You Can't Rub It Away; Rheumatism is in the Blood

Lintments Will Never Cure. If you are afflicted with Rheumatism, why waste time with lintments, lotions and other local applications that never did cure Rheumatism.

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that.

SHIPMENTS CONTINUE SAYS DANIELS Baltimore.—Submarines or no submarines the United States, will continue fearless to send troops to France.

Just as fast as our ships can carry men to Europe they will go, continued Mr. Daniels, "and just as fast as they are equipped they will be sent and ships will carry them."

Holden A. Evans, president of the Baltimore Dry Dock Company in an address preceding that of Secretary Daniels, insisted that the government must make drastic laws to regulate the wages of labor and hours of work.

"It has been given out," said Mr. Evans, "that 6,000,000 tons of overseas ships will be constructed in 1918. I regret these every new stories have been sent out from Washington. There are a lot of 'ifs'."

"There are hundreds of houses at Locust Point now occupied by persons not engaged in the shipbuilding. These houses must be commandeered and transportation must be improved."

"The government has failed in its duty. The arm of the government should be brought down to fix a stated wage and hours of work for labor."

"I do not agree with those who say that labor will not help win the war," said Secretary Daniels in replying to

the statement of Mr. Evans. "When a house in the newspapers that there are 10,000 men on a strike you can be sure there are also 10,000 others at work building ships and making munitions."

ALL ALIEN ENEMIES REQUIRED TO REGISTER

General Rules and Regulations: General Rules and Regulations, prescribed by the Attorney General of the United States, under the authority of the President of the United States, dated November 16th, 1917, for registration of German Alien Enemies, have been issued to the following Chief Registrars in the Eastern District of South Carolina, to wit:

The Postmaster, Charleston, S. C. The Chief of Police, Charleston, S. C. The Chief of Police, Columbia, S. C. The Chief of Police, Florence, S. C. The Chief of Police, Georgetown, S. C.

The Chief of Police, Orangeburg, S. C. The Chief of Police, Sumter, S. C. Time of Registration. Registration of German Alien Enemies is fixed within said District to commence at six A. M. on February 4th, 1918, and to continue on each day successively thereafter between the hours of six A. M. and eight P. M. up to and including the 9th day of February, 1918, at eight o'clock.

Registration of Alien Enemies, Suggestions and Instructions to Registrars. Persons required to register should understand that in so doing they are giving proof of their peaceful dispositions and of their intention to conform to the LAWS of the UNITED STATES.

Every registrant should read carefully the form of registration affidavit handed to him and ask the registration officer for an explanation on all points not clear to him before attempting to fill out the blank. Registration officers are instructed to give registrants all possible aid in the way of explanation and advice.

EACH registrant is required to furnish four unmounted photographs of himself, not larger than 3 by 3 inches in size, on thin paper with light back ground. All four photographs should be signed by the registrant across the face of the photographs, so as not to obscure the features, if the applicant is able to write.

Three blank forms of registration affidavits must be completely filled out by the registrant or his representative (with the exception of the blanks indicated to be filled out by the registration officer and the description of the registrant and the placing of finger prints on the blank) and must be produced by the registrant personally to the registration officer and be signed and sworn to by the registrant in the presence of and before the registration officer, who will fill in the description of the registrant and supervise the fixing of the finger prints and the attaching of photographs. If the registrant cannot write he must make his mark in the signature space and affix his left thumb print in the space provided opposite the signature space.

The finger printing is a method of identification and follows the practice observed in the military and Naval Service of the United States. The registrant's fingerprints must be taken before the registration officer who took his bath after 10 days but before 15 days from the last day fixed for registration in his registration district to obtain a registration card upon which he must sign his name, or make his mark, and place his left thumb print in the presence of the registration officer.

Let Us Help You. Times of war when nearly everything has to work under changed conditions; when prices of things the people use are higher than ever; when we all have to deny ourselves the things which we formerly used in plenty: Such is the time of all times when we need to help each other. Our experience lasting over many years in keeping up with the markets where the things the people need are distributed, and knowing how to buy carefully and obtain the goods that will do the most good: we feel that we are in better position than ever to help each and every customer who trades with us during the year 1918. Thanking each and every customer for the patronage we have had during the past, we respectfully ask for a continuance of good will during 1918. DUSENBURY & CO. Toddville, S. C.

MUSTANG For Sprains, Lameness, Sores, Cuts, Rheumatism Penetrates and Heals. Stops Pain At Once For Man and Beast 25c. 50c. \$1. At All Dealers. LINIMENT Keep Hands Off Wounds. A wound should never be touched with the bare hands. It is better to cover it up just as it is rather than to run the risk of introducing another colony of perhaps even more dangerous germs. If possible, however, the wound should be washed out with an antiseptic solution. If water is to be used, it should have been boiled at least ten minutes, as simply bringing it to the boiling point will not kill the germs.

FRANCE WILL FURNISH SUPPLY OF ARTILLERY New York.—Announcement that France will be able before July 1 to manufacture enough artillery to supply 20 American divisions or approximately 500,000 troops, if the United States meanwhile adheres to an understanding by which France would receive the necessary raw material from America was made here tonight by Andre Tardieu, French high commissioner to this country. Mr. Tardieu declared also that there are in France today more American troops than comprised the American army at the time the United States entered the war. At that time, he said, the American army contained about 212,000 officers and men.
