. Ice it, and turn it out very carefully.

ICED CAKE. - Mix thoroughly one-half pound of flour, one-half pound ground rice, currants, one-quarter pound sugar, one quarter ounce mace and cloves, some mixed peel, a few bitter almonds pounded, some sweet almonds split, one teaspoonful of curbonate of soda, melt one half pound fresh butter in pint of warm milk, and the yelks and whites of four eggs beaten separately; put this by degrees on the dry ingredients, beat ell; put into a buttered mold, and bake.

CHOCOBATE CREAM. - Scrape two *quares of chocolate and put them into a stewpan with two ounces of sugar, a pint of milk, and half a pint of cream let it boil until a third of it is consumed, and when half cold beat up the whole through a seive, and then put the small cups or dishes in which the cream is to be served into a pan con-taining enough boiling water to reach above half way up the cream. Cover the pan, and lay fire on the lid; boil it till done, and serve cold.

Onions (TO PICKLE).—Choose small button onions; as they are peeled throw them into milk and water, drain them from this when they are all done, put them into a jar and pour a strong brine of salt and water and a small piece of alum (boiling hot) over them, cover close, and set them aside till the next day; drain and dry on a cloth, put them into cold distilled vinegar with a tew blades of broised ginger, some whole papper and a little mace, keep always covered with vinegar, cork the jar close, and put in a dry, cold place.

Remedy for Crove, pirits of tur-pentine is a sovereign regardly for croup. Saturate a piece of flamfel with it, and place it on the throat and chest, and send for your family physician. If the case be very urgent, and the child in great distress, and the distance to the doctor's residence very great, drop three drops of the turpentine on a lump of sugar and give it internally. Or a good emetic of blood-root, or lobelia, or both combined, should be given. Every family should keep a bottle of spirits of turpentine in the house.

The bloom, or glaze, or facing of green and black ten is generally artificial. In the case of green ten it is ordinarily a mixture of Prussian blue, tumeric, and sulphate of mime, or China clay; and in that of black tea it is not unfrequently a coating of black lead. the English market is notoriously subject to these adulterations; and it seems that this arises entirely from our own fancy, and not from any desire on the part of the Chinese to pursue such a practice. The adulteration is easily discovered by treating the tea with cold water, and then straining through muslin, and allowing the fine powder to subside.

To PRESERVE MILK .- Provide bottles, which must be perfectly clean, sweet and dry. Put the milk warm from the cov into these bottles, and, as they are fined, immediately cork them up and fasten the cork with wire. Then spread a little straw on the bottom of a boiler, a little straw on the bottom of a boiler, on which place the bottles, with straw between them. Fill it up with cold water. Heat the water, and as soon as it begins to boil draw the fire and let the whole gradually cool. When quite cool take out the bottles, pack them away in sawdust and put them in a cool when but where the milk will not place, but where the milk will not freeze. Milk preserved in this way will keep perfectly sweet for years.

To Chystallize Flowers. - Construct To URYSTALLIZE FLOWERS.—Construct some baskets of fancy form with pliable copper wire, and wrap them with gauze; into these tie to the bottom violets, ferns, geranium leaves—in fact, any flowers but full-blown roses—and with them in a solution of alam—one sink them in a solution of alum—one pound to a gallon of water—after the solution has cooled. The colors will be preserved in their original beauty faster than from a hot solution. When you have a light covering of crystals that completely cover the articles remove completely cover the articles remove the basket carefully and allow it to drip for twelve hours. These baskets make a beautiful parlor ornament, and for a long time preserve the freshness of the

HANGING BASKETS .- A charming and inexpensive home adornment may be raide by using a basket constructed in the manner given above or by procuring a small wire basket and lining it with colored tissue-paper, of various colors, nicely fringed; take a twe-pound oystor-can, put a sweet potato in it, and ill it with water; place the can in the center of the basket, and procure from any florist some gay southern moss and place in the edge of the basket. In a short time the sweet-potato will send out a number of vines, which may be

guided by strings around picture frames, twining through mantel ornaments over the cloak, adding beauty and cheerfulness to the room. It can be placed in any part of the room, as it is not necessary that the sun should shine on it, and the vine will growall winter in

CURE FOR DRUNKENNESS.—There is a curious prescription in England for the cure of drunkenness, by which thou-sands are said to have been assisted in recovering themselves. The recipe came into notoriety through the efforts of John Vine Hall, father of Rev. New-man Hall and Captain Vine Hall, commander of the Great Eastern steamship. He had fallen into such habitual drunkenness that his utmost efforts to regain himself proved unavailing. At length he sought the advice of an eminent physician, who gave him a prescription which he followed faithfully for several months, and at the end of that time he lost all desire for liquors, although he had for many years been led captive by a most debasing habit. The recipe, which he afterward published, and by which so many have been assisted to reform, is as follows: "Sulphate of iron, 5 grains; magnesia, 10 grains; peppermint water, 11 grains; spirit of nutmeg, one drachm—to be taken twice a day." This preparation acts as a tonic and stimulant, and so partly supplies the place of the accustomed liquor, and prevents that absolute physical and months, and at the end of that time he and prevents that absolute physical and moral prostration that follows a sudden breaking off from the use of stimulating

Arab Horse Maxims.

drinks.

Whose raiseth and traineth a horse for the Lord is counted in the number of those who give alms day and night, in private as well as public. He will find his reward. All his sins will be forgiven him, and never will any fear come over him and dishonor his heart.

Let your colt be domesticated and live with you from his tenderest ago, and when a horse he will be simple, docile, faithful and inured to hardship and fatigue.

If you have your horse to serve you

on the day of trial, if you desire him then to be a horse of truth, make him sober, accustomed to hard work and inaccessible to fear.

Do not beat your horses, nor speak to them in a loud tone of voice; do not be angry with them, but kindly reprove their faults; they will do better thereafter, for they understand the language of man and its meaning.

If you have a long day's journey before you, spars your horse at the state.

fore you, spare your horse at the start; let him frequently walk to recover his wind. Continue this until he has sweated and dried three times, and you may ask him whatever you please, he will not leave you in difficulty.

-Old man Wheeler of Minnesota wants a divorce from his wife. She sent him down the cellar one night last week after a bottle of yeast. He got it and was trudging along up stairs, think-ing of nothing in particular, when the bottle exploded, scaring Wheeler so that he fell with one great whoop down in a soap barrel under the stairs. When they pulled him out he pranced around yelling "Cuss a wife; cuss yeast; cuss the whole of ye!" And the lawyers say he has got a good case.

VINEGAR BIFTERS.-Dr. J. Walker, regular practicing physician of Cali-fornia, has conferred a priceless boon upon mankind by the introduction of a "Bitters" compounded from herbs exclusively, which may be truly said to be superse ing all others, and is becoming a bitter dose indeed for the charlatans and quacks, on account of its immense sale and universal popularity. Not only are these Vinegar Bitters, as he calls them, an invaluable tonic and alterative, but they are acknowledged as a standard Medicine, and the astonishing rapidity with

have become a recognized remedy," and properly so.

Don't Hack, Hack, Cough, Cough!

Cough is a symptom by which various dis cased conditions of the throat, bronchial tube- and lungs manifest themselves. But whether it arises from the irritation produced in the throat and larynx by taking cold, from an attack of bronchitis, from incipient consumption, or from various other causes, nothing will allay it more speedily or cure it more permanently than Dr. Pierce's Golden Medical Discovery. It does not matter whether it be a rocent attack, or a lingering cough, the Discovery is in either case equally well adapte' for its relief and permanent cure. In fact, it will cure a cough in one-half the time necessary to cure it with any other medicine, and it does it, not by drying it up, but by removing the cause, subdning the irritation, and healing the affected parts. No time should be lost in commencing the use of a proper medicine for the relief of a cough, for unless this course is pursued, serious and dangerous disease of the lungs is liable to result. Golden Medical Discovery is sold by all dealers in medicines. Don't Hack, Hack, Cough, Cough!

By neglecting the precaution which common sense dictates, many fall victims to their own imprudence. We have seen the young and beautiful girl, the hope and pride of her parents—her cheek Jushed with anticipation, and her eyes beaming with the gay dreams of life—we have seen all this changed for a shroud by neglecting a common cold which had settled upon her lungs. It might have easily been cured if it had been attended to in time. Now, when your lungs are first diseased with the incipient stages of consumption, you should use Allen's Lung Balsam, which will relieve them without fail.

For sale by all medicine dealers.

Premature loss of the hair, which is so common now-a-days, may be entirely prevented by the use of Burnett's Cocoaine. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest its decay, and to promote a healthy and vigorous growth. It is at the same time unrivalled as a dressing for the hair.

THERE are more than one thousand different kinds of pills in the United States. Some of them are worthless and injurious, others are good and beneficial. Old Dr. Parsons invented the best anti-bilious pill we over saw or heard of. They are now sold under the name of Parsons Purgative Pills.

WE understand that the whooping we inderstand that the wholping cough is quite prevalent in the towns around us; but that no cases have proved fatal. Some families use nothing but Johnson's Anodyne Liniment. Our Doctor, however, says a little ipicae, to produce vemiting, would be an advantago.

Go to Riverside Water Cure, Hamilton, Ill.

The Consumptives or sufferer from any outmonary disease will find Tutt's Expectorant the most general restorative ever offered an invalid,

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the naive herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIT-TERS?" Our answer is, that they remove the cause of disease, and the patient re-covers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator at perfect Renovator and invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR RITTERS in healing the sick of every disease man is heir to. They are a genth Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilions Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diuretic Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilions.

Grateful Thousands proclaim Vin-EGAR BITTERS the most wonderful in-vigorant that ever sustained the sinking

No Person can take these Bitters according to directions, and remain leng unwell, provided their bones are not destroyed by mineral prison or other means, and vital organs wasted beyond repair

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkan-sas, Red, Colorado, Brazos, Rio Grando, Pearl, Alabama, Mobile, Savannah, Ro-anoke, James, and many others, with their vast tributaries, throughout our entire country during the Suamer and Autumn, and remarkably so during sea-sons of unusual heat and dryness, are invariably accompanied by extensivede-augements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the darkcolored viscid matter with which the sowels are leaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Head-ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitatation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertise-

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, atc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rhenmatism, Gout, Bilions, Remit-tent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons en-gaged in Paints and Minerals, such as

gaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Soro Eyes, Erysipelas, Lich, Scurfs, Discolorations of the Skin, Humora and Diseases of the Skin of whatever asmoor nature, are literally due un and carried or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, burking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthehminities will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of wo-manhood, or the turn of life, these Tonio Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Soies; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system

will follow.
