[For the Messenger.] DOTS ON THE WAY.

[Continued from last week.] In one of the discussions in ref erenece to the ability of some of the churches to do more than they have done in repairing their old churches, or building new ones, so that Sunday School and other religious services might be comfortably enjoyed even during the winter months, W. S. Pickens, one of the lay delegates, Brushy Creek Circuit, took the floor, and made an excellent speech, bristling all along with common sense and practical truths, which no one acquainted with the circumstances could gainsay or deny. He rasped the ministers entirely, or reduced at least 50 per sharply for their beautiful theories, in their several reports from their cers should have their salaries reduced churches, as to the financial ability of to a reasonable compensation for actuthe people, but as an offset to many of al services rendered, or abolish the ofthese theoretic castles he made a most fice altoge. " r, and enjoin the duty upstartling declaration that seven-tenths on our trial astices, at a far less exof the people to-day, if forced to settlement, could not meet their liability and ditor could be abolished altogether, were actually insolvent. Is this an ex- and devolve the duty of assessment upaggeration, or is it a sober reality? Mr. on the treasurer-make it the duty of Pickens is no visionary theorist, but is your legislators, so to change the cola plain, practical man, and is consequently not likely to exaggerate in his once a year, and that in the Fall. Restatements. Besides, on this question of store the old Usury law of seven per financial standing, there was no man cent., instead of ten. This action on on the floor of the Conference, so well the part of a democratic legislature inqualified to speak intelligently on that creasing the rate of interest added to point. Even since the war he has been the indebtedness of the people, millions more or less employed as assessor, sometimes for the County, and always for his own and adjoining townships, and therefore he testifies as to what he has seen and knows. We may, therefore, accept his statement as true. What a sad commentary on the boasted prosperity of the people of this State. Anderson County is said to be the ban. ner County of the State, and in some respects, doubtless, the claim is legitimate. And yet on the testimony of said by some that it is useless to fight this reliable witness, seven-tentlis these appropriations, for the people of her people are virtually insolvent, of the lower half of the State, are de-Doubtless, he meant by this statement, termined on this policy, and we cannot mainly the white people. If Anderson alter it. County is to-day in this pitable condition, how much better off may well credit the people of the whole State. The picture is not over-drawn, and any one who is curious to know may go to the records, and find, like the Queen of Sheba, the worst has not been told. And yet, just before every election some paid interviewer waits upon the Governor, or some other high official, and such a picture of prosperity is made out as would amaze and dazzle the beholder. There is nothing like general prosperity in the country, anything else. There are many reasons that might be adduced for this depression, based upon our defective systems of farming. but as this is election year we beg leave to call attention to the still greater evils of vicious legislation, which prevail in our State and national councils As there will be but one State ticket in the field, calmly consider the question of our State and National finances. The present banking system of the country puts it in the power of the bankers and Wall Street brokers to control the prices of the labor and products of tifty-five millions of people. Already by the stringency in the money market, produced by the contraction of the Na- receipt for subscriptions, Job work and

ready abstracted from the earnings of labor, and trransfered to the pockets of the bankers and speculators. The estimate is based on good authority, that 32,000,000 have been abstracted from the volume of the circulating medium of the country, when it was entirely too contracted before. And yet a democratic house and a republican senate, sitting in the Halls of legislation, from day to day, and making no effort to relieve the distresses of the country, by increasing the circulating medium. Coming down to State matters, the salaries of all our officials might be reduced 20 per cent., without detriment, and then the clerk hire, in most cases, ought to be dispensed with cent. And then the Registration offlpense to the State. The office of Aulection of taxes that it shall be only of dollars, and yet they claim to be the peculiar guardians of the people's interests. Provide at once for funding the public debt, so that the interest may be reduced to 3 or 4 per cent. We have said nothing about the appropriations for the College, the Citadel Academy, and the canal, as the public sentiment, on those appropriations, is so well defined, that no one need make any mistake on those points. But it is T. H. R.

NOT DAAD, BUT SLEEPETH.freight conductor on a certain railway recently reported that a man was lying double l up near the track, some distance back, and ies. Smoke he feared he had been killed. The "Carhart's Lillian" east bound passenger train was telegraphed to stop and examine. The train stopped, and the entire crewand most of the passengers got off in great excitement to examine the prostrate form. 'See how he is doubled up,' said one. 'Poor fellow that must be just the way he fell.' Doesn't seem to be bloody,' said another. 'He moves,' said a third. 'He isn,t dea I, any way; seems to be breathing all right.' 'I don't believe he is much hurt,' said the first man;, 'here, what's the matter? Can't you hear?' The figure raised up, and, wiping his eyes with a pair of grimy fists, said: 'It beats hell if a man can't lay down and take a nap without having an excursion train to turn out and gaze at him.

A POSITIVE AND RADICAL CURE FOR

To the Wires, Mothers, and Sisters of Drinking Men: It lies in your own hands to save the husband, son, or brother from the awful disease of drunkenness. The Golden Specific can be administered without the knewledge of the patient. Hy simply placing it in coffer fea. or in articles of food or drink, its presence will not be detected either by taste or smell, and after a few days TAKING A DRINK OF LIQUOR IS A PHYSICAL IMPOSSIBILITY.

Drunkenness is a dineuse, not a weakness. Primarily the appetite for alcoholic drinks must be cultivated; but when the appetite is once formed, it is as much a disease as any other affliction for which medicine is administered. Every nerve, tissue and pore of the body is but a famished welf with a million mouths guawing upon the system and craving for alcohol. Pledges, temperance lectures, "dreadful examples," prayers, resolutions—all are futile. Not one man in a thousand can withstand the battle; not because he has not the desire, but because he is physically weak. He could as easily abstain from eating food after a famine with a banquet at his hand, as to deay his hungry system in its awful craving for liquer.

THE SPECIFIC AND LIQUOR CAN NOT EXIST IN THE SYSTEM TOGETHER.

It would be amusing, were it not pitiful, to watch the man to whom the Specific has been ven without his knowledge. At first, out of healt, and not realizing that the good work has gun, he pours out his driek. He swallows it and shudders. The next attempt, he raises the liquor to his lips, gets its odor in his nostriis, and a ts the glass down, usually with remark that "somehow, I am not whisky hungry." From this moment he is saved physical prostration, no "jim-jams," no ill-effects will appear - the man is no more a drard than the child who never knew the taste of liquor. The Cure is Permanent. From this moment he is saved.

WIVES, MOTHERS, SISTERS,

Can you afford to neglect this means of saving the husband, son, or brother that you love and desire to save the etring one, so certain do we offer you the means to accomplish such a result. Instead of sitting hopelessly at home, praying for the help that does not come; instead of putting one lota of trust in any system of piedges or reform,

come to the rescue yourselves.

You can administer this remedy quiotity, oesily, and without the patient's knowledge. It never facts, and the cure is Rapid, Positive and Permanent.

In hundreds of cases where Dr. Haines has administered the remedy in his own practice, there never has been a failure. He feels that wretchedness, blighted homes, suffering wives and children, every instinct of humanity, demand that the widest publicity be given this greatest of all beneficial discoveries. It is sold at a price which will enable us to accomplish such a work, while not placing the remedy beyond the reach of any one. The Specific is prepared in powdered form and put up in packages for mailing, or shipping by express. Especial care is taken that the contents can in the divinged to any but the party addressed, as there are many who are sensitive on this point; besides, to let its nature be known might frustrate the plans for its administration. One package will care any ordinary case. Two packages will cure the most obstinate case. This is positively guaranteed, ar money one Order, 65.60. Send Money by Registered Letter, Express, Postal Note, or Money Order. Address such and make Ald, payable only to
