HISTORY OF THE

SWORD IS HISTORY

struck a popular chord in the minds of fencers in the city, and while strictly technical in treatment, has yet been theme of conversation among the young swordsmen. It has lent that now fashionable weapon a new meaning, for with the dryer history of this, the earliest weapon of mankind, Col. Beckwith has deftly interwoven a lot of romance gathered from history. In his falk, Col. Beckwith said that to learn the history of the sword, one that weapons wronght from it gave

must study the history of man, for it is the oldest, has been the most universal, and the only weapon that has lived from the earliest period of man to the present time, and is as popular now, in the day of many weapons, as in the past, when it stood alone as man's only artificial means of defense.

"We read of the sword of God, or holy sword, the 'sword of the Lord of Gideon," " said Col. Beckwith. "It was the favorite weapon of the gods and demi-gods; a gift of magic sent down from heaven. By the ancients the sword was consecrated to the deities, and stood in the temples and churches. To it was attributed superhuman pow-

ers; it was an object of affection, and its loss mourned as the passing of near kindred. In ancient times, as in the battles of to-day, to surrender the sword means submission; to break it disgrace. It was the symbol of justice, as well as martyrdom and alike accompanied its owner to the feast and to the grave. The sword raised the northern races upon the ruins of

sciences. "Oaths were taken upon the sword, the point being thrust into the ground; the hilt was crusiform and, therefore, sacred. The oath was always taken with the hand resting upon the hilt. Curzon, formerly Miss Mary Leiter, of Among the pagan Germans the blade Chicago. Sir Thomas Barlow, among of the sword was considered sacred.

According to Ammianus Marcellinus. the Quadi, like the pagan Saxons, took oath upon a drawn sword. Even in the Middle Ages, the sword instead of the cross, was used in administering the oath, while the free jurors in the sacred tribunals of Westphalia took their final report presented to Police Com-missioner McAdoo. Only 897 of the the broad sword. In Holstein this dead were identified; 62 were reported mode of swearing was practiced to a missing and 61 were unidentified; 180 later period than in any other coun-

MEANT FREEDOM.

"In the olden times the presentation of a sword to a slave was to give him freedom. Until late in the seventeenth century members of Parliament wore the sword at their sittings as a sign of their political and judicial authority. When a Goth wished to adopt a

son he handed a sword to the object of his desire, and it was in this manner that Theodoric adopted the King of Heruli as his son.

of their monarchy, the sword was used as the symbol of dominion. The kings who preceeded Henry III. are represented on their great seals bearing the sword in the right hand instead of the sceptre. Lands and dominions were transferred by means of the claimed his cattle were irregularly sword of Germany under the reign of

It

marghante to downing C history of the sword, which was read before the An-thropological Society at one of its recent meetings, has truck a popular chord in the minds man sword was thick and short, while those of the Greeks were long and narrow, with a square guard and a short, thick wooden grip, which was sometimes inlaid with plates of gold, and the blades themselves were often etched or engraved. Following the period of bronze for swords was that of from when work in this was that

> fame to their makers. THE RAPIER BLADE.

"In Germany ewerd making from iron achieved fame, even the wildest of the German tribes, the vandals, whose success and dominion in Gaul. Spain, and Africa, were marked with devastation, and the shape of the implement used by them was maintained throughout the Middle Ages. "At the commencement of the six-

teenth century the sword was reduced in size and received the form of the modern one-handed weapon. Probably this change from a heavy blade used with both hands to a lighter one, took place in the reign of Maximilian I., when the whole system of arms underwent a change.

"About this time the greatest event in the history of sword making took place, when the humble peasant on the outskirts of Toledo, Spain, designed the long, slender rapier, which, after adoption by the Duke of Grenada, attained worldwide fame. This slenimportant savagery, and has carried der blade made it possible for one to in her wake the progress of art and make a clean thrust through the body. which could not have been accomplished with the short, thick blade of former periods.

"Right here is where the era of fencing began. Before that time the victory in sword combats depended more upon the strength of the antagonist than upon actual skill. The broad sword, battle ax, and javelin left little room for delicacy of touch, and only such giants as Coeur de Lion could hope to achieve great reputation as swordsmen. The average Toledo blade was about one inch wide at the hilt,. tapering down in length of about three and a quarter feet into a needle like point. The French improved upon this model, until, in the seventcenth century, the blade was little larger than the fencing foll of to-day, and it was from this slender weapon that the French were called 'tond stickers' by their English neighbors."

ARMOR PLATED BANKS.

Mode of Protecting the Valuables in Wyoming's Depositories.

The First National Bank of Lander is a little steel fortress. The counter is faced with solid metal, and the teller does business from within a conning tower. When you go into the bank "With the English, in the first days you cannot see anyone, and it is so arranged that a hand of hold-ups could be riddled from front and fank. One of the worst bandits that ever disturbed Wyoming bankers used to be a small ranchman. A big cattle outfit had a mortgage on his herd. They

the out Voytage to Aunt A during trip is to be made by jug Brighton (Img.) men in a craft zo small that about the elements during the time she is in mid-channel prove anything but of the best, the chances -are that she will never again reach land. The two young men are Mr. A. L Napper and Mr. J. L. Langford, who start in their boat, the Brighton, for West Australia during this week. The object of the voyage is to reach the seari fisheries at Broome. in N. W. Australia, cheaply, with a craft ready for the work there. The adventurous. pair propose to travel 16,000 miles in a fourteen-ton boat. Two of the most ingenious devices to be carried aboard for the sake of safety are a dinghy and a foating archor, both the inventions and patents of Napper himself. The dinghy has been constructed with a flat bottom to enable it to be carried standing flat on the deck, and thereby dispensing with the cumbersome dayits. The floating deep-sea anchor is constructed with a spar 15 feet long.

attached to which is a triangularshaped canvas sail weighted at the bottom with shot. This contrivance is made especially for outriding any storms which may be met with in mid channel, when the water is too deep to allow the ordinary anchor to be lowered. The deep sea anchor is let out at the stern of the craft, and the action of the water on it while in this position holds the boat practically motionless. The route to be taken, starting from Brighton, is through the Bay of Biscay and the Atlantic ocean to Capetown, and then a run of 5,000 miles without touching land will have to be made from the Cape to Freman tle.-Liverpool (Eng.) Mercury.

A Newark, N. J., man woke up to and that his home had been entered by a freight train and that one car had fallen through into the cellar. A "mondola" loaded with coal stopped outside in the street, however. Such is the perversity of fate sometimes, remarks the Boston Transcript.

A dude preacher generally produces So. 48.

"WHACKS"

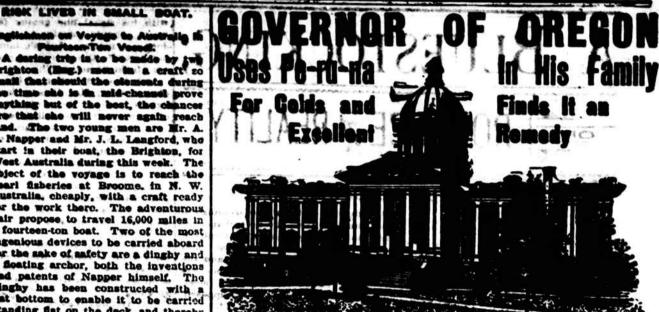

son" so try and say "thank yon" then set about finding what you have done to demand the rebuke, and try and get back into line, for that's the happy place after all.

Curlous how many highly organized people fail to appreciate and heed the first little, gentle "whacks" of the good old Dame, but go right along with the habit whatever it may be, that causes her disapproval. Whiskey Tobacco, Coffee. Tea or other unnatural treatment of the body, until serious illuess sets in or some chronic disease.

Some people seem to get on very well with those things for awhile, and Mother Nature apparently cares but little what they do.

Perhaps she has no particular plans for them and thinks it little use to waste time in their training.

to be selected by Nature to "do things." The Old Mother expects them to carry out some department of her great work. A portion of these selected ones oft and again seek to stimulate and then deaden the tool (the body) by some one or more of the drugs-Whiskey, Tobacco, Coffee, Tea, Morphine, obtained, and on a round-up they etc.

The Magnificent state capiton unaling at balem, Uregon. PRAISE FROM THE EX-GOVERNOR OF OREGON.

 FRAIRE FROM THE EX-GOVKERIOE OF OREGON.

 DERUNA is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the marits of Peruna as a catarrh remedy are pouring in from every State of the Union. Dr. Hartman is receiving hundreds of isters, from the highest to the lowest. The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Peruna is the ca-tarrh remedy of the age. The stage and rostrum, recognizing ca-tarrh as their greatest enemy, are espe-cially enthusiastic in their praise and tesp timony.
 In a letter to The Peruna Medicine Co. Dear Strp—-I & two had ecc astorn to provide the to be an excellent remedy of the age. The stage and rostrum, recognizing ca-tarrh as their greatest enemy, are espe-cially enthusiastic in their praise and tesp
 It will be noticed that the ex-Governor any he has not had occasion to use Peruna for other ailments. The reason for this is, most other ailments begin with a cold.

W, M. Lord. It will be noticed that the ex-Governor says he has not had occasion to use Peruna for other ailments. The reason for this is, most other ailments begin with a cold. Using Peruna to promptly cure colds, he protects his family against other ailments. This is exactly what every other family in the United States should do-keep Pe-runa in the house. Use it for coughs, colds, la grippe and other climatic affections of winter, and there will be no other ailments

timony. Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Peruna is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh of its victims.

Peruna not only oures catarrh, but in the house. Such families should provide themselves with a copy of Dr. Hartman's free book, entitled "Chronic Catarrh." prevents if. Every household should be supplied with this great remedy for coughs, colds and so forth. Address Dr. S. B. Hartman, President of

store, office or factory, very rarely have the ability to stand the strain. The case of Miss Frankie Orser, of Boston, Mass., is interesting to all women, and adds further proof that woman's great friend in need is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINERAM: -- I suffered missry for several years. My back ached and I had bearing down pains, and frequent headaches. I would often wake from a restful sleep in such pain and missry that it would be hours before I could close my eyes again. I dreaded the long nights and weary days. I could do no work. I consulted different physicians hoping to get relief, but, finding that their medicines did not cure me. I tried Lydia E. Pinkham's Vegetable Compound, as it was highly recomended to me. I am glad that I did so, for I soon found that it was the medicine for my case. Very soon I was rid of every ache and pain and restored to perfect health. I feel splendid, have a fine appetite, and have gained in weight a lot." -- Miss FRANKIE ORSEN, 16 Warrenton St., Boston, Mass. 14 Warrenton St., Boston, Muss.

Surely you cannot wish to remain weak, sick and discouraged, and exhausted with each day's work. Some derangement of the feminine organs is reponsible for this exhaustion, following any kind of work or effort. Lydia E. Pinkham's Vegetable Compound will help you just as it has thousands of other women.

The case of Mrs. Lennox, which follows, proves this.

"DEAR MRS. PINKHAM: - Last winter I broke down suddenly and had to seek the advice of a doctor. I felt sore all over, with a pounding in my head, and a dizziness which I had never experienced before. I had a miserable appetite, nothing tasted good, and gradually my health broke down completely. The doctor said I had female weakness, but, although I took his medicine faithfully, I found no relief. found no relief.

After two months I decided to try what change would do for me, and as Lydia E. Pinkham's Vegetable Compound was strongly recommended to me I decided to try it. Within three days I felt better, my appetite returned, and I could sleep. In another week I was able to sit up part of the day, and in ten days more I was well. My strength had returned. I gained fourteen

pounds, and felt better and stronger than had for years. I gratefully acknowledge its merits. Very sincerely yours, RS. BERT E LENNOR, 120 East 4th St., Dixon, Ill."

was also the custom of Germany for the ancient counts never to attend court without this weapon. When a free count was to be invested with authority over life and death he quite recent date the Hidalgos de Espada y Horca, or the noble of the sword and gibbet in Spain superintended their penal jurisdiction over their estates.

"Even in the nuptials of past generations the sword was employed symbolically. In a Frislan bridal party one young man led the procession, carrying in his hand a drawn sword, which was supposed to be emblematic of the authe drawn sword was used at marriages by proxy. It was placed in the thalamus, between the bride and the representatives of the bridegroom. This custom was still in vogue in the fifteenth century, when the Duke and subsequently Emperor Maximillian was married by proxy to Mary of Burgundy.

"When the sword and a pair of sciswas sent to the Queen by the King Childebert and Lothaire, it was meant for her to choose the fate of her sons, whether they should be put to death, be deprived of their hair, or enter a

convent. SWORDS OF FAMOUS COMBAT-

ANTS. "It was always the custom to preserve the sword of famous combatants, and they were not infrequently carried into war. The Maid of Orleans used a battle sword which she secured from the burial vaults of an ancient church. Charlemagne's sword, which he called Church of St. Danis, and was carried in front of the processions at the coronation of the kings of France. Nearly all heroic legends of that age make

mention of swords which bore special names. The Cid, for example, had the Tizona. When a hero died his sword was carried at the funeral and deposited in the church. The sword of Godfrey of Bouillon was kept at his burial chapel in the church of the Holy Sepulchre, where it remained as the only local relic of the crusades.

"The Egyptians were probably the first to conceive the sword and its use, one of the oldest specimens known being a stone sword found in the ruins of Abydos, Egypt. Their swords were short, generally not more than ten or

'vended his brand;" that is, put mark through it, to indicate that it no longer represented ownership. Then there was trouble about a horse. Discrepancies of brand are the beginwas given a sword and a rope. Until a ning of danger out there, and this man served three years. When he came out he robbed a good many banks in broad daylight, at the point of a pistol. Yet for some reason half the sheriffs and

most of the people were his friends. As one cowboy said to me, "The same companies that make war on the small owners are the ones that used to pay five dollars for every maverick we could get under their branding irons. They taught us how to steal, and then thority the husband had over the life prosecuted every man who did any of of his wife. By some ancient peoples it on his own account." Anyway they never got this particular bandit again, and the banks of the West are acquiring the armorplate habit.

Beyond Lander the road runs for seventy miles across the Shoshone Indian recervation. Sixteen rilles from Lander is Fort Washakle, where there are troops, and the agency, and the post-trader's store, and Indian teepces

with stoves in them. Where sagesors, according to Gregory of Tours, brush is the principal frewood a stove is a good thing .- From "In the Big Dry Country," by Frederic Irland, in Scribner's.

Circumicention Department.

A correspondent at Kieff tells a story of the censor's department. Vassall Yaruishkin, a brilliant graduate of

Moscow University, has just died there in poverty at the age of fifty. Twenty-three years ago Yaruishkin wrote a work on physiology, embodying a number of remarkable discoverles he had made. His scientific friends pronounced it epoch-making. The manuscript went to the censor in 1083. Joyeuse, is still preserved in the It never came back. Again and again the author applied for permission to print, and for the return of his manuscript. He accurculated a drawful of formal replies, saying that the matter would receive attention. Courad and disappointed, M. Yaruishkin never madertook other work, and recently he died. On the morning of the funeral a packet of MS. arrived at the house where he died, with the stereotyped approval of the censor expressed in a formal note.-St. Jar es' Gazette.
