THE GOLD STANDARD. - As & Democrat and a respecter of the constitution of these United States of America, we must confess to a fearfully and wouderfully tired feeling when we mote that the leaders of the Democratic party profess to believe and publicly announce that they regard the gold standard as irrevocably fixed, and to be hereafter regarded as the only monetary standard of the country If these people are honest in this declaration, which we do not believe, then we say elect Roosevelt and Fairbanks. What is political expediency? It is in this case nothing more party for the purpose of possibly capturing enough doubtful States to land Mr. Parker in the White House. This is fairly plain talk we think. We could perhaps make it plainer, but we say here and now that when the Democratic party cuts loose from its question and accepts as final the this or that site, the question single stundard as the only measure of value, we announce oursolves as having lost all respect now, that with the expenditure cotton that will make a full crop will continue to affiliate with it. most, would make it as comfort: -
