CAN THEY AFFORD

One of the most important things for a farmer to decide when thinking of buying a car, is whether or not he can afford to have it and maintain it. At the present time he can buy one on credit if he chooses. This means that he can get the car whether he has money to pay for it with or not. Can he afford, this is the question he should put to himself. He must remember in making a decision that he will have expense in running it and maintaining it.

MANY PLEASSED

Many expressions of satisfaction with the prices of tobacco were heard here last Wednesday and at other sales made during the week. The primings or first of the crop brought more in many cases than the growers expected. They were pleased at it.

CIRCLE MEETING

The Belle Bennett circle met with Mrs. H. W. Smith on Burroughs street with ten members and one visitor, Miss Johnnie Atkinson, present.

After the devotion which was conducted by our leader, Mrs. Parker, the following program was carried out:

Subject: "God Seeking China."

Enlargement on the Bible lesson, Mrs. Smith.

Solo, "Moment by Moment," Mrs. C. R. Scarborough.

Gospel Stories From a House Boat, Mrs. Moore.

Dialogue, The Missionary Society That Lost its Voice, Madams Parker and Platt.

Miss Sallie Leddingham, our honorary member, reported some missionary work that she has done, that is worthy of note. Through her personal effort she has secured donations sufficient to present two pairs of sheets and pillow cases to Mr. Seaman who is working his way through Ashbury College, preparatory to being a missionary.

Miss Johnnie Atkinson presented the Belle Bennett memorial which is to be an enlargement of Scarrett Bible and Training School to be built at a cost of half a million dollars. Marion District's quota is \$1,800. She asked that each member of the circle subscribe for one share.

After ice cream and cakes were served by the hostess and Mrs. Parker the circle adjourned to meet in September with Mrs. Platt.

WIN THE PRIZES

Up to last Tuesday the farmers received the prizes offered by merchants of Conway to the farmers selling tobacco on the Conway market for the highest price each day and the prices received by each were:

T. B. Brown, 55c.
Johnson and Spivey, 41c.
O. R. Martin, 40c.
J. B. James, 49c.
F. M. Norris, 65c.

These high prices speak well for a number of Horry County growers.

There was one day since the market opened when no farmer appeared to claim the prize for that day.

of the Magistrate court to try. The warrant was issued by magistrate W. H. Chestnut.

MEEKS SERVES FOR SLAPPING

J. B. Meeks, a resident of the section just across the river beyond the steel bridge, was tried before Magistrate W. H. Chestnut last week and got a sentence of thirty days or a fine of fifty dollars for slapping his wife.

There were aggravating circumstances surrounding the case which reduced this offense to simple assault and battery in the opinion of the court, or else Meeks would have been bound over to the court of general sessions and tried there at the next term, and if found guilty his sentence would have been fixed at a much longer term and a much higher fine by the judge of the circuit court.

It appeared to be that sort of case where charges and counter charges are being made of misconduct on the part of husband and wife.

Meeks is not a very strong looking man, and it is doubtful that he will be of much use to the road forces in doing hard work. It was said that he would not be able to pay his fine, and consequently would have to serve out the thirty days on the public works.

COTTON CROP AT ALLSBROOK

W. L. Alford has a cotton crop this year of one and one half acres. On account of what the boll weevils might do he was afraid to plant too large an acreage. He does not believe his fertilizer was up to the standard as claimed for it.

His cotton is now about an average of waist high. There are plenty of large hills in the field, and on one of these last week he counted one hundred and nine bolls from which he will expect cotton to mature. He is fully expecting to gather one large bale of high grade cotton from this field.

Concerning the boll weevils, there are some in his field and they are working all that they can; but the number does not seem to be enough to keep him from making a reasonably fair crop. He gathers up the squares and also turns some of them in by plowing. He has made a close examination of the squares and he is able to distinguish between those ruined by the weevil and those which were shed off by reason of the recent heavy rains. He had some of these squares in Conway with him last Monday.

RILEYS JAILED FOLLOWING ROW

McKeiver Riley and Marv Riley, a negro man and his wife, living in the neighborhood of Cool Spring, were arrested last week and placed in the county jail on charges of assault with intent to kill Cord Martin and Morgan Martin.

The trouble began since about two weeks ago, before when it is alleged that a son of the Riley's placed a dead dog in the spring of water located near the Martin home in the same community.

The negroes deny that they put the dog in the spring. They also deny that they assaulted the Martin boys with pistols. It is charged in the warrant that the negro man and his wife had pistols and attempted to use these on the white boys.

At last accounts no time had been fixed for the preliminary hearing. The case, according to the allegations of the warrant, is beyond the jurisdiction

One of his neighbors, L. S. Suggs, has a cotton crop which he thinks is being about totally ruined by the weevils. It may be that a part of his loss is due to the wet weather as well as a part to the weevils that are in his field, but he does not believe he will make as much as half a crop. Some of the leaves it appears are shedding off in the Suggs field, while in the field of W. L. Alford none of the leaves have turned brown or red even on the lowest limbs of the stalks.
