

B-I-G AUCTION SALE

The farm of the late U. S. Davis, known as the Ariel plantation at Ariel cross roads, 1 1-2 miles of Rains, S. C., nine miles from Marion and same from Mullins, S. C., with two of the best sand clay roads in the County running through it, to be sold at auction. We believe that every buyer of this magnificent property will readily and quickly realize a good profit on his investment.

This farm is already brought to a good state of cultivation, its worth as agricultural land has been proven. It produces, the yield is assured, therefore, every year there must be enhancement in value, and there must be profit because it is ready to bring results.

This land will not only raise a bale of cotton to the acre, if properly cultivated, but will raise corn and oats. This is good tobacco land. Therefore, with more money than ever in

the history of the country the man with a small farm to work or a small farm to sell is going to make money and no mistake. These 539 acres have been subdivided into small farms and are not only fertile and in a good state of cultivation, but the location is ideal, lying as it does on two main sand-clay roads, one leading to Conway and almost in sight of one of the best schools and churches in the county. There is lots of difference between land of this character and land lying somewhere almost beyond reach and on roads that cannot be traveled.

Terms given will place the property within the reach of everyone. Sale on the grounds rain or shine, Monday, December 10th, at 10:30 A. M., on the grounds.

Terms, one fourth cash; balance in one, two and three years with 8 per cent. interest on deferred payments.

Four houses and all necessary outbuildings.

FREE LUNCH WILL BE SERVED ON THE GROUNDS, MUSIC BY OUR BRASS BAND. EASY TERMS.

THIS COUNTRY NEEDS MANY VOLUNTEERS

RECRUITING STATION, U. S. ARMY
Savannah, Georgia.

November 15th, 1917

To American Citizens:

"YOUR COUNTRY NEEDS YOU"

The war is on. The American Troops are at last battling their victory on French soil; the German Troops have tackled them time and time again, only to find the stone wall of America impregnable. The grand old Stars and Stripes are flying over the trenches and battle fields of France. The United States has declared war; armies are being organized; the first line troops are pouring steel into the German trenches.

Germany has undertaken to destroy the freedom and democracy of the world, and America has undertaken to uphold the traditions of our forefathers and uphold the freedom and democracy she so gallantly fought for. To do so she must have the co-operation of her people. Young men will you fight? Are you ready to follow in your forefather's footsteps? Do you believe in freedom, democracy and a united country of patriotism? Are you ready to protect your flag? Are you going to stand by and listen to the agony of a trodden people of Belgium and other countries who are being mutilated by a government that has no other object in view than to conquer the world and snatch from you the freedom you and your forefathers have enjoyed since the Declaration of Independence of America?

It is the duty of every man to offer his services to his Country. Some cannot go; some will not be permitted to go, but it is the duty of all between the ages of 18 and 40 to volunteer and offer their services. Young men are you going to wait until it is too late to volunteer? Are you going to wait until you are conscripted? When you are called before the board, you then forfeit your right to volunteer, and will have to serve in any branch the government sees fit to place you. If you volunteer you may choose the branch most

suited for you. Are you going to be branded a "slacker"? Are you going to allow the community to refer to you as "The man afraid to fight for his Country?" Are you going to watch your friends go to the front and fight for freedom and still hold back?

The Volunteer Army is open for you. Any branch of the service. The government has ten million men to conscript. If you don't volunteer you will have to be among the class of men that had to be conscripted. Volunteer now—the army is open for you. Consult your Postmaster or write to any of the different recruiting offices listed below:

Charleston, S. C.; Florence, S. C.; Cheraw, S. C.; Greenville, S. C.; Aiken, S. C.; Spartanburg, S. C.; Columbia, S. C.; Rock Hill, S. C.; Savannah, Georgia.

If you are ready to volunteer, your Postmaster, or any of the above stations will arrange for your transportation. Don't wait—Volunteer Today.—Be one of the first.—Don't be a Slacker.—Don't lag back.—Don't be caught in the draft. Men of all trades and professions are needed. Red blooded Americans are always ready to fight.

There are two classes of men—one who will fight for their rights, and one who expect some one else to fight for them. In which class are you? Your services are needed.—White and Colored.—Come one, come all.—Don't wait until the enemy is at your door.—Hold him back.

B. H. CHEEVER,
Lieut. Colonel, U.S.A., Ret.,
Recruiting Officer.

The Injun.

The copper cent they used to make, It has an Injun on it,
The warpath he's prepared to take; You know it by his bonnet.
A copper here, a copper there—
With thrift that ne'er relaxes,
We'll round 'em up with patient care
And make 'em pay the taxes.
With courage that can never fail,
And strength that won't diminish,
Those Injuns now are on the trail
And fighting to a finish.

AMERICAN GUNNERS

INDULGE IN REPRISAL

With the American Army in France.—The enemy artillery firing is more active along the American sector. No new casualties have resulted. In reprisal for the shelling of the town in which the American headquarters is located, during which a shell fell on an American regimental headquarters, Americans sent an equal number of shells into the town behind the German lines the next day.

Patrolling operations continue rightly, but the Americans have failed to encounter any Germans and no further casualties have been reported.

The officers who have served their turn in the trenches with the battalions already relieved have held a meeting with the commander of the first contingent and discussed their experiences.

All agreed that actual training in the trenches under fire is the ideal method of acquainting officers and soldiers with fighting methods.

Argumentative Woman.

The argumentative woman is a social blight and an enemy to her own charm, be she otherwise as attractive as it is possible for a body to be. Argument in itself is a dignified mental process—one absolute necessity for the world's intellectual development, but it ceases to be a thing desirable when it enters every-day verbal intercourse more than an exceedingly rare every so often. Plain common sense should tell us the reason why.—New York Evening Telegram.
