 OFFICE PIEDMONT MFG Co., Piedmont, S. C.—Messrs. Westmoreland Bros—Nearly two years ago I contracted malaria into my system, and suffered greatly from time to time from it in various forms in which it developed. Sometimes had severe chills and fevers—indigestions followed it, and I was generally out of health. Last spring for more than two months I was greatly troubled with a disordered condition of the bowels which I believe was the result of the malaria still existing in my system. I visited two or three mineral springs celebrated for the cure of malarial diseases, without the slightest benefit. I was also treated at the different systems developed by the most skillful physicians, but was not relieved. About two months ago I concluded to try Calisaya Tonic, prepared by Westmoreland Bros., but I must confess I had little confidence of being materially benefitted by it. I have taken five or six bottles of the Tonic—from the beginning I felt relief and continued to improve until now, I feel quite as well and in as perfect health as I ever did in my life—and believe I am perfectly well.
 H. P. HAMMET, President.
 [For the Messenger.]
 MR. EDITOR: I will give you a few items about this Six Mile country. Six Mile has been spreading herself for the last five months. There have been several new houses erected in this community.
 Mr. Sphinx Barker has built for himself a new dwelling in about two hundred yards of Six Mile Church, beside his Cotton Gin, Saw Mill, Grist Mill, all at the same place.
 Mr. Robert Williams has built him a nice residence also in a mile of the church.
 They are now building a new church at Crow Creek about three miles and a half of this place, and there is strong talk of building a new church at Four mile, in two miles of the same place, which will bring out this country greatly, and which may enable us to get a more able minister.
 We have recently had good protracted meetings in this community and several members received in the churches. H.
