PROSPECTUS OF THE

Camden Commercial Courier. THE Establishment of the COMMERCIAL COURIER was rendered necessary by the inconvenience to which our citizens have been subjected for the want of a public channel of communication which in a commercial community like Camden, is essentially necessary, and consequently the COU-RIER S claim on the public is such as should ensure a liberal patronage.

The undersigned have spared no trouble or ex-cense in obtaining the best workmen in order to ender the Paper all the advantages that it will admit of, and affording satisfaction to its patrons. In political matters the Courier will take no part; the design being to publish a Paper adapted to the interest of ALL, which could not be a by its entering into the arena of Politics—it will be confined principally to such matter as appertains

to Commerce, Agriculture and Amusement.

The COURIER is published every Saturday morning at Three Dollars in advance, or Four Dollars if not paid until the expiration of the year.
Persons wishing to become subscribers must ad-

dress a letter (POST PAID) to L. M. JONES.

Camden, S. C. May, 1837.

Wm. F. Wright

AKES this method of informing his customers and the public generally, that he is ready to execute any orders in the line of Coachmaking repairing of Gigs, Sulkeys &c. And would like-wise tender his public acknowledgements to those who have so liberally patronized him, and hope by close attention to business, to merit a continuation of their patronage. Stateburg, Sept. 9 19 tf.

Also, on the 20th December next, on the pre-mises, his plantation known as Jourden's Hill, on the east side of the Wateree, about ten miles above Camden, the tract contains upwards of 200 acres of prime upland, 130 of which is cleared, under good fence, with all necessary fixtures in good repair. The property can be seen and treated or at private sale, at any time previous to the above time, on application to Nov. 11 28 tf

J. J. MICKLE.

THE success of the SOUTHERN TONIC is unprecedented. It has been anxiously sought after by all persons in every part of the United States, and its widely extended distribution has been owing to the many requests received from every section of the South and South West. Alevery section of the South and South West. Although it originated in an obscure part of the country but a few years since, it is now found in all the principal towns and villages in the Union, and its virtues as a cure for Ague and Fever, and as a general Tonic, are appreciated by all who have used it Being as it professes a compound of Southern Vegetables, it is needless to offer the assurance that there is no Arsenic, Mercury, nor any thing in the least hurtful to the human constitution in it. It will be found a valuable Medicine in all cases of Dyspensia and disorganised Stomach in all cases of Dyspepsia and disorganised Stomach and Bowelsl and patients convalescing from Eil-lious Fever, will derive the most important benefits from the use of the Southern Tonic. It may be administered to children and infants of the most tender age with the utmost safety. Prepared by Coster andCoxe at their Labratory, at Montgome-

ry Alabama. For sale by their appointed agent, JAMES R. M'KAIN.

JONES' PATENT COTTON GIN.

HIS Gin can be made double, or single. If HIS Gin can be made double, or single. If made double, they reduce labor, and gin just double, the quantity of cotton over the single cylinder Gin, no other knd having been in use prevous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one hand will be sufficient to attend them. The Gins have mechanical feeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hackling operation it saws, and by the thorough hackling operation it receives from the feeders, which make two revolutions to one of the saws, it is almost in a half gined state, before it descends to the saw By a very simple arrangement of a screw to each set of very simple arrangement of a screw to each set of per saw, or gaates, on which the hoppers rest, and through which the teeth of the feeders pass, they can be made to teed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleansed by two sets of brushes that have four revolutions to one of twe saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders, or both at pleasure, although embraced with feeders, &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, merchants and others, and

received their general approbation

Several gentlemen have been so kind as to give the Patentee their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient: From his Excellency Gov. White of Louisiana.

Prom his Excellency Gov. White of Louisiana.
New Orleans, Feb. 27, 1837.

Dr. A. Jones—Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c.

E. D. WHITE.

Yours respectfully, J. COMPTON.
New Orleans, Feb. 28, 1837.
From Mr. A. Longer, an experienced and eminent
Cotton Broker of New Orleans.

New Orleans, reb. 28, 1837. Dr. Jones -Dear Sir, in answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have cotton growing States, will be sold obreasonable found it far superior to those generally used in this terms.

Miresra. Forestall, High &. Co. Co.

Pros Mesers. Forestall, High & Co. Commission Merchania.

Dr. A. Jones—Deer Sir, we have examined the sample of asiton jeft with us, cleansed by your Patent Cotton Gin, and also the cotton in its uncleansed state, and promounce the same greatly separate to the average samples which have, come under our observation this or preceding seasons.

Very respectfully, your ob't servants, FORNTALL, HIGH & Co.

New Orleans, March 1,1837.

From Col. Harris Smith Evans, a planter of Willows county; signed also by Dr. David J. Means, a planter of Green county, and Mr. Wm. C. Clifton, a planter of Dallas county, all of Ala. Dr. Jones—Dear Sir, in reply to your inquiry concerning your

New Orleans, March 7, 1837.

P S.—As a further testimony of my confidence in the success of your Gin, you will please order two Double Gins of 80 saws in a stand each, for my plantation, and oblige yours truly,

As a further proof of my confidence in your Gin, you will please order me a Double Gin, of the same size, for my plantation, and oblige yours re-

Mr. Clitton also stated, that if he had not just before bought two new Common Gins, that he would likewise have ordered one or two of the

Patent Gins for his plantation.

From Mr. H. F. M Kenna, of the house of Brander, M'Kenna & Wright, of New Orleans.

Dr. A. Jones—Dear Sir, in reply to your note, accompanied by a specimen of the cotton, ginned by your Patent Gin, I beg leave to observe, that it exhibits a decided in the cotton of the cotton. exhibits a decided improvement on the usual pro-cess of ginning; delivering the staple uninjured and free from hap or trash, clean and of good co-lor; thereby giving the article an additional value. These favorable impressions of the advantages of your Patent Gin, have been confirmed by subsequently witnessing it in operation. The utility of the double cylinders and saving of labor, will be readily perceived and properly appreciated by the

readily perceived and properly appreciated by the intelligent planter.

Feeling a deep interest in the success of all improvements tending to benefit the important steples of our country, I trust that yours will neet with the encouragement it justly merits.

Very respectfully, your ob't serv't,

H. F. M'KENNA.

New Orleans, March 6, 1837.

From Mr. G. Senior, a Machinist of New Orleans.

Dr. A. Jones—Dear Sir, in answer to your inquiry of my oninior, of your Patent Cotton Gin. I

Dr. A. Jones—Dear Sir, in answer to your inquiry of my opinion of your Patent Cotton Gin, I beg leave to state, that I was fifteen years engaged in the cotton factories of Manchester, England, and during four years of that time, I was foreman in the house of Messrs. Lewis, Williams & Co., and near five years spinner in the house of Messrs. Sandford & Greene. I have seen your Cotton Gin in operation, and have exemined the cotton ginned by it, and pronounce it better clear-sed, and the staple less injured, than any cotton that ever came under my observation. It is completely ready for the breaker without the aid of the pletely ready for the breaker without the aid of the blower, and would, therefore, save the first process in manufacturing the article. I consider cotton cleansed by your Gin, would command from one to two cents on the pound more than the average crops brought into the Manchester market, and cleansed by common Clina.

ciops brought into the Manchester market, and cleansed by common Gins. Yours, very respliy.

N. Orleans, March 9, GEORGE SENIOR.

Dr. Jones—Dear Sir, in answer to your inquiry respecting my opinion of your Patent Cotton Gin, I have to state, that I have been engaged in put ting up the Carver Gins for planters on Red River, and that I have seen your Gin in operation, and have examined the quality of the cotton preduced by it; I consider it equal if not superior to the Carver Gins: in addition to which, I think your feeders a decided improvement, and by the aid of ers a decided improvement, and by the aid of which, the quality of the cotton cleaneed appears much improved, over that produced by the com-mon Gins. Yours &c. S. BENNETT. New Orleans, March 10, 1837.

In addition to the above, the Patentee will refer planters to the following gentlemen, who have either seen the Gin in operation, or have examined samples cleansed by it: Messrs. N. & J. Dick Thomas Barrett & Co., Hagan, Niven & Co., Lambeth & Thompson, Martin, Pleasants & Co., Hermann, Briggs & Co., Wm. L. Flower; Bullitt, Shin & Co.

Ship & Co. ORDERS RECEIVED FOR Jones' Patent Cotton Gin,

By the Patentee, No. 53 Magazine st. New-Orleans To be manufactured in New York, by Robert SCALE OF PRICES.

DOUBLE GINS.

each cylinder, making 160 saws in the stand, with feeders, bands, &c. at \$6 per saw, or For a Double Gin of 60 saws on a cylinder, or 120 saws in the stand, feeders, &c. at

\$6 per saw, or
For do, of 40 saws on do, or 80 saws in a
stand, at \$6 25 per saw, or
For do. of 20 saws on do. or 40 saws in a 500 00 stand, at \$6 50 per saw, or SINGLE GINS. 260 00 For a Single Gin of 80 saws or more, with

one set of feeders, bands, &c. at \$6 per For do. of 60 saws, with feeders, &c. at \$6 50 per saw, For do. of 40 saws, with feeders, &c. at 300,00

\$6 75 per saw, For do. of 20 saws, with feeders, &c. at 300,00 \$7 50 per saw, 150 000 Extra teeth where desired, for feeders, supplied at 40 cents each; the number of teeth being about equal to the number of saws. One set of feeders, it is considered however, will wear out two or three

sets of saws Extra saws supplied at 80 cents each.
The Gins ordered will be delivered to the agents, of planters in any of the sea port towns of the cotton planting States, at the above prices, the agents paying the freight on the same from New York, and becoming responsible for the amount of the Gin.

It is desirable, when planters give orders for Gins. they should accompany them with their views in regard to the arrangement of saws, breasts, brushes, &c. It is found they differ in opinion. Some desire saws of larger diameter than others. The most common size is 9 or 10 inches; but some wish them 12 inches. Some wish 5 or 6 rows of brushes

on an axle, while others do not want more than at most. Some wish saws with 8 or 9 teeth to the inch. while others want 10 or 11. With so much in the Parish of Rapide, Lauisiana.

Dr. Jones—Dear Sir, I have examined your Patent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly that I have taken the liberty of ordering one for my plantation in time for the next crop.

Yours respectfully, J. COMPTON.
