

Rev. Horace Bushnell, city missionary of Cincinnati, is continuing his work, though totally blind, and has even compelled to goon crutches. During 25 years he has preached 6000 times, visited more than 32,100 families, attended Sabbath school 1300 times, officiated at more than 1000 funerals, visited more than 5000 sick and dying persons, and distributed more than 60,000 religious books and tracts.

The town of Detroit, on the Kansas Pacific Railroad, was destroyed by a hail and wind storm recently. No loss of life is reported. Spots on the sun are quite numerous, a group being now visible near the eastern limb, one of which is said by the astronomers to be 5,000 miles in diameter. They do not seem to be numerous or large enough to make much difference in the heat.

Professor Harkness telegraphs to the Superintendent of the Observatory here, from St. Louis, that the results of the eclipse observations were more favorable than the most sanguine expectations. He took 123 photographs—two of totality.

Writes of ejection were recently served on the negro squatters occupying the cabins on Taylor's farm, near Norfolk, Va.; but the sheriff was informed by the negroes that they did not recognize the civil laws, and could only be ejected by the military.

The work of demolishing the two brick buildings at the corner of Ninth street and Broadway, New York, was begun on Tuesday week. In about four months Mr. Stewart's iron building will cover the entire block. The store will then be the largest in the world.

Twenty years ago Pennsylvania was the largest wheat-producing State in the Union, and in ten years it was the sixth, Illinois being the first. Probably Wisconsin will carry off the palm this year, or Iowa; and Pennsylvania will be about twelfth on the list.

At Niagara Falls the Horse Shoe has evidently given way some thirty feet in that part of the cone where the "green water" is seen, so that the horse-shoe appearance is metamorphosed to that of a triangular shape. It is thought that about one hundred and fifty tons of rock must have fallen in on the Horse Shoe alone.

They appear to have a modern Blue Beard out in Wisconsin, for the telegraph announces that a doctor has been arrested on the charge of poisoning his fourth wife, while the fact is well remembered that his third wife died very suddenly but a little more than a year ago.

Obituaries. Died, in Richmond, Va., July 8th, Rev. WILLIAM FOX, in the 60th year of his age. The deceased served a congregation of German Lutherans in Richmond, at the time of his death. Having two sons in Staunton, professors of music in the Virginia Female Institute, about six weeks before his death, then in his usual health, he paid a visit to them, and, at our request, preached a sermon in the German language, for the benefit of some of our members. This sermon on The New Birth, was pronounced by those competent to judge, truly evangelical. Our acquaintance with him was limited, though of a character to impress us very favorably. We trust that he has ended a life of toil for one of reward above. His remains were brought to Staunton, and deposited in the lot of Prof. Fox, in our cemetery.

Died, in Columbia, S. C., July 20th, unexpectedly, and yet expected suddenly, and yet looked for by those who loved her so well, Mrs. MARY RUFFIN MILLER, 53 years old, the wife of Professor Washington Miller. For twenty years a sufferer from a painful and incurable disease, she twice that number of years a handmaid of the Lord, she patiently endured, watched and waited. Here was not the privilege to worship with that met in the house of God to pray, praise, and to take sweet counsel together—hers was not that task to serve Christ before the family circle; the tyrant hand of disease kept her a prisoner within her chamber, kept her often chained to her bed; but though deprived of the congregational means of grace, though shut up in her quiet and silent chamber, her life was not forsaken, nor was her labor in vain in the Lord. Of seven living children who weep their mother, three daughters and one son are disciples of Jesus. The Lord will in his own chosen time answer the prayers of his faithful handmaid, and bring in the three that are yet without. She died hoping, she died believing; she answered the last question, "Is Jesus precious?" with a hearty, cheerful "Yes!" and though she suffered much, she sweetly passed, and left a remembrance on which we gaze, when it is not past, but still as well.

CIRCULAR. THE undersigned will have ready in a few days (Not one and two now ready) a series of NEW PICTORIAL READERS, peculiarly adapted to the taste of children of both sexes, and designed to be useful and agreeable companions for children in the family as well as in the school room. They have been prepared by REV. PROF. J. L. REYNOLDS, D. D., of the South Carolina University, whose eminent talents for such work have long been recognized by educators. The series consists of four volumes: Reynolds' New Pictorial First Reader, 40 Reynolds' New Pictorial Second Reader, 60 Reynolds' New Pictorial Third Reader, 80 Reynolds' New Pictorial Fourth Reader, 140 In these Readers the pupil is led on step by step in easy gradations. The volumes are beautifully illustrated, printed on superior paper, in a clear large type, beautifully bound, and will compare favorably in matter and manner of execution with any similar books now in use. We deem it not improper to refer to a few of the advantages aimed at in preparing these Readers: First, The enlistment of a popular sentiment in favor of home enterprise, which is now beginning to show itself in so many places. Second, To remedy the evil everywhere complained of in our schools of a continual change of Text Books—a costly habit, and one which injures the schools, by preventing the children from being put into classes. A series of Home Readers, it was supposed, would be used as a great degree, and this serious evil thus avoided. Third, Economy—the popular series of Readers now in use being too lengthy. This series consists of fewer numbers than those generally used, and it is believed that their numbers are sufficient; while the system was generally used in our schools, the amount of money expended and children would amount to many thousands of dollars annually.
