The beneficiary Cadet sent from this county last fall to the Citadel has been expelled. A vacancy thus occurs, and is worth trying for, boys. Prepare.—Williamsburg Herald.

The Equalization Board held its second meeting last Tuesday to hear complaints and redress grievances. Two parties complained of the action of the previous Session in increasing their assessments. The Board patiently heard them, and then took such action as the facts developed would warrant.

PEARLINE is the most wonderful thing for cleaning household articles, and to save labor in washing, that is before the public. You can test this for only five cents, by calling on BURGESS & COLLINS.

Mr. Ellis has completed his contract on the boiler of the Str. J. W. Cary in a substantial and workman-like manner. The whole steamer is undergoing thorough repairs, being fitted up for a Steam Hoister and when finished will receive a new name, and put upon the Government works of the Congaree.

Owing to the strange phraseology of the bill appropriating \$15,000 to each State for the establishment of experimental stations, the officials of Washington are of the opinion that no money is actually appropriated and that Congress will have to take further action before the bill becomes operative. The only section relating to the subject says, the sum of \$15,000 is hereby appropriated to each State to be especially provided for by Congress from the sale of public lands, the first payment to be made on the 1st day of October 1887.

We have received a circular informing us of the formation of "The North Africa Mission Society." It sets forth the object of the Society to be to lay the foundation for the permanent support of C. L. Powell, a missionary laboring in Algiers, North Africa. The Board of Missions at Richmond declined to assume the responsibility of supporting him in that field, and he, fully imbued with the missionary spirit, determined, to discharge the convictions of his own conscience, to go any way and proclaim the truths of the Gospel to the dying heathen, trusting to Providence and the christian liberality of friends to sustain him.

Ordinarily it is supposed that chicken have a wholesome horror of the presence of Methodist preachers, running for dear life and secreting themselves in some secure retreat. Such seems not to have been the case with a hen of a certain gentleman in the neighborhood of Cool Springs the other day. The preacher staid with the gentleman all night and, presumably, next morning the hen selected the preacher's buggy as a suitable place for a nest and had not completed evolution when the preacher desired to use his buggy to go to church. Unconscious of the hen's presence the preacher harnessed his horse to the buggy and drove to church when to his astonishment and chagrin his traveling companion leaped from the buggy and attempted to make her escape to the adjoining woods. Her owner was present and effected her capture, but the preacher claimed and appropriated the egg.

"Conviction is in itself a power. The man who is sure of what he says, gives assurance to those who hear him. With the world as it is, most men do not know what to believe, nor do they care to be at the trouble to find out for themselves what they ought to believe. When, therefore, a man comes before others with a conviction of his own, and asserts it with a positiveness akin to inspiration, those of his hearers who are hesitating, or who are unconcerned, are likely to be swept along by his intensity, and to believe what he believes because he more than believes it. A man may have a wrong conviction, and so do harm by his power of impressing it upon others; but if a man has no strong convictions, either right or wrong, he must not expect to inspire others to a belief any stronger than his own. The elemental power of a preacher is an overpowering conviction. Unless a man believes a truth so firmly that he is willing to live or die for it, he has no fitness to be a preacher of that truth, whatever it be."

A Good Man Gone. We learn, with sincere regret, that Mr. Isaac P. Skipper died at his home, near Gallivants Ferry, last Sunday. He was a member of the Grand Jury for the current year and was in Conway in attendance upon Court the 21st inst., and was looking remarkably well. He returned home and was taken with pneumonia and died on Sunday.

Mr. Skipper was a good, quiet citizen, an honest christian gentleman, affectionate husband and indulgent father. He was three times elected to serve as one of the Board of County Commissioners, and discharged the duty devolved upon him with credit to himself and satisfaction to his constituents. During his last term, he was Chairman of the Board, and in this time some important questions—the railroad election, the injunction restraining the issue of bonds &c—came before the Board and were judiciously managed. He was an earnest worker in the Sunday school cause, having been superintendent of the Mt. Zion Sunday school for several years.

A good man has gone to his reward. A Credit to Journalism. "Horry is the only County in this State that we have never visited. It is sometimes referred to because of its isolated position, its want of railroad connection. But it certainly has one of the best and best County papers in the State. We have met the gentlemen connected with the Horry Herald, know nothing of their religious affiliations, whether Protestant or Catholic, Methodist or otherwise; but we do know that the paper sent out each week is a credit to the journalism of the State and to the County in which it is printed. The Herald has our best wishes for its continued success and usefulness."—S. C. Advocate.

It is encouraging to receive the commendation of our correspondents, and especially from the source above is laudable a laudatio. There is a brighter day dawning for Horry, when the stigma of isolation and the want of railroad connection will be removed, and she can assert her position as the equal of her sister counties. The staff of the Herald is decidedly Protestant in their religious affiliations from Editor-in-chief to the little Devil that attends to making fires, &c. We are not simply protestant in religious principles, but our efforts will be directed to the eradication of other evils now prevalent in our State and County, and we are happy to know we shall have the pleasure of co-operating with the able Editor of the Southern Christian Advocate in these efforts.

The Presbyterian Church. There has been no preaching in the Presbyterian church of this place for some months owing to the resignation of the Evangelist, Rev. W. C. Smith and his removal to other fields of labor. It was therefore with feelings of rejoicing that the faithful membership heard the announcement that Rev. J. G. Richards, the Presbyterian Evangelist, would preach for them on last Saturday and Sunday. Mr. Richards was chaplain of the 10th S. C. Regiment in the late war and, therefore, had some warm personal friends here. The meeting of friends and acquaintances formed in times and under circumstances that tried men's souls and mettle, revives old recollections and sympathies that naturally attract each to the other. It is, sometimes, pleasant to set down and recount war experiences and inquire after absent comrades and to learn of their well-doing and prosperity.

Mr. Richards delivered some excellent and instructive discourses. His sermons are argumentative and persuasive, provoking the assent of hearers to the truths uttered. He aptly elucidates the intricacies of his subject by frequent and appropriate illustrations. He is a forcible reasoner and accepting his premises one can scarcely evade the conclusion. Yet many men yield intellectual assent to the Gospel truths enunciated by the preacher, that refuse to perform the duties demanded of them and thereby make their lives correspond with the requirements of those truths. Mr. Richards has left the fragrance of Christian influence and doctrine behind that may (and we hope will) result in lasting benefit to his congregation.

Three courts have decided that a marriage by telegraph is illegal. If you want to make an absolutely sure thing of it, get married by a minister. A rich man who began life as a boot-black, having remarked that he had taken a box at the opera, some one meanly remarked if a brush went with it—

We would be glad to see such steps taken and we are sure that when the resources of our county are partially developed, it will compare favorably with any other in the State.

The Rustic Seer

This poem was written by Miss E. Powell, and published in the Literary World in 1885, and by request of a special friend we re-produce it. As I sat on the rustic seat by the river And watched the evening pass, And thought of the days when truth and love Were in their beautiful prime; When man's soft voice and woman's love Were something truly sublime.

We would be pleased that all our farmer friends, especially those who desire to see and assist Horry to make decided advance in agriculture, would speak out on this like "No. 4." The inauguration and subsequent success of such an institution develops mainly upon the advanced and aggressive farmers, and we do hope they will lay hold on the present opportunity and work out their agricultural salvation with honorable distinction. "No. 4" is a practical and successful farmer and is in a position to appreciate a County Fair at its proper value. Don't be backward, farmers, in interchanging views on this important subject.—Ed.
