

ARE URGED TO HOLD

Such Are the Suggestions to Cotton Growers in the South... PRESIDENT JORDAN'S ADDRESS... Head Growers' Association Advise...

ARE URGED TO HOLD

Macon, Special.—Harvie Jordan, of Monticello, Ga., president of the Southern Cotton Growers' Protective Association, has issued an address to the cotton producers of the South...

Danger of a Lynching.

A special from Columbia Sunday night says: According to telegrams received by Governor Haywood there is danger of a lynching in Saluda, but at present communication is cut off at that place...

Secretary Hay's Brother Dead.

Washington, Special.—Secretary of State Hay has received a dispatch announcing the death of his brother, Major Leonard Hay, U. S. A., retired, in the seventieth year of his age...

Died of Apoplexy.

Special.—While seated at a dinner at the home of Alexander W. Graham Bowles...

Trust magnates are said to be afraid that the President's immense plurality...

The popular plurality for President Roosevelt is now estimated at more than 100,000. It is believed that the trusts must go to the wall...

ELECTIONS IN THE STATES

The Candidates and Measures Voted On And the Officers Elected... Nine national political conventions were held this year, and also candidates for President and Vice-President...

THE TERMS OF THIRTY UNITED STATES SENATORS EXPIRE MARCH 4 NEXT.

Seven of the vacancies have already been filled and the Legislatures of twenty-three States elected November 8 will fill all the other twenty-three. Members of the House are elected for two years...

South Carolina enjoys the distinction of having only one ticket in the field. All the other States had from four to six, Illinois leading with seven. There were three Republican tickets in Delaware, but only one in Virginia...

The Republicans in Wisconsin had a choice between two tickets for State officers, the "Stalwarts" having decided to keep up their fight against La Follette. The electors on both tickets, however, are identical.

The Democrats in the People's party, or Populists, fused on the State ticket in Kansas and Nebraska, but in both States the People's party named separate Presidential electors. In Nevada the Democrats and one wing of the Silver party divided the minor State offices...

The following are the national tickets nominated by the different parties: Republican—President, Theodore Roosevelt, New York; Vice-President, Charles W. Fairbanks, Indiana...

GOVERNORS ELECTED.

The following Governors of States were elected: Colorado, James H. Peabody (Rep.); Connecticut, Henry Roberts (Rep.); Delaware, Preston Lea (Rep.); Florida, Napoleon B. Broward (Dem.); Idaho, Frank R. Gooding (Rep.); Illinois, Charles S. Deneen (Rep.); Indiana, J. Frank Hanly (Rep.); Kansas, Edward W. Hoch (Rep.); Massachusetts, William L. Douglas (Dem.); Michigan, Fred M. Warner (Rep.); Minnesota, John A. Nelson (Dem.); Missouri, Joseph W. Folk (Dem.); Montana, J. K. Toole (Dem.); Nebraska, John H. Mickey (Rep.); New Hampshire, John McLaughlin (Rep.); New Jersey, Edward C. Stokes (Rep.); New York, Frank W. Higgins (Rep.); North Carolina, Robert D. Glenn (Dem.); North Dakota, E. Y. Searles (Rep.); Rhode Island, G. H. Utter (Rep.); South Carolina, D. C. Heyward (Dem.); South Dakota, S. H. Elrod (Rep.); Tennessee, James B. Fraser (Dem.); Utah, John C. Cutler (Rep.); Texas, S. W. T. Lanham (Dem.); Washington, Albert E. Meam (Rep.); Virginia, William E. Dawson (Rep.); Wisconsin, Robert M. La Follette (Rep.); Wyoming, Bryant B. Brooks (Rep.).

Minor Mentions.

If our sins are behind his back it is certain we cannot get to them and see His face at the same time.

If you can bind your Bible within its covers you might as well bury it.

Kaiser Wilhelm, of Germany, cabled congratulations to President Roosevelt on his election.

Trust magnates are said to be afraid that the President's immense plurality may make him less conservative in dealing with them.

The popular plurality for President Roosevelt is now estimated at more than 100,000.

It is believed that the trusts must go to the wall.

A state-temperance convention is being held at Washington, D. C., and should have a whole line of delegates from the Japanese.

The Japanese are seeking in London a Russo-Japanese arbitration.

garrison continues to hope there is much to be result of the Presidential election in the United States.

KUROKI IS KILLED

Japanese General Ends His Life In The Field of Carriage... RUMORS AT LAST ARE CONFIRMED... One of the Three Chief Japanese Commanders in Manchuria was Struck in the Breast by a Splinter of a Shell and Died at Liao Yang Oct. 4.—The Body Sent to Japan—Fortifications of Both Armies Near Mukden Now so Strong As To Defy Attack.

Moscow, By Cable.—Nemirovich Danchenko, the well-known Russian war correspondent of the Associated Press, telegraphing from Mukden under Sunday's date, says the reports of the death of General Kuroki are confirmed. According to his version, the splinter of a shell struck General Kuroki, tearing out a portion of his heart. He died October 4 at Liao Yang, and his body was sent to Japan. A rumor persistently circulated that a kinsman of the Mikado, Siasonal, literally, "Third Little Prince," has been appointed to succeed General Kuroki, but the actual command of the army has been entrusted to General Nodzu, who is reviewing operations.

"For the last five weeks," says Danchenko, "we have practically not advanced at any point on the whole southwestern front even a few versts further than we stood on October 5. On the contrary, we at several places have been obliged to retire several versts, but the present lines of defense must be considered permanent, in view of the strong fortifications constructed. The Japanese positions at several points are only 300 paces distant from ours and must be considered to be definitely occupied by the enemy.

"The latter's fortifications are acknowledged by all competent persons to be skillfully constructed. Their trenches in many places are so carefully concealed as not to be noticeable a short distance away, the earth removed being carefully thrown in front of the trenches. The general position causes a great tension on both sides. "Alarming news has been received from Port Arthur, but the absence of reports during the last few days, makes it evident that the movement of one of the other Russian armies will be dependent upon the course of events there.

Worse Than McCus Case.

Auburn, Cal., Special.—Adolf Weber, has been placed under arrest, charged with the murder of his parents, sister and young brother last Thursday night and with having set the family residence on fire afterwards to conceal the crime. Weber took the arrest coolly. The arrest took place immediately after he left the witness stand, and after he had reluctantly answered the questions asked him by Coroner Shepard, the district attorney and several of the jurors.

The latest theory in the Weber murder case is that the murderer shot the father first; then, as the sister appeared in the hall, he shot her; and then the mother seeing what had been done, screamed and started for him, when he shot her. She continued on across the room, and raising her left hand, took down the telephone receiver to call for help, at which time she received the second shot, which penetrated the body just under the left arm. The child being the only one left, the murderer struck him over the head and felled him. The operator at the central telephone office says that the line at the Weber residence showed "busy" at about half hour before the fire was discovered.

Adolphus Weber, in jail, had nothing to say beyond that he had a good night's rest. No effort has been made to get the young man out on a writ by his attorney.

Six Held For Murder.

Wrightsville, Ga., Special.—The coroner's inquest over the body of Clayton L. Williams, a young merchant of Spann, Johnson county, who was found dead in the road a few days ago, was concluded here. The jury recommended that four white men and two white women be held for the murder. The defendants are Rufus Price, Lottin Utlow, Arthur Morgan, Walter Walker, Mrs. Lizzie Egan and Mrs. Belle Williams. Some of the defendants are related to some of the best families of Laurens and Johnson counties, and a great crowd assembled to hear the evidence at the inquest.

\$30,000 Fire at Savannah.

Savannah, Ga., Nov. 18 (Special).—Fire in the receiving warehouse of the Seaboard Air Line Railroad did about \$30,000 damage. The entire fire department of the city was called out, and in addition two tugs assisted in fighting the flames. Two firemen were hurt, neither seriously, however. The stores burned consisted chiefly of grain and general merchandise.

Archbishop Chapelle Arrives.

Washington, Special.—Mgr. Chapelle, archbishop of New Orleans, arrived in Washington Saturday night from a two months' stay in Europe, during which time he had several audiences with the Pope. He said mass at St. Patrick's early this morning and later spent a portion of the day at the Catholic University. Archbishop Chapelle called on President Roosevelt and delivered to him a message of good will from Pope Pius X. He will leave here for New Orleans.

PALMETTO AFFAIRS

Many Newswy News Gathered From all Sections... General Cotton Market... MIDDLING... Good middling... 9 1/2... Strict middling... 9 1/2... MIDDLING... 9 1/2... Charlotte Cotton Market... These figures represent prices paid to wagons: Good middling... 9 1/2... Strict middling... 9 1/2... MIDDLING... 9 1/2... Cotton Growers Meet... Pickens, Special.—Pickens county cotton growers met here on Monday and elected Messrs. J. T. Odell and J. W. Freeman as delegates to the State meeting. The following resolutions were adopted: Resolved, That it is the opinion of the Pickens County Cotton Growers' convention, That the most practical way to market our cotton is to avoid the disastrous rush upon the market during harvest times by delivering the cotton direct from the gins to the warehouses where those who need to do so may have such advances made at low rates of interest as their immediate necessities may require...

It is a circular letter to observers on the same subject, Prof. Moore says: "I hope the time will come when it will be possible to forecast the weather for coming seasons, to specify in what respect the coming month or season will conform to or depart from what we expect that is common to the month or season, but that they are not yet arrived, and I believe that you will be best serving the public interests when, without indulging in personalities or mentioning names, you teach the community you serve the limitations of weather forecasting and warn it against impostors. Your public press should, and doubtless will co-operate with us in this endeavor." J. W. BAUER, Section Director.

PROMINENT PEOPLE.

General Kuropatkin's salary is \$100,000 a year. General Joseph Wheeler thinks of going to Manchuria as a spectator of the war. Mr. Balfour, the English Premier, is quite a rich man, having an income of about \$350,000. The King of Italy possesses a collection of postal stamps which is said to be worth \$500,000. The Empress of Japan not only smokes, but uses a silver pipe with a stem ten inches long. Lady Marjorie Bruce, after a visit to this country, says American men are the most kind and courteous in the world. At one time King Peter of Serbia was a red-hot Socialist. That was while he was living a comparatively obscure life in France. Colonel W. F. Switzer, the veteran editor and Missouri historian, has just completed a list of the 114 counties of that State showing the origin of all their names. Ex-Governor Alonso Garcelon, of Maine, hale and hearty at ninety-one, has been traveling about to county fairs this fall and everywhere is received with marks of profound respect and affection. Rev. Dr. John Watson (Jan Maciar), who has been minister of the Sefton Park Presbyterian Church, Liverpool, for more than twenty-five years, has announced his intended retirement from the ministry of that church next September. Ex-Governor F. S. Black, of New York, having become convinced of the "innocence of Caleb Powers, three times convicted and now under sentence of death for the assassination of Governor Goebel, will go to Kentucky to aid in the fight to save Powers.

WORLD'S FAIR.

Geronimo, the famous Apache chief, is now at the Fair. The United States Bureau of Forestry has a fine display. A large captive balloon is now making many ascensions every day at the Fair. One hundred and fifty jirrikishas are in use at the Fair to carry visitors over the grounds. There are 103 varieties of apples displayed in the Indiana exhibit in the Palace of Horticulture. Two 750-candle power search lights are operated on the two towers of the Philippine Weather Bureau. The Alaskan hide exhibit includes raw and dressed hides of every furbearing animal in that country. One of the great Territories seeking admission to the Union, New Mexico, is very much in evidence at the World's Fair. Many visitors are attracted by the big waterfall in the Alaska section of the Palace of Forestry, Fish and Game. Organ recitals by prominent organists of the country are given daily on the largest organ in the world in Festival Hall. Exhibitions of the wonderful properties of the X-rays are given daily in the German section of the Palace of Education. Three typewriters especially made for exhibition purposes, and valued at \$150 each, are shown in the Palace of Liberal Arts. A map of America and the Philippine Islands embroidered on Just cloth is shown in the educational building on the Philippine reservation. To the sportsman, the most fascinating exhibit in the great Belgian national building at the Fair is the collection of House-Lemone gun barrels.

The Beanstalk Eucalyptus.

A tree which grows nearly twenty feet in a year and a half has just gone from the experimental station in Santa Monica Canon to the World's Fair to show what California can do when in a hurry for a place in the shade. It holds the championship long-distance tree springing record of the United States. It is a variety of eucalyptus. A small grove of these trees was planted on a shaggy cliff back of the experimental station, where it seemed that no tree would grow at all. But the rate at which they have shot up under skillful attention almost staggers belief. When this particular tree was about a year and a half old it measured four inches in diameter. They had to pull it up for fear it would break the Santa Monica speed ordinance. In order to get it safely to the fair the whole tree was carefully packed in mosses and soaked cloths.

THINGS WORTH KNOWING

The last Federal census noted 20,000,000 workers... In England the annual consumption of Southern fruit amounts to fifteen pounds per head. In Germany it averages not quite three pounds per head. Jane Cheesman, aged ninety-nine, who died recently in Somerset, England, had never spent a night out of the cottage in which she was born and died. Football and many other outdoor games are played by the blind, certain changes being made so that in each game the sense of hearing takes the place of sight. The average passengers haul on steam railways has increased from twenty-three to twenty-seven miles since electrical lines have been competing for suburban business. India was in possession of a steel secret once, which is lost now. This was the making with gold of steel blades in such a manner that the strength of the blades was not impaired nor its temper spoiled. Australia has no orphan asylums. Every child who is not supported by parents becomes a ward of the State and is paid a pension for support and placed in a private family, where board and clothes are provided until the fourteenth birthday. Chinese styles come up from the south, Shanghai being the Paris that sets the fashions for all people save the court Manchus. Just now the Worth and Doucet of Shanghai have trimmed the baggy, loose-sleeved Chinese coat down to the scantiest lines. The months of the greatest tornado frequency in the United States, as shown by the reports of Lieutenant John Finley, of the United States Signal Corps, are May, April, June and July, in the order named. The hours of greatest frequency during the day are from 3.30 to 5 p. m. Just after the hottest part of the day, when warm ascending air currents are most liable to meet cooler descending ones. Cats, large and small, make the most careful toilet of any class of animals, excepting some of the opossums. The lions and tigers wash themselves in exactly the same manner as the cat, wetting the dark, rubber-like ball of the fore foot and inner toe and passing it over the face and behind the ears. The foot is thus at the same time a face sponge and brush, and the rough tongue combs the rest of the body. MEDICATED VEGETABLES: How an Excess of Any Medicinal Substance May Be Stimulated. Will the doctor of the future, instead of prescribing some unmedicated vegetable, order a course of medicated vegetables? This may be the result of the present attempts to cultivate plants containing abnormal quantities of certain medicinal substances. It is well known that the amount of any characteristic element in a plant varies with its richness in the soil, and it is also known that the assimilation of mineral elements of the body is much more readily accomplished when these are partaken in the form of food. In the past, if the body needed an excess of iron, it has been supplied by tinctures taken through glass tubes. The modern idea is to supply this want by such vegetables as medicated spinach. Experiments with plants grown in soil enriched by hydrate of iron proved that they contained a much larger percentage of iron than those grown in natural soil. This opens a whole vista of interesting possibilities. The iron, the potash, the manganese, the nitrogen needed by the system can be supplied more effectively through vegetables than through medicines. Already many vegetables are known to have curative properties. Celery is generally held to be good for rheumatism and nervous disorders; lettuce for insomnia; peanuts for indigestion; onions for liver complaints; carrots for scurvy; tomatoes for the liver; blackberries for diarrhoea and apples for nervous dyspepsia and rheumatism. Certified milk, with its stated proportion of fat, sugar and solids, would have seemed improbable some years ago. Will the future see certified vegetables?—American Gardening.

Hiring Maids.

Mrs. Black, with a family of eight, could keep a cook, but Mrs. Green, who paid the same wages and whose family numbered only two, experienced the greatest difficulty in persuading one to stay with her. Mrs. Green was troubled about it, and naturally sought suggestions wherever she could get them. One day the two women happened to meet at a newsdealer's stand. "I'm buying," explained Mrs. Black, "a Swedish newspaper for my cook. She likes to read, and I take one home to her occasionally." "Why?" exclaimed Mrs. Green. "I wonder if that's the reason you're so successful in keeping a girl. I've always wanted to know the secret." "Possibly it's one of the reasons," admitted Mrs. Black. "I'm going to try it myself," announced Mrs. Green, promptly taking a copy of the same paper. A week later the two women met again near an agency, where Mrs. Green was looking for a new cook. "Well," said Mrs. Black, smiling, "how did the newspaper scheme work?" "It didn't work at all," confessed Mrs. Green. "I bought a Swedish paper and the girl was a Finn."—Youth's Companion.

Curious Tree of Tibet.

In Tibet there is a most curious tree, known as the tree of the thousand images. Its leaves are covered with well-defined characters of the Tibetan alphabet. It takes three nations to make the best gloves—Spain to produce the kid, France to cut it out, and England to sew it together.
