is useful to a people only as that peoously achieved by harmonious action. It will require a stronger and more efficacious dose of physic to expel the ness-gnawing the very vitals of commander," some people than the simple construction of any railroad can supply. The eradication and destruction of these only as a man, or a people, help themselves, will a man, or a combination of men, be disposed to assist them. Self-help is a condition precedent to obtaining foreign help.

We simply throw out these reflections as suggestive jottings on which the thoughtful may hang a thread and follow the clew to its termination. Take a calm, business like view of the situation and do not go into ecstacies over the supposed advantages of a railroad, nor on the other hand be attacked by a fit of melancholia on account of anticipated litionist. Having been graduated in withheld his support. Two years rations subject to such freight and a traffic agreement, will shortly be disadvantages and hardships to be endured if the railroad comes. Look Cincinnati. Here he was thrown been an Anti-Beecher faction in tion of its own people, going to the ry. The Southern systems will likeat both sides as much as possible and into a life full of excitement, activ- Brooklyn, a faction led by very able extent of vacating the charters of ly be the first to take the step. The then form your conclusions.
