

VOL XXV.

AN INDUSTRIAL SCHOOL

An Effort to Establish One in Horry County.

MRS W L WAIT'S GOOD WORK

The Plan as Outlined by Dr E O Watson is to Raise \$50,000 by Popular Subscription and Bond the Company for an Additional \$50,000 and Build School House and Accessories.

The Conway Board of Trade held a meeting at the Waccamaw Club rooms last Thursday evening to hear Rev. E. O. Watson and others for the purpose of establishing in Horry county an industrial school for boys and girls, and farm demonstration work. Dr. Watson has been in this enterprise for several years and it appears to be the one ambition of his life to establish such an enterprise in Horry county and devote his time and energy and the unusual talents which he possessed to the development thereof, and training of the rising generation in this part of the State. He made a very interesting address before the Board of Trade, in the course of which he outlined his plan for establishing the school and finally paying back to the subscribers dollar for dollar as well as get dividends.

The plan outlined by him is to purchase a large tract of land containing between three and five thousand acres of land, of which one thousand acres would be reserved and owned by the school and other equipment, while the remaining lands would be improved by laying out roads and drainage and selling out to farmers who would be induced to locate.

He stated that judging from past experience that the land in Horry county as well as in the other counties of Eastern Carolina, in course of ten years time would under proper conditions become worth three or four times the original purchase price. The plan therefore would be to purchase \$50,000.00 and purchase the land and erect the buildings, then bond the company for \$50,000.00 more, and in the course of ten years or longer, sell out the remaining lands with large profits and repay the stock to the stockholders, as well as the dividends, and each stockholder would still own his stock in the remaining land and school equipment.

Speeches were made by R. B. Scarborough, C. P. Quattlebaum, F. A. Burroughs, D. A. Spivey, and others. Much enthusiasm was shown in the enterprise and subscription lists were carried around on Friday to those who were interested.

Mr. Watson left Conway on the afternoon train of last Friday, and before he left the total of subscriptions taken by the business men of the town, we were informed, amounted to about \$17,000.00. Mr. Watson stated that as soon as \$25,000.00 of the amount should be subscribed by the people of Horry county, he could get the remaining \$25,000.00 subscribed by people outside of the county.

James Brown Drowned.

James Brown, a colored hand employed by the Georgetown Lumber Company, was drowned in Kingston Lake last Sunday afternoon, and his body was recovered by Ol Harrelson by means of diving. The man lived at Bucksport or in that section of the county, but he had been employed here. He was in bathing in the lake with a crowd of other negro men and boys and with the others was trying to swim across the lake to some timber logs on the opposite shore. The others crossed, but Brown gave out when in mid-stream and despite efforts made by the others to save him, he was drowned.

A GOOD PROPOSITION.

An Industrial School to be Located in Horry County

On Thursday night of last week Dr. Watson met with the Conway Chamber of Commerce, and outlined in full his plan for the establishment of an industrial school in our county. As to the great benefit to be derived from the establishment of the school in our midst I think we are all agreed, so we will not take time just here to discuss that phase of the question. But, when we are told that it will take \$100,000.00 to carry out the scheme, we stand off and ask, can it be done? The great HOW stares us in the face. But here again the master mind of Dr. Watson comes to the rescue, and he discloses a scheme of finance that not only makes the school an assured success, but which also holds out to the stockholders great prospect of a handsome money making deal.

To know how to go forward we must look backward. And that is what Dr. Watson did. For twelve or fifteen years he has been chairman of the board of trustees of Columbia College. A few years ago Mr. Hyatt, of Columbia, offered the College twenty acres of land if they would move just outside of the city. The offer was accepted, and the handsome new College buildings were erected on the tract. At that time, says Dr. Watson, a thousand acres of land could have been bought adjoining the school tract for one hundred dollars an acre. Now this same land is worth from one to two thousand dollars an acre. If the College, before building, had bought a thousand acres of land then at the market price it would now be independently rich. But it did not do it.

Profit by this experience Dr. Watson submits the following proposition:

PROPOSITION.

The organization of a corporation under the laws of the State of South Carolina, with a capital stock of Fifty Thousand Dollars (\$50,000.), authorized to purchase a desirable tract or tracts of land of not less than one thousand acres, preferable five thousand (5000) acres, of contiguous tracts, if possible, and the establishment and the maintenance of an Industrial School and experimental farm thereon. Five hundred to one thousand acres of land to be reserved specially for school and experimental farm purposes, the balance of the land to be surveyed, the levels taken, roads laid out through the property, maps made showing elevations, etc., to be made for future use, and the same sold from time to time in conveniently small parcels or tracts for the establishment of a co-operative rural community. The school buildings, the farm and all equipment above referred to will remain the property of the original stockholders in proportion to their original stock.

Provided that if at any time, in the discretion of the stockholders, without detriment to the institution said school may be affiliated with or made a part of the common school system of the State by sale or other wise, such sale or affiliation may be made.

It is understood that options have been secured on vast tracts of land in various sections of the county. I have been told, but I don't know how true it is, that these lands can be purchased for the school purpose for seven dollars an acre ridiculously low price when we consider that farm lands in other counties are now selling for from \$100.00 to \$200.00 an acre.

It is now easy to see how the scheme will work. Put \$50,000.00 in lands at these low figures, bond the company for another \$50,000.00 and put the school in the midst. Then sell off the lands at the greatly enhanced value. These lands can be easily sold for three or four times the purchase price, the bonds retired, the school paid for, and money returned to the stockholders with a liberal interest besides leaving them the school and farm as their own property.

But, \$50,000.00 is to be raised. Again Dr. Watson comes to our rescue, and tells us that if \$25,000.00 can be secured in this county to give him backing to go abroad with, he will undertake to raise the other \$25,000.00 among the financial men of the State. The people of the town have promptly come across with about \$17,000.00 in subscriptions to stock. The rest must be raised and raised immediately. Other sections of this State and other States are trying to get Dr. Watson to go there with his scheme. He wants to stay in Horry, but he can not do it unless we want the school bad enough to come across with the stock. We must act and act now.

The school is to be non-denominational and located in the county. The whole county will thus be benefited. Every foot of land will be enhanced in value. New people with improved methods of farming will be brought to our midst. The farmers and land holders are the ones to receive largely the reflex in-

Some Good Work By the Itinerant Instructors.

BIG CROWD IN ATTENDANCE

A Fine Exhibit of Stock and Other Products of These Colleges. Some Practical Lessons in Farming. The Prize Winners.

The demonstration train of Clemson College and Winthrop College arrived in Conway last Monday night and remained over in the town until a late hour on Tuesday. Upon the arrival of the train in Conway, the coach in which the professors and lecturers were riding, was shifted out of the train and pulled out to Myrtle Beach where the party enjoyed a surf bath and a night of cool breezes. The car returned to Conway on the following morning and at an early hour the train was pulled upon the Conway Coast & Western tracks near the Burroughs Graded School building, where the cars were opened to the public, and the school auditorium was used in connection with the lectures and demonstrations.

The coming of the train had been well advertised through the papers. Conway was the only stop to be made in the county and this fact drew people from Loris, Bayboro, Homewood and other points. At an early hour on Tuesday morning the people began pouring into the town from all directions, and Conway had more people during the day than was expected would attend. The stay of the train at this place was certainly successful in making demonstration to the people of the many agricultural subjects treated. Throughout the greater part of the day, the crowd of people passed through the cars and were interested to hear the many things told them by the professors concerning modern methods of farming. All those who visited the cars, whether farmers or those belonging to other callings, went away feeling that they had been benefited by what they saw and heard. The Winthrop car was especially interesting to the ladies, for here home conveniences were set forth in attractive and instructive style. The cars containing the live stock came in for a large share of the attention given to the train by the many farmers in the crowd.

LOCAL COOKING CONTEST

The cooking contest by the ladies of the county was concluded at the school building on Tuesday, and in this great interest was manifested. A large number of ladies took part in the contest and the display of culinary articles were good to look at. The judges were Mrs. L. E. Long, Mrs. B. T. Hyman, Mrs. S. E. King, and Misses Hyde, Hough and Benton of the Winthrop car. The following are the prize winners in the cooking contest:

- Best Pound of Butter—1st prize, \$4 pair of shoes and \$2 cash, Mrs. N. Sweet.
 - 2nd prize, \$2 flower stand and \$2 cash, Mrs. E. M. Pettinger.
 - 3rd prize, \$1 umbrella and \$1 cash, Mrs. C. S. Deitz.
 - For Best Cake, any kind—1st prize, \$6 willow rocker, Mrs. J. P. Derham.
 - 2nd prize, \$2 griddle and \$2 cash, Mrs. A. M. Dusenbury.
 - 3rd prize, \$1 pair silk gloves and \$1 cash Miss Emma Derham.
 - For Best Loaf Bread—1st prize, \$5 fountain pen and \$1 cash, Mrs. S. O. Green.
 - 2nd prize, \$4, Mrs. J. H. Cook.
 - 3rd prize, 75c silk veil and \$1 cash, Mrs. J. Lewis Lee.
 - For Best Biscuit—1st prize, \$4 box candy and \$2 cash, Mrs. J. B. Cox.
 - 2nd prize, Cut glass dish and \$2 cash, Mrs. J. A. Lewis.
 - 3rd prize, 90c sack of flour and \$1 cash, Mrs. D. A. Spivey.
 - For Best Muffins—1st prize, \$5 dress and \$1 cash, Miss Susan E. Hanson.
 - 2nd prize, \$1 25 pair gloves, 75c scarf and \$2, Miss Thelma Moore.
 - 3rd prize, \$2 cash, Miss Ella Dils.
- The other exhibits were fine, although they did not get any of the prizes.

A "Home Maker Club."

At the close of Miss Hydes' lecture on sanitation and home making here Tuesday, a "Home Makers' Club" was organized with temporary officers. A meeting for permanent organization and outline of work is hereby called for Friday afternoon at 5 o'clock at the Burroughs school building. All ladies old and young, in any way interested are urged to be present.

DANCE AT MYRTLE BEACH HOTEL

A Brilliant Society Event Booked for Friday Evening, June 30.

The opening dance at Myrtle Beach Hotel will take place Friday evening of this week. An orchestra of four pieces will be on hand to furnish music and it is expected that a good crowd of the young people of Horry county and nearby places will be on hand. A number of people from abroad are also expected to be present and the cottagers are all wide awake at the prospect of a lively season.

A cordial invitation is extended to the devotees of terpsichore to be present on this occasion. The Messrs St. John & Son are making quite a number of engagements for the season and the outlook for a full house is very promising. Returning from Myrtle Beach train leaves 11 p.m. Friday night or 7 a.m. Saturday morning.

"Put Up or Shut Up."

Mr. Editor: Please allow me space in your paper to say a few words to the people:

Who are causing such a disturbance about the action of our Governor? We are living in a grand and independent nation, and are trying to harmonize and Christianize other nations and to bring to pass that part of the Scripture which reads "Wars shall cease and swords shall be beaten into ploughshares." etc. We spend millions each year to maintain and support a large army, but I fear if the whole United States were as much wrought up with the President as the people of South Carolina are with our Governor any weak nation could come in and thrash us and carry away our noble young men as Daniel, Shedrack, Mashaack and Ebednego were carried from Jerusalem to Babylon on account of deficiency in nationality. Watch out that T. B. Felder does not get whipped by South Carolina's Governor.

I think if Governor Blease is pardoning so many convicts from a wholly sympathetic standpoint he is the best Governor South Carolina ever had, but if he is using his power to grant special favors to his friends and brother grafters and as a bargain and sale to obtain votes, prove some of these offenses, crap his wings and put him out of office and don't have so much say about it for it is not wise to speak evil of ministers and rulers, so "show up" or "shut up," and be more cautious next election.

I am yours for peace and prosperity. Farmer. Galivants Ferry Route 1.

Cotton Blooms.

The Herald received last Friday a cotton bloom from the crop of Mr. L. S. Suggs, who is farming on what is known as the J. H. Cook place, near Sanford, S. C., and which was purchased by Mr. L. D. Suggs some months ago from Mr. Cook. This place has growing on it ten acres of cotton and fifteen acres in corn, and these are said to be the finest crops in the community, by those who have seen them. Before the place was purchased by Mr. Suggs, and work energy applied, it was not counted as being worth very much for raising good crops.

F. M. Johnson, who lives near Jordanville, brought a cotton bloom to this office Monday, which was taken from his large and well cultivated field. Mr. Johnson is 73 years old and is a firm advocate of diversified farming. Food crops enough for home consumption and then the money crops as a result he buys neither corn or bacon having his corn crib and smoke house in his own backyard.

The Herald has received a cotton from Mr. E. J. Roberts whose, P. O. is Galivants Ferry R. F. D. No. 1, Mr. Roberts is one of the most industrious and progressive farmers of that section of the county and notwithstanding the adverse seasons which the county experienced this year Mr. Roberts has a very fine crop of cotton and corn. The bloom above mentioned was picked from his cotton farm on June 21st.

The Herald acknowledges with pleasure the receipt of a cotton bloom from Mr. Jim Sing, who picked the bloom from his crop on June 20th. Mr. Sing is working hard to produce a fine crop near Thompson, S. C. His crops are good considering the dry season recently broken.

From a Farm Boy.

I am not to be outdone by the other farmers in having early cotton blooms as I had one on June 22nd. My cotton is grown with the Big O fertilizer and looks fine considering the dry weather. The cotton crop will be to about half this year on account of the dry weather.

Let's see who will cut the first watermelon this season. Needam Harris.

Influence. To in my opinion it is now up to the people in the country to put up the balance of the stock needed. No one is asking you for a donation, it is an investment that will pay you handsomely. So let us have your subscription to stock immediately. It must be raised now if at all. But of course it will not have to be paid in within this year and very likely, the payments will be made by installments. The stock list is in the office of L. H. Burroughs drop in there and sign up for as many shares as you can take, and do it now.
