VEGETABLE PANACEA.

THE subscriber informs the public, that he has just completed the mixture of this valuable medicine. He takes pleasure in stating that he has made use of this PANACEA, successfully in a case of Scrofula, which he has been afflicted with more than THREE years. On several occasions he applied to practical Physicians for aid, (North and South,) and received no benefit. He was, at length, prevailed upon by numerous acquaintances, to try the virtue of certain ROOTS and HERBS; and believing, that the Receipt would greatly benefit him, he took it, together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt: from the try together with an old French Receipt together with an old French Receipt together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with an old French Receipt from the try together with the try together with an old French Receipt from the try together with the try togethe which is manufactured the VEGETABLE PANA-

the use of the VEGETABLE PANACEA. Children are frequently attacked with this complaint: especially when teething. A few doses of the PAN-ACEA will check the Bowels, and they become regular again. It has been tried by a great number of respectable individuals, and pronounced a "certain cure." He has tried it at different times in his own family, and it relieved the child immediately. This Medicine is simple in its operations; and has

a pleasant taste. Give it a trial, and judge its worth. The subscriber will keep a constant supply of the

## The Vegetable Elixir.

F. S. BRUNSON. T is with great pleasure the subscriber informs the public that he has completed the mixture of the VEGETABLE ELIXIR. This medicine is composed of Roots which grow in this State. It is useless to enter into a detail of the value of this Medicine, (or any other Root medicine,) as it is well known that ALL Roots have valuable Medical properties. He would also state that there is not the least danger in the use of the ELIXIR. For the folowing named diseases, there is no medicine made or vended at the present time, better calculated to relieve the afflicted, than the VEGETABLE ELIXIR.

For Rheumatism and Consumption, the ELIXIR should be used internally and externally.

For Dyspepsia or Dysury, he would also recommend the use of the ELIXIR, as he feels confident it will prove highly beneficial to those who use it.

To those who are affected with Pustoles, Eruptive

Distempers, and Venereal diseases, he particularly recommends the use of the VEGETABLE ELIXIR. Without the fear of contradiction, he recommends this Medicine as the BEST now in use—as it has proved Medicine as the BEST now in use—as it has proved auccessful in every case in which it has been used.

Tries addressed to the subscriber or Mr. J. R. M'Kain, will be promptly attended to. The ELIXIR may always be had at J. R. M'Kain's Drug Store, Canden, S. C.

OSTPONEMENT of the DRAWING at the Splendid Scheme of the ALEXANDRIA LOTTERY, Class E, (Highest Capital \$75,000) from the 27th of May to the 23d of September

From the general embarrassment of the times; the deranged state of the domestic exchanges, and the difficulties attending the disposal of Bank Bills out of their immediate circles of issue, we have been solicited by agents and Venders to postpone the drawing of the above scheme, for a short time, until the present crisis in the affairs of the coun-

try shall have passed away.

We have therefore yielded to these solicitations, and postpone the drawing of the Alexandria Lotte-

Adventurers having purchased tickets in said class, and who do not wish to hold them until the drawing, can have their money returned by the agent or broker from whom they purchased—or can exchange them for tickets in classes to be drawn at an earlier day, as it may suit their pleasure.

The Managers have consented to this postpone ment with extreme reluctance, as it has always been their policy to draw every scheme at the time announced. The unparalleled state of the country, is the only cau e of this one departure from

JONES' PATENT COTTON GIN. HIS Gin can be made double. or single.

made double, they reduce labor, and gin just double, the quantity of cotton over the single cylinder Gin, no other knd having been in use der Gin, no other knd having been in use prevous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one land will be sufficient to attend them. The Gins have mechanical feeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hackling operation it receives from the feeders, which make two revo-lutions to one of the saws, it is almost in a half gined state, before it descends to the saw. By a very simple arrangement of a screw to each set of gaates, on which the hoppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleansed by two sets of brushes that have four revolutions to one of twe saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders. &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, merchants and others, and received their general approbation Several gentlemen have been so kind as to give

New Orleans, Feb. 27, 1837. Dr. A. Jones—Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c.

Dr. A. Jones—Dear Sir, in answer to your inquiry of my opinion of your Patent Cotton Gin, I beg leave to state, that I was fifteen years engaged in the cotton factories of Manchester, Engaged in the cotton factories of that time I was land, and during four years of that time, I was foreman in the house of Messrs. Lewis, Williams & Co., and near five years spinner in the house of Messrs. Sandford & Greene. I have seen your Cotton Gin in operation, and have examined the cotton ginned by it, and pronounce it better clean-sed, and the staple less injured, than any cotton that ever came under my observation. It is com-pletely reacy for the breaker without the aid of the blower, and would, therefore, save the first process in manufacturing the article. I consider cotton cleansed by your Gin, would command from one to two cents on the pound more than the average crops brought into the Manchester market, and

cleansed by common Gins Yours, very resp'ly.

N. Orleans, March 9, GEORGE SENIOR.

Dr. Jones—Dear Sir, in answer to your inquiry respecting my opinion of your Patent Cotton Gin, I have to state, that I have been engaged in put ting up the Carver Cins for planters on Red River, and that I have seen your Gin in operation, and have examined the quality of the cotton produced by it; I consider it equal it not superior to the Carver Gins: in addition to which, I think your feeders a decided improvement, and by the side of the cotton produced by it. ers a decided improvement, and by the aid of which, the quality of the cotton cleansed appears much improved, over that produced by the comon Gins. It is desirable, when planters give orders for Gins,
they should accompany them with their views in regard to the arrangement of saws, breasts, brushes, &c. It is found they differ in opinion Some desire saws of larger diameter than others. The most common size is 9 or 10 inches; but some wish them 12 inches. Some wish 5 or 6 rows of brushes on an axle while. on an axle, while others do not want more than 4 at most. Some wish saws with 8 or 9 teeth to the inch. while others want 10 or 11. With so much discrepancy, we prefer they should, at the time of giving orders, turnish a statement of their wishes, and the manufacturerers can fulfil them in every particular.
