CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's merely calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work and play. It's harmless, pleasant and safe to give to children; they like it.—adv.

KERENSKY GOVERNMENT IS OVERTHROWN

London.—The Maximalists have obtained control of Petrograd and issued a proclamation saying the new Government will propose immediate peace, the semi-official Russian news agency announces.

The Maximalists were assisted by the Petrograd garrison, which made possible a coup d'etat without bloodshed. Premier Kerensky has been deposed. Leon Trotsky, president of the central executive committee of the Petrograd Council of Soldiers and Workmen's Delegates, issued a declaration to the effect that the Provisional Government was no longer in existence and that some of its members had been arrested. The preliminary Parliament has been dissolved.

AWAIT DETAILS ON ALGEDO'S SINKING

One Officer and 20 Men of U. S. Patrol Vessel Unaccounted For

CONVERTED YACHT SANK IN 4 MINUTES

Darlington Boy and Charleston Negro Among Those Missing.

Washington.—The Navy Department today was awaiting from Vice Admiral Sims a complete report on the torpedoing of the American patrol vessel Alcedo, which went down in the war zone early on Monday morning with probably loss of one officer and twenty men. The Alcedo a converted yacht, apparently was hit in a vital spot, as only four minutes elapsed before she plunged below.

The department early today gave out a list of those unaccounted for and announced simultaneously that vessels were combing the waters in the vicinity of the sinking for possible survivors. Of the Alcedo's full complement of seven officers and 80 men, 71 are known to have been rescued, but little hope is held out for the possible safety of those reported missing.

Unaccounted For. The Navy Department announced that the following members of the Alcedo's crew are still unaccounted for:

DESIRABLE RESIDENCE FOR GOOD CITIZEN

The Horry Land Agency has in hand for sale on attractive terms the eight room dwelling and the lot on which it stands, owned by Mr. A. M. Sutherland, near the handsome residence occupied by him; and which is a very desirable home for a good family. It is situated in the Gully section which has been constantly building up for many years. It is a splendid neighborhood where one would wish to stay. The place is at present occupied by Prof. Power W. Bethea. Look the place over and see M. M. Hedrick at Hotel Grace who will give you the terms on which you may purchase this nice home.—adv.

MEN FOUGHT WELL AGAINST GERMANS

With the American Army in France.—Complete details and verified reports of the recent German trench raid show that the American troops on that occasion set an example for courage and valor unequalled. The officer who had charge of verifying the accounts of the raid said to the correspondent today: "I am proud to say that our men engaged in the fight did everything, within their power. They jumped into the fight and stuck to it. In the first place the troops had been in the trenches less than three hours when the barrage fire of the Germans began. They had marched a good part of the previous night and were tired. Some of them were allowed to go to sleep in a dugout 25 feet underground.

"When the barrage began these men did not hear the racket. It is apparent that they first knew of it when the Germans started throwing grenades down upon them. It was these men who were taken prisoner but they fought well, even when surprised that way, for the stairs of the dugout were covered with blood, and especially the top half, showing that the Germans there must have been hit. The entrance to the dugout also gave indications of close hand to hand fighting.

From the dugout, the trenches and over the top through the barbed wire and well out into No Man's Land there was a wide red trail. How much of it was American and how much German blood is not known.

"There is a corporal now in the hospital back of the line who did a good job. He was in the listening post when the barrage began. During the firing an officer made his way through the shells—God knows how—and yelled to the corporal to go into the dugout. There the corporal saw the officer's lips moving but did not understand the command and remained at his post. At the end of the barrage he saw Germans all around him—five being right in front of him. He took careful aim and fired three shots and three of the enemy were seen to fall. Then a hand grenade fragment entered the corporal's back and put him out of action."

Investigation shows that all the American telephone wires between the observation posts and trenches and batteries at the rear were cut by fragments of German shells, which numbered approximately 50,000. The Germans crossing No Man's Land rolled up telephone wires behind them and set up a small field telephone exchange outside the American barbed wire with branch lines running to at least three points, while the raid was in progress, to direct the enemy artillery.

WHEAT GROWING CAMPAIGN FOR HORRY

Supplementing our announcement in the Field last week which we failed to get in the Herald on account of it having gone to press, in regard to the Wheat Campaign, we have received a number of names of parties who will plant wheat. A sufficient amount having come in we feel justified in making announcement that we have ordered 500 bushels of seed wheat to be shipped at once. This wheat will be sold to the farmers at cost and we will arrange for a small flour mill to be erected in Conway in time for making flour out of next spring crop. Flour is getting to be very high and very scarce and we urge all of our farmers who have land suitable to prepare a small acreage at once, so that it may be planted as soon as the seed arrives, which will be in a few days. This is important, as the season is getting near an end for planting in this section.

The flour mill will be erected but we will appreciate it if all those in the County who plant wheat will send in their names, indicating the acreage planted as it will be of more benefit to us in determining the size of the mill to be erected.

Respectfully, E. A. BURROUGHS, Chairman Council of Defense.

Camp Jackson will receive another detachment of 250 men from Camp Gordon.

Just What He Wanted.

(From the Atlanta Journal.) The old gentleman in his heart did not object to the young gentleman as a son-in-law, but he liked to raise objections and then reach an agreement as though conferring a favor. When the young man called he was ready for him.

"So," he interrupted, fiercely, almost before the suitor could commence, "you want me to let you marry my daughter, do you?"

The young man very coldly responded:

"I didn't say so, did I?"

"But," the old gentleman gasped, "you were going to say so."

"Who told you I was?" inquired the applicant, seeing his advantage.

"But you want me to let you marry her, don't you?"

"No."

"No!" exclaimed the old gentleman, almost falling off the chair.

"That's what I said."

"Then what the mischief do you want?"

"I want you to give your consent," replied the youth pleasantly. "I am going to marry her, anyhow, but we thought your consent wouldn't be a bad thing as a start."

It took the old gentleman a minute to realize the situation. When he did he put out his hand.

"Shake hands, my boy," said he, "I've been looking for a son-in-law with some pluck about him, and I'm sure you'll do first-class."
