PROSPECTUS LITERARY BULLETIN. CharLeston, S. C.

CharListon, S. C. In offering to the patron go of the public, a new interary power, we are periodicy aware that we are but repeating an off-tried experiment. The re-sult, he wever, we would fain believe, will be differ-ont. We are, it is true, conscious of the passession of no talent or ability superior to that of our prede-cessors, but we rely, (perhaps, indeed, with too much of the ardor of all experiments,) upon the in-creasing tasks of the are of literature; a tasts, the evidence of which is before us in the number of pe-riedicals, engaged solely in its cultivation—in the lycoums, the libraries and academies devoted to sci-ence and learning. Whilst the North and the West are thus assidiously employed in the exem-plary task of mental inprovement, we will not sup-pose that the South, intends longer to hear the weight of that heavy incumbus which heretofore has whelmed it in an intellectual slumber more large and profound than that physical one which erwhile enverapped the soure sloepers of Ephesus. It is with a hope thus founded, and with an in-tention if we cannot win success, at least to deserve in that notwithstanding the uniform failure of those when here the use of the soure sloepers of Ephesus.

tention if we cannot win success, at least to descrive it; that not withstanding the uniform failure of those who have preceded us, we have ventured to claim the patromage and to labor for the applause of the public. The stake shall be played for; how the game is to end, time only can determine. Our object will be to render the columns of the Bulletin both useful and amusing. For this pur-pose, while one portion is devoted to original Es-says, Tales and Poems, furnished from time to time by our correspondents and collaborators, anoth.-portion shall be occupied by selected matter colled from every spot of interest and instruction, in the vast field of literature. The productions of the press shall pass in review

The productions of the press shall pass in review before us, and on every work which merits our notice, an impartial criticism shall be bestowed.-To light literature and to learned science shall alike he meted their due portion of censure or of praise and it shall not be our faults if our patrons do not

and it shall not be our multiplications do not know the intrinsic value of every book, (at least in our own opinion) before they begin to read. He, says Dr. Franklin, who is good at excuses, is soldom good at any thing else; and the same we opine may be said of promises; lest therefore our readers come to some such conclusion as this, we will without further add make our box sour leave will, without further ado, make our bow, and leave them in future to judge from our labors whether we do, or do not, deserve their patronage. Feb. 3 40

Sylvester's Experiment Successfal.

SINCE the deranged state of the Currency, which has affected alike the rich and the poor, Sylvester has proved that his "Experiment" has proved most triumphantly successful. Emboldened by this success, each succeeding month has been productive of more extensive Schemes. and consequently more brilliant results.

March exhibits to our patrons an actual mine of wealth. The Alexandria Lottery of the 24th with a Capital of \$60,000! and four Virginia Lotteries with captials of \$30,000 each, command the immediate attention of all who may be desirous of participating in these fascinating opportunities to become rich. Applications are

urged without a moment's delay to S.J. SYLVESTER, 130 Broadway, New-York. RICH AND SPENDID SCHEME.

PROSPECTUS LADIES' COMPANION, (ESTABLISHED IN 1884.)

(ESTABLISHED IN ROS.) popular and highly esteemed Magazine of Gene-ral Literature and the Fine Arts-embelished with generous and costly Engravings, on Steel, Comper and Wood; and also with Fashionable and Popular Music, arranged for the Piano-Forte, Guitar and Hasp.

EDITORS, MRS. ANN S. STEPHENS. WILLIAM W. SNOWDEN. Assisted by many of the most popular writers.

Since the publication of the May number, the de-mand for the Ladjes' Companion, has been un-precedented and beyond the most sanguine anticipa-tions. At the cormencement of the volume an ad-ditional number of copies were printed, which was considered at the time adaquate to satisfy all the orders which eight be received, and leave a consi-derable number on hand for subsequent calls. The publisher is more than graiified in stating that the whole edition was nearly exhausted before the issu-ing of the seventh number of the volume; and at this time but very few complete sets remain on hand, to supply the numerous orders which are daily received from every section of the U.S. In consequence of this great unforseen increase of

daily received from every section of the U.S. In consequence of this great unforseen increase of new subscribers, he has determined to double the number of impressions for the subsequent year, while he most gratefully appreciates the unprece-dented encouragement extended to the Ladics' Com-panion, and at the same time, he begs to assure the readers of the magazine and the public in general, that it is his ardent resolution to meet it with a cor-respondigg liberality on his part to merit its continu-ance. ance.

SPLENDID STEEL ENGRAVINGS

by our best artists, ccompany each number-illus-trated by Tales and spirited Sketches-which will, as heretofore, continue to be magnificent and far superior to those published in any other magazine in

The Ladies' Companion contains a larger quantity of reading than any other magazine issued in this country, and its subscription price is only three dol-lars a year, while the great combination of talent secured for the coming year will render it unequal-led by any other periodical.

ITS LITERARY CHARACTER!

Will undergo considerable change, as the publisher of the Lacies' Companion, in order to show his appreciation of the public favor already extended to him so liberally, has secured the aid of MRS. ANN S. STEPHENS' late Editor of the "Portland Magazine," and author of a series of the most heantiful and nonular tales

of a series of the most beautiful and popular tales ever presented to an American public. No lady possessing greater variety of talent, or better calcu-lated to aid in conducting a ladies magazine, could have been selected from the galaxy of female genius which is the glory of our country. In addition to the powerful talents of Mrs. Stephens, the proprietor has secured a list of contributors, which combined will render the Ladies' Companion one of the most the day.

exertion will be made to render the Ladies' Companion, what a work devoted to the female portion of the community should be, interesting, useful and instructive. THE MUSICAL DEPARTMENT

Is under the supervision of Mr. J. Watson, whose qualifications for the task are too well known to require our testimony. This department of the Ladies' Companion, has

JONES'

PATENT COTTON GIN. THIS Gin can be made double, or single. If made double, they reduce labor, and gin just double, the quantity of sotion over the single cylin-der Gin, no other and having been in use prevous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether shall or large, one hand will be sufficient to attend them. The Gins have mechanical fielders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hacking operation it receives from the feeders, which make two revo-lutions to one of the saws, it is almost in a failf gined atate, before it descends to the saw By a very simple arrangement of a screw to each set of sates, off which the hoppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or first to suit the condition of the cotton at the time. When made double, the aws are placed on two sets of cylinders and turn upon each other in opposite directions, and are oleansed by two sets of brushes that have four revo-lutions to one of the saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feedra. PATENT COTTON GIN or both at pleasure, although embraced with feeders, &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, mcrehants and others, and received their general approbation Several gentlemen have been so kind as to give the Patentee their written opinion respecting the

the Patentee their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient: From his Excellency Gov. White of Louisiana.

New Orleans, Feb. 27, 1837 Dr. A. Jones-Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Satarday the 25th inst. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the profrom the common Gins in use, and that it saves

tent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly, that I have taken the liberty of ordering one for my plantation in time for the next crop. Yours respectfully, J. COMPTON.

Yours respectfully, New Orleans, Feb. 28, 1837.

From Mr. A. Longer, an experienced and eminent Cotton Broker of New Orleans.

New Orleans, reb. 28, 1837. Dr. Jones - Dear Sir, in answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have

found it far superior to those generally used in this State it cleans the cotton much better, and gives it a much better appearance. I hope, for the good of the country, it may become duly appreciated. Yours sincerely, A. LONGER. From Messrs. Forestall, High & Co. Commission Merchants.

Dr. A. Jones-Dear Sir, we have examined the sample of cotton left with us, cleansed by your Patent Cotton Gin, and also the cotton in its un-cleansed state, and pronounce the same greatly superior to the average samples which have come under our observation this or preceding seasons. Vey respectfully, your ob't servants, FORSTALL, HIGH & Co.

New Orleans, March 1, 1837,

From Col. Harris Smith Evans, a planter of Wil cox county ; signed also by Dr. David J. Means a planter of Green county, and Mr. Wm C.

Clifton, a planter of Dallas county, and Mil. Will C. Clifton, a planter of Dallas county, all of Ala Dr. Jones-Dear Sir, In reply to your inquiry concerning your inquiry concerning your new Pa-tent Cotton Gin, we deem it no less a pleasure than a duty to say to you, emphati ally, that we consider it a most decided and valuable improvement. We have examined it carefully and seen it in successful operation, and we feel no hesitatancy ever commanded a large share of attention, and has in recommending it to the attention of planters

New Orleans, March 10, 1837. In addition to the above, the Patentee will refer planters to the following gentemen, who have either seen the Gin in operation, or have examined samples cleansed by it: Messrs. N. & J. Dick Thomas Barrott & Co., Hagan, Nissen. & Co., Lambath & Thompson, Martin, Pleusants & Co., Hermann, Briggs & Co., Wm. L. Flower; Bullitt, Bhip & Co. Ship & Co

ORDERS RECEIVED FOR Jones' Patent Cotton Gin, By the Patentes, M. 53 Magnine et. New-Orleans To be manufactured in New York, by Robert Hoe, & Co. SCALE OF PRICES. DOUBLE GINS. For a Double Gin of 80 saws or more on each cylinder, making 160 saws in the stand, with feeders, bands, &c. at \$6 per saw. or \$2000 U

stand, with feeders, bands, &c. at §6 per saw, or For a Double Gin of 60 saws on a cylinder, or 120 saws in the stand, feeders, &c. at §6 per saw, or For do, of 40 saws on do, or 80 saws in a stand, at §6 25 per saw, or For do. of 20 saws on do. or 40 saws in a stand, at §6 50 per saw, or SINGLE-GINS. For a Single Gin of 80 saws or more, with one set of feeders, bands, &c. at §6 per saw, 260 00

480,00

saw, For do. of 60 saws, with feeders, &c. at \$6 50 per saw, or do. of 40 saws, with feeders, &c. at 390,00

300.00

\$6 75 per saw, For do. of 20 saws, with feeders, &c. at

\$7 50 per saw, Extra tech where desired, for feeders, supplied at 40 cents each; the number of teeth being about equal to the number of saws. One set of feeders, it is considered however, will wear out two or three sets of saws Extra saws supplied at 80 cents each. The Gins ordered will be del vered to the agents,

of planters in any of the sea port towns of the cot-ton planting States, at the above prices, the agents paying the freight on the same from New York, and becoming responsible for the emount of the Gin. It is desirable, when planters give orders for Gins, they should accompany the multi their incident they should accompany them with their views in regard to the arrangement of saws, breasts, brush-cs, &c. It is found they differ in opinion Some desire saws of larger diameter than others. The most common size is 9 or 10 inches; but some wish

them 12 inches. Some wish 5 or 6 rows of brushes on an axlet while others do not want more than 4 at most. Some wish saws with 8 or 9 tech to the inch. while others want 10 or 11. With so much discrepancy, we prefer they should, at the time of invine orders there is a structure of their orders. giving orders, turnish a statement of their wishes, and the manufacturerers can fulfil them in every particular. Where it is left to our discretion, we shall make them on the most modern and approved plan. An order can be executed, from the time it is received, in the space of eight or nine weeks and the Gin in that time pl ced in the hands of the factor. To be in time for the next crop, all orders ought to be in the hands of the manufacturers by the first or middle of May; except for plantations where they are late in commencing to pick or gin cotion.

N. B.—The Patent Right, for any one of the cotton growing States, will be sold onreasonable terms. May 61 th terms.

Colore I servants sent with mares, boar-ded gratis. and end on the 15th July. Extensive Clover and Grass Pastures provided for Mares, and separate lots

NEW-MARKET FIRST OCTOBER MEET.

Grand Duke Michael Stakes of 50 sovs. each.-For 3 yr. old, Set. 7lb. (1191b.) and fillics Set. 3lb. (1161b) 26 sub. Sir M. Wood's br. e Flatterer, by Muley, 1 Mr. Yates' ch. e Bentley, 9 Duke of Grafton's ch. c Otympic, by Reveller, 3 Lord Orford's b c. Paris, by Waterloo, 4 Mr. - 's Dick, 5

Mr. _____'s Dick, 5 Flatteren was now purchased for Mr. Walsworth and shipped for America. After an unusually long passage, during which he never laid down, he was landed at New York, the latter part of July, 1835, was put in training without the possibility of prepa-ration, but, notwithatanding, ran two very creditable races, one of which, mile beats, he won, tibeating two Eclipse colts and a filly by the same horse. In the following spring, he was beaten by Mingo, three mile heats, running second to him, and beating Cad-nus, by Eclipse, Sydney, by Sir Charles, and the Jewess, by Henry, in the first heat, when he was drawn. drawn

Of this race the New York Spirit of the Times Ot this race the New York Spirit of the Times contained the following account: "Cadmus had the pole, Mingo the out side. They got away in a cluster, the Jewess making 'a spurt' between the stand and first gate that quite used her up, when Cadmus and Flatterer took up the running, Mingo and Sidney lying well up, the first under a hard pull. Finding Cadmus disliked the pace, Willis held him up after, the second mile and Mingo headed the field with case. Flatterer maintained his stride to the cud, running a were handsome his stride to the end, running a very handsome second to Mingo, who, for a single three miles can pull to the fastest horse in the country, and come home ahead. Cadmus could not run in the mud—and his friends did not expect much from him, though he ran 2d the next heat, Flatterer having been withdrawn after a very creditable performance. Sanford rode him in tip top style, and had he carried 1681b. would have flung the mud in the face of the best of them."

mud in the face of the best of them." "Flatterer did not start in the fall nor succeeding spring. He was purchased by W. L. Corbin Esq. of Va. and placed in the stable of J. S. Corbin, e q. of Fairfield, who furnishes the annexed ac-count of his promise:—"In regard to the promise Flatterer gave, while in training by n e, of making a good race-horse, I can with sincerity, and I think, truth, say that it was decidedly flattering. In his mile trial he bent "Whig" (a very fast horse) sevemile trial he beat "Whig" (a very fast horse) seve-ral lengths, and exhibited very good symptoms at "the finish" of an ability to run a long distance suc-cessively. I witnessed a race on Long Island, last spring twelve months, between him and seve-ral other very sharp nags, two mile heats, in which Flatterer was a good deal over "the foct" of any of them. I considered him then a better horse than he showed for, as he had had but a poor chance to recover from the unusually long and sough voy-age across the Atlantic, and the injudicicus races age across the Atlantic, and the injudicicus races he had been made to run the Autumn previous, very recently after his landing. Had his neg been sound, when he went into Iraining this fall, he would, undoubtedly, have made distinguishing and successful races in the campaign 1 would as soon breed from Flatterer as any untried Stallion in the country. His blood is as pure as a horse's can be and his family all run. He runs back very short. and his family all run. He runs back very short, ly to th English Eclipse, and is a horse of uncom-mon speed himself, and I think of bottom too.--His fue size, should recommend him to breeders who may have small or slight marcs His action is remarkably good indeed. I have given the Goom the requisite instructions, though from his good temper none were needed. His health and appetite are as good as can be. I turned him out during the training on account of diseased frogs, made so from standing in a foul stable at the North made so from standing in a foul stable at the North. W. L. Corbin says of him, "I am sure he will ful-til the promise expected of him in Carolina " Mr. White, of Northampton county, who was

THIS splendid english Race-horse, (the property of Captain J. A. J. Bradford, U. S. A.) will make his first season in Ame-dersigned, at the Hon. Judge Strange's Myrite Hill estate, three miles north of Feyetteville, on the old Raleigh road, and be let to Mares at \$50 the season. \$75 to insure, and Fifty Cents to the Green—the noney to be paid or secured to be paid. rear parts I think first rate, and his countenance,

chanced to be at New Market, England, when Flatterer ran, and says he gave great promise, and stood high in the Sporting circles, as does all his stock. Flatterer is yet untrained as a Stallion-but as all his stock in this country have established a high ruputation as sure foal getters, it is expected he will maintain it. The undersigned repeats the ascurance that the strictest and most careful attention will be paid to mares sent to Flatterer, and pledges himself to deliver them in good order and condition when taken away. And he will remark for the information of breeders who may be desirous of obtaining a cross of as noble blood as ever coursed the veins of the horse, that, as advantageous offers have been made for his services in the race-horse region, this will be the only Season he can make here. looked upon with no little ders, and more especially the Ladics, whom the publisher is in the highest degree anxious to please. It will continue to be a subject of more than usual care to him, and to the Professor under whose supervision it is placed, to make that portion of the magazine al otted to music, more than ever doserving of the countenance of every lover of music. It has ever been and will continue to be the desire to have all pieces of music printed correctly and free from errors.

THE WORK IN GENERAL.

Over every department an equally careful supervision will be strictly exercised by the Editors, and all appropriate expenditures will be liberally bestowed as it is the design of the publisher, with the aid of his contributors and the advice of his friends to make the Ladics' Companion distinguished for the beauty and accuracy of its typography—the variety and high tone of its literary articles—the quality and value of its music—and the unequalled splendor of its pictorial embelishments.

It is the deter instion of the publisher to use every means to maintain the superiority which the La-dies' Companion has obtained. For four years he has steadily pursued a course of improvement, and he flatters himself that his present facilities are such as to give the Ladies' Companion eminent advantages over all other publications of its character.

From the foregoing it will be perceived that the Ladies' Companion embraces every department with-in the range of Belies-Lettres and the Fine Arts; and no exertions or expense will be deemed too great to render the work equal to any other extant. The flattering and general testimonials of nearly every contemparary journal in the United States, and in fact, many on the other side of the Atlantic, have strongly asserted the Undeniable claims of the Ladics' Companion to the supjort of the public general-ly. There is no work that gives its readers such a

year. These articles will com rise the successiul candidates for the premiums of one thousand dollars awarded by a committee of literary gentlemen in August last.

PEDIGREE.

FLATTERER was got by Muley (son of Or-ville and the famous mare Eleanour) and is, therefore, half brother of the celebrated imported Leviathen, of Tennessee, and of imported Margrave, winner of the Doncaster St. Leger in 1832; his dam Clare, bred by Lord Egremont in 1834, was got by Marmion, grandam Harpalice, by Gohanne, g gran dam Amazon by Driver—Fractious by Mercury— Woodpecker—Everlasting by Eclipse.

Muley, the sire of Flatterer, was the best bred son of Orville, the winner of the St. Leger, and a most capital Stallion, having cov. red at as high as £52. Orville is the sire of Emilius, now covering at 50 sovs., and grand sire of imported Priam, covering in this country at \$150. Plenipo, covering at 25 sovs., (all three winners of the Derby, imported Sparpedon, Oxygen, winners of the Oaks, imported Tranby, imported Merman, &c. Muley is also the sire of Vespa, winner of the Oaks, of Muley Moloch, impor-ted Leviathan, imported Margrave, &c. Muley is out of Eleanour, the best mare of her day, having won both the Derby and the Oaks. Eleanour (by Whiskey, that famous getter of the stout sort,) is the grandam of incorted Luzboroush, whose get sovs., and grand sire of imported Priam, covering in the grandam of imported Luzborough, whose get in this country, ran last year with so much distinc-tion; and is sister to Cressida, Priam's dam.

Clare, Flaterer's dan, was out of Harralice by Gohanna, the best four mile horse of his day, and as a stallion, equal to any of any age. Flatterer, like his sire Muley, who was said to be

the double cylinders and saving of labor, will be readily perceived and properly ap, reciated by the intelligent planter. Feeling a deep interest in the success of all im-provements tending to benefit the important staples power, large bone, great substance, good action, long stride, sound constitution, and excellent temper .-His color is a fine brown without white. It will be seen that his pedigree runs back to the famous old English Eclipse in an extremely short, and as rich a line a - could be desired.

HISTORY AND PERFORMANCES.

Flatterer was bred by Mr. Nowell, in 1831, and ran in England, by Sir Mark Wood. He was im-ported by Mr. Wadsworth, of Geneseo, New York, try, are creditable to his noble stock. His first appearance in England was in his three year old form cotton ginned by it, and proneunce it better clean-sed, and the staple less injured, than any cotton that ever came under my observation. H is com-pletely reacy tor the breaker without the aid of the (in 1834) for the renewal of the two thousand guinea stakes, at New Market, when he ran a capital se-
